CORPORATE PROFILE

CORPORATE PROFILE

International Steels Limited "ISL" is the largest Flat Steel manufacturer in Pakistan. The company was incorporated in 2007 and commenced production in 2010. To date, the company has invested approximated US\$ 300 million in establishing a state-of-the-art flat steel complex.

ISL's manufacturing facilities are located on a 32 acre piece of land in the Port City of Karachi, where the company produces Cold Rolled Steel, Galvanized Steel and Color Coated Steel for numerous industrial and commercial applications. The company has also established a Service Center on a 15 acre land in order to provide value added products to its customers. ISL has a strong nationwide supplier network that is served through regional offices in Lahore, Islamabad and Multan. ISL exports its products to more than 30 countries worldwide.

In its short history, ISL has carried out extensive large scale expansion activities to enhance production. With the recent expansion, the company now has a capacity of over 1,000,000 Metric Tons.

The company has played an important role in developing the large scale industrial manufacturing sector of Pakistan. ISL's high quality steel serves as an essential input for various upstream and downstream industries of the country. Through consistently expanding its manufacturing capacity, the company has substituted a significant portion of Pakistan's flat steel imports, resulting in a significant foreign exchange saving for the country.

ISL believes in sustainability of operations and aims to maintain good relationship with all its stakeholders. Driven by the Clean, Lean and Green approach, the company strives to continuously reduce its carbon footprint, promote effective utilization of resources, reduce waste and promote green practices through recycling and reusing resources.

The company partakes various social initiatives to promote wellbeing and welfare of the society, especially in the segments that are most challenged. ISL is a frequent supporter of various health care and educational initiatives in the country.

REDEFINING MADE IN PAKISTAN

Driven by a vision to promote industrial development in Pakistan

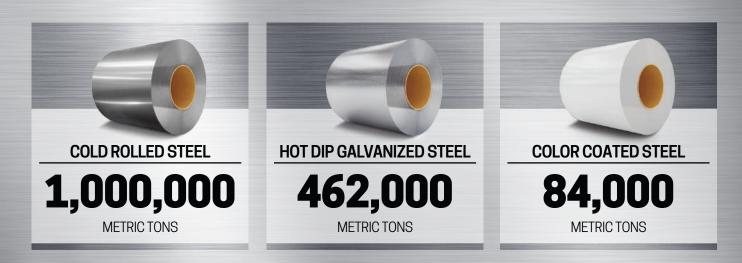

Since its inception, International Steels Limited has been driven by its vision to promote industrial development in Pakistan. At ISL, Innovation and responsibility have been at the core of building a sustainable enterprise and exploring possibilities towards creating a better future with sustainability and resilience.

From investing in state-of-the-art technology to redefining what it is to be "Made in Pakistan", ISL has been determined to transform the industrial landscape of the country and at the same time, remain conscious of the society at large. Our products are fully compliant with the national and global standards of steel-making. As the largest manufacturer and exporter of flat steel products in Pakistan, we deploy the best available technology to deliver quality, reliability and availability to provide sustenance to thousands of small and large-sized businesses across Pakistan.

Our resolve is steel - the material for the future and the fabric that shapes a better tomorrow!

ABOUT THE GROUP

vir china

Amir S. Chinoy Group

The Amir S. Chinoy Group (ASC Group) has been at the forefront of Pakistan's industrial development since the founding of the country 75 years ago. Our founder, Mr. Amir S. Chinoy, a pioneer of industrialization in Pakistan, laid the foundation of the ASC Group by setting up manufacturing concerns in heavy chemicals (Pak Chemicals Ltd,1951), steel, and galvanized pipes (International Industries Limited, 1948) and electrical wires and cables (Pakistan Cables Limited, 1953). His commercial interests also extended to trading, electrical contracting, and the representation of major European and international companies in South Asia. As flag bearers of determination and innovation, the group later invested in a green field project for the manufacture of Cold Rolled, Galvanized and Colour Coated steel coils and sheet (International Steels Limited, 2007).

Today, the ASC Group is one of the leading industrial groups in Pakistan with proven expertise in manufacturing, trading, and industrial services. The Group companies enjoy a credible export pedigree with combined export revenues in excess of USD 150 million. The ASC Group growing global footprint is further represented by an on-ground presence in Australia and Canada through its wholly owned subsidiaries IIL Australia Pty. Ltd. and IIL Americans Inc. which collectively contribute USD 50 million in export revenues.

In Pakistan, the ASC Group has an extensive distribution network through 1600+ outlets in over 450 cities and towns across the country.

The broad range of products manufactured by the Group companies includes:

- Cold rolled steel
- Galvanized steel
- Colour coated steel
- Steel Pipes (CR, HR, Galvanized, Stainless Steel)
- Polymer Pipes (UPVC, PPRC, PE)
- Hollow Structural Sections (Steel)
- Scaffolding systems and Formwork

- Electric Wires & Cables (LV & MV)
- Electric Overhead Conductors of Aluminium & Copper
- Special Cables
- PVC Compound
- Copper rod
- Wiring Accessories
- Extruded Aluminium Sections for Architectural applications

ASC Group companies have attached international equity partners of repute, which have further enriched technical expertise and best practices across its companies. The leading equity partners, the ASC Group has been associated with, include:

- British Insulated Callender's Cable (BICC), UK
- General Cables, USA
- JFE Steel Corporation, Japan
- Sumitomo Corporation, Japan
- International Finance Corporation (IFC)

PRODUCT RANGE

Cold Rolled Steel •

ISL's cold rolling mill is a modern, advanced facility designed and supplied by SMS Siemag, Germany. With strict quality control processes and advanced technology, our product provides outstanding finish and workability, highly valued by customers in the automobile, home appliances, furniture, drum, tube, filter, tin plate and various other industrial segments. Cold rolled steel manufactured by ISL is available in thicknesses ranging from 0.15 mm to 3.0 mm and is offered in a maximum width of 750mm to 1,250 mm. ISL's CRC is provided in a range of product specifications, ranging from drawing to structural and surface finishes from bright to matt to meet our customer specific requirements. After the recent expansion, ISL's capacity has increased to over 1,000,000 MT.

ISL's Hot Dipped Galvanized Steel is produced on a state-of-the-art, fully automated production line. The best available raw materials and processes are applied under controlled conditions to produce material of the highest quality. Our manufacturing facility, a dynamic production team and adherence to strict quality control measures ensures a product of the highest grade. Hot dip galvanized steel is available in thicknesses ranging from 0.15 mm – 2.50 mm. After addition of our new galvanizing line, ISL's capacity to produce galvanized steel increased to 462,000 MT.

Our Continuous Color Coil Coating facility was developed using wet paint coating technology. The 84,000 MT facility allows us to produce high quality color coated sheets on various substrates like Cold Rolled, Galvanized, Galvalume, Aluminium and Stainless Steel sheets. The high quality color coating enhances the corrosion resistance substrate and adds to the aesthetic appeal. Color coated steel is available in thicknesses ranging from 0.20 mm – 1.50 mm.

Responding to the needs of industry and customers

International Steels Limited is committed towards increasing the self-reliance of the flat steel industry in Pakistan.

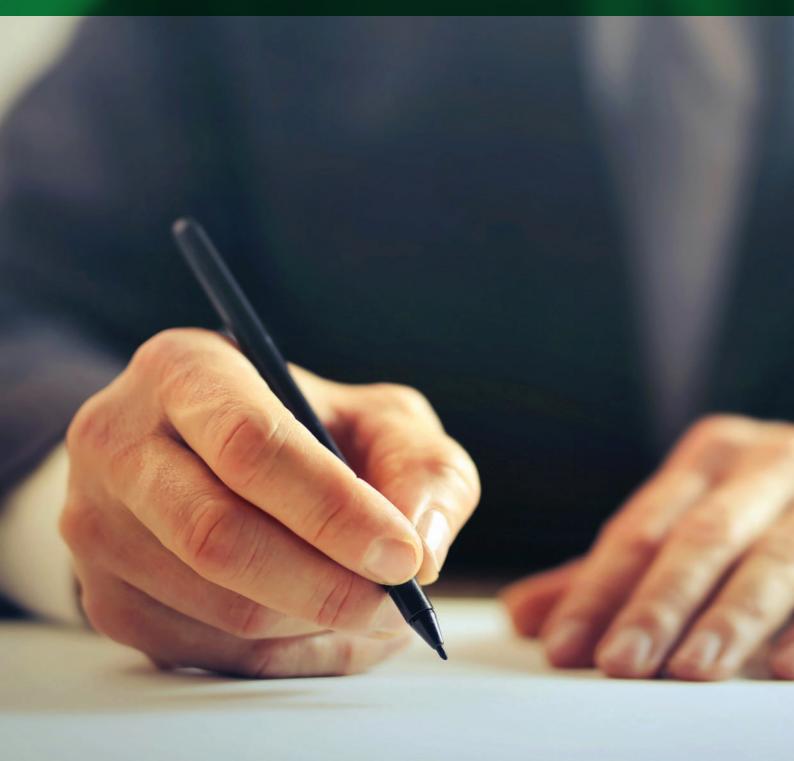

Staying true to its narrative of "Redefining Made in Pakistan", ISL has substituted a significant portion of country's flat steel imports through localizing an essential raw material.

To date, ISL has saved over **\$355 Million** of foreign exchange outflow while diversifying the country's export base.

Our desire to imagine, innovate and co-create a future with infinite possibilities, is reflected in our efforts to look beyond steel, adopt next-generation technologies and make a meaningful impact on billions of lives.

Chairman's **Review**

Chairman's Review

I am pleased to present the review for the year ended June 30 2022, highlighting Company's performance and the role of the Board of Directors in guiding the management to carry out its responsibility for the benefit of all its stakeholders.

The year 2021-2022 was another successful year for the Company in terms of financial performance inspite number of challenges emanating from the economic and business front. Macroeconomic vulnerabilities exacerbated by political uncertainty, high global commodity prices driving inflation to record levels, and increased current account deficit resulting in pressure on the Pakistani currency, leading to its depreciation by 31% during the year. Measures taken by the government included increase in policy rate to 15% and 100% LC margin imposed on your Company's raw material imports have resulted in increased borrowing and higher financial cost. Further, super tax at 10% on the profit earned by your Company was responsible for decrease in profit after tax by Rs 716 million.

The resilience and growth shown by your Company in overcoming these challenges show the strength of this Company. This has also become possible due to Levy of antidumping duties on dumped imports of Cold Rolled coils, Galvanized coils and Color coated coils and sheets from different countries. The salient financial achievements during the year are:

- Net sales increased to Rs. 91.42 billion
- Gross profit achieved Rs. 12.38 billion
- Earnings per share Rs. 12.44

The Debottlenecking project aimed to enhance the finishing capacity of Cold Rolled Coils and Sheets by 120,000 MT with an investment of Rs. 1.23 billion is on track for completion. The state-of-the-art Rewinding Line with an Electrolytic Cleaning Section has been commissioned in June 2022. This will enable the Company to expand its already strong footprint in automobile, appliances and Tin Mill Black Plate (TMBP) segments of the Cold Rolled Steel market. The upgradation of the Skin Pass Mill is expected to be completed by the end of the current calendar year. Furthermore, the Purlin machines have also been successfully commissioned at the Service Center, and have started commercial production catering to the needs of the construction sector.

The Company increased its exports sales by 57% to Rs. 18.7 billion (USD 111 million), despite global supply chain disruptions and sea freight challenges. Your Company is now the 37th largest exporter of the county and is making its contribution to increase the country's export and reducing trade deficit.

In line with the Company's vision and mission, the focus of the Company's management will remain on delivery of quality products and sound business plans for the overall success of the Company. The Company is fueled by the confidence of its fundamental strengths, the quality of its devoted workforce, the production systems and effective supply chain management. I am confident that the Company will be successful in meeting the future challenges and targets.

The Board has performed its duties and responsibilities diligently and has contributed effectively in guiding the Company in all its strategic affairs. The Board also played a key role in monitoring of management performance and focus on major risk areas. The Board was fully involved in strategic planning process and enhancing the vision of the Company.

The Board recognizes that well defined corporate governance processes are vital in enhancing corporate accountability, and is committed to ensuring high standards of corporate governance to preserve and maintain stakeholders' value. All Directors including the Independent Directors fully participated and contributed in the decision making process of the Board.

As Chairman of your Company, I will continue to be responsible for leading the Board, fostering a culture of openness and constructive debate during which all views are heard, and ensuring that the board hears from appropriate range of senior management. I will remain firmly committed to ensuring that your Company complies with all relevant codes and regulations, and that our management team continues to take decisions that will create value for you in the short, medium and long term.

The Board carried out its annual self-evaluation in line with the requirements of Code of Corporate Governance and found its performance to be most satisfactory and improved over previous years. The main focus remained on strategic growth, business opportunities, risk management, Board composition and providing oversight to the management. The Board intends to further improve its performance to be in line with global best practices.

Apart from the Board Audit Committee (BAC) / Board Human Resources & Remuneration Committee (HRRC) meetings every quarter, the Board met five (5) times during the year. The Board normally meets once every quarter to consider and approve financial and operating results, and once to consider and approve the budget for the following year.

The Company has an independent Internal Audit department that follows a risk-based audit methodology. Internal Audit reports are presented to the Board Audit Committee on a quarterly basis and areas for improvement are highlighted.

Your Company is continuously investing substantial resources to further improve working conditions for its employees to provide a safe, healthy and comfortable working environment.

On behalf of the Board, I wish to acknowledge the contributions of all our employees in the success of the Company. I also wish to thank our shareholders, customers, suppliers, bankers, business partners and other stakeholders for their confidence and support.

The Board looks forward towards the next year with greater confidence in meeting the challenges ahead.

All-round excellence all over the world

International Steels Limited aspires to be a leading corporate entity in the Pakistani and global flat steel industry. We strive to be recognised for our operational excellence, as well as, environmental and social stewardship.

Committed towards Brand Pakistan, ISL has been contributing towards diversifying Pakistan's export base by exporting flat steel to over 30 countries across 5 continents to some of the most quality-conscious markets such as the USA, South Africa, Australia and various countries in the MENA region, to name a few.

To date, the company has contributed over **US\$448 Million** worth of exports to Pakistan's foreign exchange receipts.

This year, ISL has received "Employers Federation of Pakistan's Exporters Recognition Award", being acknowledged among the Top 45 largest exporters of Pakistan. The company has also been listed among the leading exporters of Pakistan by the Trade Development Authority of Pakistan (TDAP).

Directors' Report

The Directors of International Steels Limited are pleased to present the 15th Annual Report accompanied by the audited financial statements for the year ended June 30, 2022.

Global Steel Scenerio

The global steel prices collapsed by almost 40% after hitting a record high to USD 1,100 this year.

A significant downward adjustment commenced in prices of major raw materials mainly iron ore and coking coal. Iron ore and coking coal prices after peaking to USD 176 and USD 450 corrected to USD 110 and USD 220 respectively.

The global market has weakened since March 2022 as spiraling inflation, COVID lockdowns in China particularly in Shanghai as part of its zero-tolerance policy to COVID and Russian Ukraine conflict have all heightened demand outlook uncertainty.

World crude steel production remained at 1.9 billion metric tons during the year, with a decrease of 3% as compared to the last year's production of 1.96 billion metric tons. China continued to lead the global steel market however, its total production decreased by 11% as compared to last year decreasing its overall share in the global output to 52.5% from 57% of last year mainly due to Covid lockdowns and state mandated measures to reduce carbon emissions.

Despite COVID and supply chain constraints, the steel demand recovered strongly in western and US markets. However, the recovery has been short lived due to ongoing conflict in Ukraine and potential supply chain disruptions.

National Economy

Economy struggled due to its macroeconomic vulnerabilities and impact of higher commodity prices. Although the growth numbers for the year 2021-22 are impressive:

However, such high growth for an import led economy is at the cost of depleting exchange reserves and widening current account deficit. With the rising global commodity prices, the current account deficit widened to USD 17 billion against USD 1.9 billion of last year. Rupee depreciated significantly by 31% to Rs. 205 to USD from Rs. 157 last year. Average inflation recorded as high as 12.15% against 8.9% of last year.

Government along with the central bank took following tightening measures to slow down economy:

Policy rate increased by a cumulative **8%** to **15%**

100% cash margin on LCs of selected sectors, including HRC

- Withdrawal of fuel subsidy
- (4)) Increasing Energy Prices

Imposition of super tax on profits of selected industries including steel

These measures have tightened financial conditions and increased borrowing costs especially for the Large Scale Manufacturing sector and resulted into demand suppression.

Business Review

Post COVID surge in demand slowed down in the current year. The volumes declined by 14%, however, the revenues reflected a robust growth of 31% from Rs. 69.8 billion to Rs. 91.4 billion. Exports contributed positively increasing by 57% as Company expanded its global footprint.

The Company had been very vigilant and kept a close eye on the dumped imports of flat steel products in Pakistan. Antidumping duties on flat steel products including Cold Rolled Coils, Galvanized Coils and Color Coated Coils which were imposed in the years 2016, 2017 and 2018 for a period of five years had been subject to expiry review during the current financial year. Upon request of the Company, antidumping duties on dumped imports of Cold Rolled Coils were continued for further period of five years by the National Tariff Commission of Pakistan. Review for antidumping duties imposed on dumped imports of Galvanized Coils is in process and the Company is confident that these antidumping duties will also be continued for a further period of five years. Expiry review of Color Coated Coils will start in the coming year.

The Company has been actively defending the imposition of antidumping duties before various judicial forums including the Antidumping Appellate Tribunal and the Superior Courts. With its efforts, the Company had been able to counter the dumping practices which has helped the company to maintain its market share. The imposition of antidumping duties on dumped imports of CRC from Korea and other countries as well as continuance of antidumping duties as above played a major role for your Company to increase its revenue particularly when the cost of sales has increased due to multiple factors discussed above. Otherwise, the post-covid piled-up stocks in exporting countries would have made it impossible for the Company to maintain or increase its sales revenue. The sales tax and income tax exemptions to manufacturers in the erstwhile FATA / PATA regions have grossly been misused and abused.

The concession was granted by government to expedite development in the region however, the abuse of concession resulted in serious damage to industry besides revenue loss for the federal government. On persistent follow up by the Company, government has incorporated a system of checks and balances to prevent the misuse. Increase of around 114% in the interest rates from 7% to 15% and introduction of 100% LC margin on HRC imports significantly increased the finance cost by 63% over last year. This increase was contained by effective inventory management and manufacturing costs. Extreme volatility in the exchange rate costed a net exchange loss of Rs. 617 million. Record high freight costs increased the freight expense by 52%.

Furthermore, the imposition of a super tax of 10% in June 2022 on profits of the Company further impacted the bottom line. Your Company still managed to post profit before tax of Rs. 8,000 million and profit after tax of Rs. 5,412 million against profit before tax of Rs. 10,295 million and profit after tax of Rs. 7,466 million last year.

The total production for the year was 411,000 tons as compared to 492,000 tons of last year.

The gross margin declined to 13.54% from last year's 19.3% mainly due to volatility in raw material prices. Company managed to maintain healthy margins due to favorable raw-material purchases and effective inventory management.

The Company, in line with the country's objective, continued with its strategy to enhance the international presence. The revenue from export sales has increased by 57% this year touching Rs. 18.7 billion as compared to Rs. 11.9 billion.

Despite global supply chain disruptions, the Company managed to export 87,000 tons primarily in bulk shipments.

Dampened demand, an overall slowdown in the local market exacerbated by the political uncertainty in the second half of the year have restricted growth.

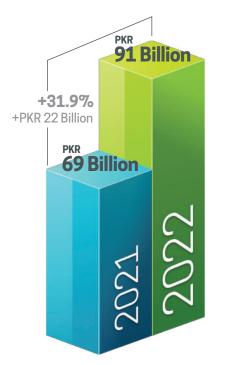

Forecasts for the upcoming year are challenging. The enhanced manufacturing capability has enabled the Company to lead the market with fulfilling demand in local and international markets and import substitution.

Sales

With a strong first quarter, the steel demand continued to decline in rest of the year. However, your Company continued with its aggressive market development activities complementing it with a sustainable enhancement in the product quality.

The company managed to achieve strong sales of Rs. 91.4 billion, 31% higher than the last year's sales of Rs. 69.8 billion.

The Company produced and sold various specialized grades for auto sector including high tensile strength material and TMBP which will continue to ensure significant savings in foreign exchange. The company already pursues a well-designed strategy to increase its global footprint. Slow-down in the domestic market was balanced by export contracts at good prices.

Export contracts were fulfilled though bulk shipments due to limited container's availability. As a result, the export sales increased by 57% touching Rs. 18.7 billion constituting 20% of the overall net sales value.

The total sales volumes of the prime product remained at 424,000 metric tons comprising 240,000 metric tons of Galvanized and 184,000 metric tons of Cold Rolled Products.

This was the second year of operations of the state-of-the-art Service Center. Sales from Service Center almost doubled during the year reaching to Rs. 9 billion as compared to Rs. 4.6 billion of last year.

The Company continued to consolidate and leverage its nation-wide dealer network, however special focus remained on quality enhancement along with exploring and developing the export markets.

Manufacturing Operations

Current year production was 411,000 tons, reflecting a decrease of 16.5% over the previous year based on subdued demand in the local market.

Availability of gas remained a challenge this year as well in winter months however, management continued to focus on effective supply chain management to ensure its product availability in the market.

The rewinding line with an electrolytic cleaning section designed specifically to debottleneck cold rolled capacity and increased efficiency in TMBP production. The investment has been financed using Temporary Economic Refinance Facility (TERF) and Long-Term Financing Facility (LTFF) offered by State Bank of Pakistan at exceptionally concessionary rates.

C&Z Purlin machines have also been successfully commissioned at Service Center and started commercial production catering to the needs of construction sector.

Health, Safety and Environment

Company believes in and is fully committed to improve Health, Safety and Environment standards to achieve sustainable HSE performance.

Process Safety and Behavior Based Safety across the organization is ensured through HSE Management System integrated with the Company's organization scheme and the Company is on track of continuous improvement with focus to achieve and sustain leading levels. The Company has a dedicated Health, Safety and Environment department manned by the subject matter experts. We have engaged a top notch HSE expert in the development of behavioral based safety culture to create a sustainable and safe working environment for our people, customers, contractors and the community.

Standard Operating Procedures (SOPs) have been implemented to combat COVID with zero tolerance policy. The Company continued its operations throughout the year with strict adherence to the SOPs. Employees have been actively encouraged and motivated for vaccination as well as booster dose. The Company provides full medical and financial assistance to the employees and their families for any illness including COVID.

Implementation of focused safety programs, environmental standards and strong visible leadership resulted yet another year without any major incidents. Your Company continued to comply with National Environmental Quality Standards including best practices for air emissions, noise, portable water and industrial effluent. The Company again won three Corporate Social Responsibility Awards at the National Forum for Environment and Health (NFEH).

The Company is operating an incident management program using "Safesite" as a tool. It assists in reporting unsafe acts and conditions, near misses and incidents as well as ensuring the key learnings are shared across the organization.

The Company conducted environmental monitoring in compliance with Sindh Environmental Protection Agency (SEPA) requirements at ISL Factory and Service Centre in the month of June 2022. World Environment Day - 2022 under theme of "Only One Earth" was celebrated by ISL Team on June 06, 2022, at Arabian Sea Country Club, Karachi.

Energy Management

Company's 19 MW co-generation power plant continued to operate satisfactorily, the heat recovered in the process meets most of the utility needs of the process and in line with our practice, excess energy is supplied to K-Electric.

Financials

The Company has continued its growth streak in its revenues. With a growth of 31%, the current year's revenue reached Rs. 91.4 billion. The gross margins stood at Rs. 12,381 million compared with Rs. 13,492 million last year.

Administrative expenses decreased by 6% to Rs. 340 million as compared to last year of Rs. 362 million despite a yearly increment in salaries and wages to employees.

The Company rationalized its legal and professional expenditure by reorganizing its team of legal and professional experts handling its legal and tax matters. Selling and freight expenses increased by 52%, mainly due to record increase in global freight rates. Other operating expenses remained at almost the same level as last year with a minimal increase of 2% to Rs. 1,308 million. Major portion of these charges comprises WPPF of Rs. 430 million and WWF charges of Rs. 172 million both of which have decreased due to being the function of profit before tax. The Company incurred Rs. 617 million of net exchange loss due to extreme volatility in the exchange rate.

Financial charges increased significantly by 63% and stood at Rs. 1,323 million against last year's Rs. 812 million mainly due to higher interest rates and imposition of 100% cash margin requirement on import of HRC exerting pressure on working capital requirements. A super tax of Rs. 716 million increased the effective taxation rate for the year.

Improving working capital and cash flow management have always been the Company's focus. However, the domestic slow down increased the inventory in hand in the Company's books negatively effecting the cash generated from operations closing at negative Rs. 3,453 million. Despite such a massive increase in the closing inventory value, the sales tax receivables were well managed increasing by only 10%. Concerted efforts were put in to obtain sales tax refund of Rs. 911 million during the year.

Earnings Per Share

Earnings per share for the year ended June 30, 2022 were Rs. 12.44 compared with Rs. 17.16 per share last year.

VIS Credit Rating

In its interim rating review in March 2022, VIS Credit Rating Company Limited has maintained the Company ratings of 'A+/A-1' (Single A Plus/A-One). Outlook assigned to the rating is 'Stable'.

Human Resources

The Company maintained industrial peace and a positive and enabling work-environment for all employees in the organization by promoting candor and fairness.

The Company continued its efforts on development of personnel at all levels, proactively building capabilities and retaining talent for business continuity. Employee engagement has been managed with robust policies and procedures. Day long team building activities were organized this year again by the HR department involving various team games and cross departmental exercises to foster networking and coherence amongst departments.

A state-of-the-art gymnasium continues to operate to encourage employees to adapt a healthy lifestyle.

The Company successfully continued its operations with an optimal headcount of 705. The Company has formulated a firm succession plan, which includes performance evaluation and appropriate training requirements for development of potential future leaders.

The Company continued to enhance capabilities of employees by providing them development opportunities in prestigious institutions including LUMS, IBA, ICAP, MAP and PIM.

Your Company contributed Rs. 19,543 million to the National Exchequer during the year by way of income tax, sales tax, custom duties and other levies.

Provident Fund and Gratuity Scheme

The Company provides retirement benefits to its employees. These include a non-contributory defined benefit Gratuity Scheme for all employees and a contributory Provident Fund for all employees except unionized staff. Both plans are funded schemes recognized by tax authorities.

The values of the provident fund and the gratuity scheme at the year end were Rs. 249 million (2021: Rs. 216 million) and Rs. 294 million (2021: Rs. 238 million).

Future Prospects

Despite economic challenges, the Company has continued to invest in its manufacturing facilities, human capital, ERP systems and product quality enhancements. These investments will enable to further strengthen the Company's already strong foothold in the engineering sector. The management is also working on the feasibility for setting up a hot rolled strip mill to meet the growing demands of flat steel market.

Battling with chronic problems of the economy particularly the widening current account deficit and depleting foreign exchange reserves, the government is targeting an economic slow-down next year. The inflation is also feared to remain high throughout the year. However, continued and sustainable investment in its manufacturing capability, supply chain process, product quality, human capital and marketing capacity would continue to provide the Company a competitive edge over other players in the market.

A dedicated service center at the Port Qasim Area of Karachi is already adding its positive contribution to the Company's performance with an increase of almost 100% in its revenues as compared to last year. The strategic location of the center is aimed at further increasing the Company's value proposition and service offerings. Your Company is continuously working on its strategy to further increase its market share in the local and international markets and be instrumental in imports substitution.

Recognition

Your Company has been ranked amongst Top 50 Exporters of Pakistan by Trade Development Authority of Pakistan (TDAP). ISL is again in the list of Top 25 Companies of Pakistan Stock Exchange for 2020. For the third consecutive year, ISL has won the 36th Corporate Excellence Award instituted by Management Association of Pakistan (MAP). Team ISL secured 3rd position in the Asian Management Games 2022 Asia's premier strategy and management competition, organized by Asian Association of Management Organizations (AAMO) maintaining its lead position from Pakistan.

Acknowledgements

The Board would like to thank all our stakeholders, employees, customers, suppliers, shareholders and bankers for their support. The confidence and goodwill of the stakeholders has allowed the Company to sustain and grow over the years.

We continue to pray to Allah for the success of the Company and for the benefit of all stakeholders, and the country in general.

Enabling better quality of life **for communities**

At ISL, winning is all about creating an impact that matters.

Our sensitivity to the commitment of improving lives in the communities we serve has driven us to actively support various social, educational and healthcare related initiatives across Pakistan.

ISL partakes in various social initiatives to promote wellbeing of people in different sectors, for which the company allocates atleast
 1.5% of after tax profit for social uplift and charitable causes.

While creating significant social and cultural relationships, the company envisions an equitable and enlightened society where every individual actualizes his or her potential with dignity.

Our Relationship with the Society and Community

The events of the recent past, have led to emergence of new type of challenges that societies must address in order to progress. The Covid 19 Pandemic has impacted the entire world, whose effects are expected to remain with us for the foreseeable future, reminding us of the vulnerability of modern societies to such disruptions. The sustainability of our operations ensures that we are able to play our role in welfare and development of societies in which we operate.

Embracing our responsibility as the country's largest flat steel manufacturer, we are aware of the importance of business continuity for the society. We continue to uphold safety and wellbeing of our people as our most important responsibility. We ensure compliance with government and global health advisories and were able to ensure business continuity through ensuring safety protocols and encouraging people to work from home in order to limit exposure risk.

The company benchmarks itself against global quality standards and best practices to ensure that our products and services remain competitive and eco-friendly. The company remains committed to reduce its dependency on harmful materials, being driven by the clean, lean and green approach, reducing waste and reusing resources as frequently as possible. The company undertakes various environment conservation initiatives to preserve essential natural resources such as water and air, thereby ensuring sustainability of life, both above and below land.

ISL's over 700 people strong workforce is driven by the company's core values and principles, who work tirelessly to create a safe workplace for their peers and maximize value for the various stakeholders of the company. Over the years, we have consistently embraced management best practices and adopted policies that ensure a fair and competitive workplace, free from discrimination and biases of any nature. Our people remain committed towards playing an active role for society's benefit in causes we hold close to our hearts.

Moving forward, we are conscious of the need to accelerate and scale up the integration of sustainability in our operations. We will remain dedicated to our core values and vision. While continuing our socially responsible approach, we will always maintain our primary aim of promoting human welfare and protecting the environment.

10 UN GC Principles

ISL has benchmarked its sustainability and corporate conduct with the United Nations Global Compact (UGC). Corporate sustainability starts with a company's value system and a principled approach to doing business. This means operating in ways that, at a minimum, meets fundamental responsibilities in the areas of human rights, labor, environment and anti-corruption. Responsible businesses enact the same values and principles wherever they have a presence, and know that good practices in one area do not offset harm in another. By incorporating the Global Compact principles into strategies, policies and procedures, and establishing a culture of transparency and integrity, we aspire to set the stage for long-term sustainability.

Working together for a better future

Since its inception, International Steels Limited has been driven by its vision to promote industrial development in Pakistan.

At ISL, Innovation and responsibility have been at the core of building a sustainable enterprise and exploring possibilities towards creating a better future with sustainability and resilience.

From investing in state-of-the-art technology to redefining what it is to be "Made in Pakistan", ISL has been determined to transform the industrial landscape of the country and at the same time, remain conscious of the society at large.

Our products are fully compliant with the national and global standards of steel-making. As the largest manufacturer and exporter of flat steel products in Pakistan, we deploy best available technology to deliver quality, reliability and availability to provide sustenance to thousands of small and large-sized businesses across Pakistan.

Our resolve is like steel - the material for future and the fabric that shapes a better tomorrow for everyone!

EMPLOYEES

ISL strives to contribute to society's positive development by creating employment opportunities, enabling skill development, and on job-training and promoting employees' wellbeing by providing a safe and comfortable work environment.

In a constantly evolving and highly competitive business environment, the biggest competitive advantage of any company is its human capital. Our Human Resources Department works on implementing policies to ensure that our business objectives are met on a continuous basis, and at the same time, the employees are provided career and self-development opportunities that enable them to evolve in high-performance workers, who deliver the values and vision of the company.

ISL is driven by the code of conduct that professes fair workplace, diversity in gender, race and religion, teamwork, respect for people, safety, and wellbeing of all employees.

Orientation and Induction

At ISL, we believe in nurturing human capital and our recruitment process evaluates and selects the most suitable talent specific to the role, on standard criteria. Besides skill and aptitude, we also seek to evaluate the value system of a potential candidate before selection.

ISL recruits the best talent from industry and provide them a comprehensive orientation plan to help them learn about our business, customers, and operations.

Employees who join the company goes through a rigorous orientation at the company to familiarize themselves with the organizational structure, core values, and operations of the company. This enables them to perform their job roles with full fervor and enthusiasm, thereby, improving their capacity to deliver their targets.

Wellbeing

ISL positions physical and mental health management as the foundation of work-life management, and encourage all employees to practice work life balance. The aim is to promote a work style that allow employees to maintain and enhance their health while being highly productive.

Gym

ISL promotes physical wellbeing of its employees and has established a fully furnished and equipped gym and hot shower rooms at its manufacturing facility. The gym is well-maintained by professional trainers who also guide the employees during their workouts.

Compensation and Benefits

The company benchmark and compare its compensation plans with leading companies and periodically carry out salary surveys for remuneration and annual increments.

Our compensation packages include annual performance bonuses, Workers Profit Participation Fund, Provident Funds, and Gratuity Funds, in addition to our comprehensive health plans, life insurance, mobile phone, company-maintained vehicles and fuel allowances.

Our employment terms include annual, sick, casual and maternity leaves to provide better work-life balance and relaxing periods to all employees, when they need it.

Employee Surveys

ISL regularly conduct anonymous employee surveys. Once completed, the HR team perform thorough subjective and objective reports and presentation with the survey results. In the next stage, department wise meetings are conducted in which positive and negative feedback of the employees is discussed and corrective actions are taken accordingly.

The 8th EFP Employer of the Year Awards

ISL participated and won the diamond award in the 8th Employer of the Year Awards in the "Medium National Companies" category. These awards and the event highlight best practices in the areas of Corporate and General Management, Human Resource Management, OSH&E (Occupational Health, Safety & Environment), Skill Enhancement, Compliances and Sustainable Development.

To date, the company has been recognized consecutively for four times by EFP as Employer of the Year.

ANNUAL REPORT 2022

Diversity and Inclusion

ISL is an equal opportunity employer and believes in empowering people by respecting and appreciating what makes them different, in terms of age, gender, ethnicity, religion, disability, sexual orientation, education, and national origin. It is also made certain that contributions, presence and perspectives of diverse groups of people are valued and integrated well.

Over the years our strength of female workforce has increased, and we continue to develop roles in the company that are gender neutral.

Training and Development

ISL offers different in-house and external trainings to help employees get the relevant knowledge and skills to improve performance in their current job roles, in all departments and units. The development plans at ISL expansively focus on the professional growth of employees.

Gender Equality

ISL strives to become an employer of choice for the massive talent pool of Pakistan's labor force and actively works to attract and retain employees of all genders and ages within the organization. We have been trying to ensure equal representation of women in the workplace.

Being a large-scale industrial manufacturer, located in suburbs of the city the company provides transport facility to all the women employees at its manufacturing facility.

ISL has steadily promoted gender diversity, with an increase in the female headcount. These women employees serve in diverse functions ranging from HR, finance, sales, marketing, information technology, supply chain, procurement, planning engineering, and production.

Under the banner of ASC group, International Steels Limited, International Industries Limited and Pakistan Cables, celebrated International Women's Day with great zeal this year, to acknowledge and appreciate women performing in diverse job roles. The theme of the event was related to ending gender-based stereotyping and discrimination.

Safety Awareness and Practices

ISL invest in considerable efforts to provide a safe and injury free workplace for its employees and visitors through its OHS&E (Occupational Health, Safety and Environment System) that is implemented by the HSE Department.

Through this program, we have set reporting parameters that minimize the impact of behaviors that could lead to unfavorable events. Our HSE program also enhances the sense of responsibility for keeping the workplace safe and with zero or minimal hazards. Large and clear illustrations pertaining to safety measures, protocols, exits, and warnings are placed on factory floors and in offices as well.

As a part of daily routine work, employees are required to embrace safety as a mindset. Protective equipment relevant to the job nature is required to be worn before starting work. These range from safety gloves, safety goggles and ear protectors. Furthermore, people are required to walk along designated safety pathways in the factory premises. The company has also engaged various consultants to assess the safety practices and protocols. ISL workforce is periodically trained by industry specialists to inculcate the safety practices across all teams.

During the period, first aid trainings and fire drills were carried out at various locations of the company across Pakistan, and counter measures in the events of fire or health emergencies were demonstrated to employees. For specialized activities that pose a potential risk such as working at heights, a safety clearance or "permit to work" is required to ensure that adequate safety measures have been employed.

Data Collection

During all the COVID-19 waves, the company recorded data on COVID-19 vaccinations and recoveries. To date 100% vaccination rate of employees have been achieved.

Logistics Safety Measures

Our product information and HSE standards provide detailed instructions for safe handling of products, reducing the chances of injury during material transit and transportation.

SHAREHOLDERS

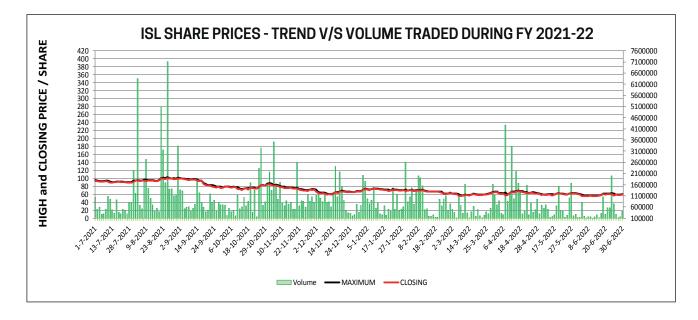

ISL aspires to be a model corporate citizen, by upholding and creating value for our shareholders. To ensure fair returns to our shareholders, our teams work hard to ensure maximum value is generated for our shareholders.

Quarterly and Annual Reports

The company prepares and disseminates periodic performance reports in compliance with the law. These reports provide an accurate and detailed insight into company's performance, challenges, and the outlook for the future.

Board of Directors

International Steels Limited's Board, that was elected in 2019, comprises of distinguished professionals coming from a diverse background. The board's strategic direction for the company guides the management on industry best practices, that leads to value creation for the shareholders.

Optimising resources and **focusing on green practices**

ISL aspires to be a carbon negative organization by maintaining sustainable operations and continually making improvements to our products and processes to minimise our environmental footprint.

Steel is integral for infrastructure building and plays a key role in economic development and nation-building. However, steelmaking is a resource-intensive process and creates environmental impact in form of emissions and effluents.

Driven by the **Clean, Lean and Green** approach towards responsible and sustainable manufacturing, we are always striving to keep our operations as environment-friendly as possible.

We are committed to using the most efficient production routes, minimising waste generation and mitigating the impact of our operations. ISL has fully functional in-house effluent treatment systems, reverse osmosis, acid regeneration, and co-generation power plants. Recently, the company has also installed an incinerator to safely dispose of gaseous wastes that result from manufacturing processes.

COMMUNITY

At ISL, we seek to address some of the challenges that our society faces. Being a large-scale industrial manufacturer, we have been striving to play our role as an enabler and facilitator of human development through our operations.

Our corporate culture is driven by the inclinations of our founder, Mr. Amir S. Chinoy, towards being a staunch supporter of the local community. ISL makes its donations regularly to charitable causes either directly or through the Amir Sultan Chinoy Foundation (ASCF).

Policy	Donation
Donation Policy	ISL donates atleast 1.5 % of its profits after tax, towards social uplift and community welfare activities every year.
Total Amount of Donations in FY 2021-22	Rs. 86 Million

THE AMIR SULTAN CHINOY FOUNDATION

The Amir Sultan Chinoy Foundation is one of the oldest endowment institutions in Pakistan. It was established in 1968 by the name of "The Friendship Foundation" by Amir Sultan Chinoy according to the wishes of his father Sir Sultan Mehrally Chinoy. In 1980, the foundation was renamed as the Amir Sultan Chinoy Foundation. to this day the foundation continues to operate in line with the vision of Amir Sultan Chinoy who established the foundation for the advancement of education, learning, and industry in all its branches.

Presently, ISL continues to contribute to the Amir Sultan Chinoy foundation (ASCF) which is mandated to focus on education, health and social uplift.

Education

Our group believes that if healthcare is the foundation of life, then education is the essential building block for a prosperous life. Within our donation policy, we ensure to support the underprivileged segments, in education and arts programs. Through our various programs in the last decade, over 11,000 children have gained a higher quality of education.

The Citizen Foundation (TCF) Rahbar Mentorship Program

ISL regularly participates in the "TCF Rahbar Program".

Rahbar is a youth mentoring program and every year, ISL employees voluntarily participate in it. The program allow employees to act as physical mentors for students and to guide them towards becoming good citizens and to motivate them to always strive for the best. The vision of the Rahbar program is "to sow the seed of positive thought process and leave the students with some food for thought".

Vocational Training

ISL continues to support vocational training institutions as we believe that the future of the country lies in skill development of the vast population, which contributes to the country's growth in the overall.

ISL support Hunar Foundation, which is a leading vocational training institution of the country and seeks to develop skills in people, that helps them in developing a stable livelihood.

Besides skill development, ISL facilitates learning through study tours and visits to impart first-hand knowledge about a high-tech industrial complex.

Amphitheatre at the IBA main campus

The Group sponsored the Amir S. Chinoy Amphitheatre at the IBA main campus student's center.

Karachi Boat Club - Interschool Regatta

Every year, ISL sponsors Annual Interschool Regatta 2022, which is organized by the Karachi Boat Club. Students and athletes from various schools participate in this event.

TEDxIBA, Karachi

In October 2021, ISL was one of the sponsors of TEDxIBA. Organized by IBA, this event featured multiple speakers who shared their inspirational journeys.

ENVIRONMENTAL RESPONSIBILITY

ISL is conscious of the ways our business activities can potentially impact the environment. Recognizing access to water and basic resources as a fundamental human right, the company takes various measures to reduce its impact on the environment. As Pakistan faces energy and clean water scarcity issues, we believe that our most direct and visible influence come from our environmental efficiencies.

Although our raw materials, steel and zinc does not have a direct impact on environment, we believe in minimizing impact to the environment as a result of our operations. Most of the technologies and equipment in our operations are environmentally safe and compliant with international and national norms.

Environmental aspects are taken into consideration by us and are included in all our project costing and purchase processes. Furthermore, all future investments are preceded by an environmental impact assessment.

Driven by the Clean, Lean and Green Approach, ISL strives to continuously adopt environment-friendly practices during its manufacturing processes. While embracing sustainable technologies, ISL strives to minimize its environmental impact though effective resource utilization, waste reduction and recycling of resources, as frequently as possible.

Effluent and Sewage Water Treatment

ISL's effluent treatment plant collects, neutralizes and filters the entire solvent-based waste generated during the manufacturing process, making it usable again. The reverse osmosis system generates clean water to meet ISL's industrial needs without relying too much on the city's main water supply system.

The sewage treatment plant recycles the water used at the factory premises and is then utilized to water plants and vegetation present in the factory premises.

Emission Control

The company has installed an incinerator at the color coating line, which neutralize the fumes released in the atmosphere.

Waste Heat Utilization

ISL recovers significant amount of waste heat generated from operations and utilizes it in various production operations and powers a Steam Turbine to generate additional electricity. The heat absorption chillers generate chilled water for air-conditioning, whereas, steam boiler uses waste heat from exhaust gases to generate steam.

In-house Co-generation Power Plant

ISL has installed a natural gas burning on-grid power plant with eight generators which produce 19 MW of power by co-generation, meeting the needs of ISL's steel complex and supplying surplus electricity to the Grid.

Acid Regeneration Plant (ARP)

The pickling line utilizes a large amount of Hydrochloric acid (HCl) to remove surface impurities from hot rolled coils. Direct disposal of the acid contaminated water poses threat to the environment, therefore ISL's Acid Regeneration Plant (ARP) recycles and reconditions Hydrochloric acid from the pickling line, making 98% of the acid reusable.

Plantation and Beach Cleaning Drives

With the impact that global warming has on the world now, ISL employees also regularly participate in cleaning drives along coastlines. In past, ISL has also partnered with WWF Pakistan to plant eleven hundred mangrove trees along in Karachi to help reduce the impact of flooding.

Healthcare

As a responsible corporate citizen, we recognize that there are limitations for underprivileged members of society and their reach to quality healthcare in Pakistan. Our donation policy supports the provision of health care in areas of need and the funding healthcare institutions.

The Group makes substantial contributions to a permanent endowment fund at the Aga Khan University Hospital in Karachi "The Amir Sultan Chinoy Chair".

ISL World Environment Day Conference 2022

To celebrate International World Environment Day 2022, ISL HSE and Marketing department held a conference to discuss the significance of protecting the world by playing our roles as individuals and corporate entities to make our planet a better place for our future generations. The theme, Only One Earth, elaborated that our present choices and actions have a massive impact on environment and taking sustainable actions today ensures that we make ethical choices to shape a safe and livable future. To encourage employees to make a difference this day, plant saplings were distributed with planting and care instructions.

GOVERNANCE FRAMEWORK

The main philosophy of business followed by the sponsors of International Steels Limited for the last many decades has been to create value for all stakeholders through fair and sound business practices, which translates into policies approved by the Board and implemented throughout the Company to enhance the economic and social values of all stakeholders of the company.

Our governance strategy is to ensure that the Company follows the direction defined by its core values, current regulatory framework and global best practices. Our approach towards corporate governance ensures ethical behavior, transparency and accountability in all that we do and to attaining a fair value for the shareholders.

Compliance Statement

The Board of Directors has, throughout the year 2021-22, complied with the Companies Act, 2017, Code of Corporate Governance Regulation 2019, Rule Book of the Pakistan Stock Exchange Limited and the Corporate Financial Reporting Framework of Securities and Exchange Commission of Pakistan (SECP).

The Directors confirm that that the following has been complied

- a) The financial statements have been prepared which fairly represent the state of affairs of the company, the result of its operations, cash flows and changes in equity.
- b) Proper books of accounts of the company have been maintained.
- c) Appropriate accounting policies have been consistently applied in preparation of financial statements and accounting estimates are based on reasonable and prudent business judgment.
- d) International financial Reporting Standards (IFRS), as applicable in Pakistan, have been followed in preparation of financial statements and any departures therefrom have been adequately disclosed and explained.
- e) The system of internal control is sound in design and has been effectively implemented and monitored. The Internal Audit function is led by the Chief Internal Auditor supported by in house staff.
- f) There are no significant doubts upon the company's ability to continue as a going concern.
- g) There is no material departure from the best practices of corporate governance as per regulations

The Board of Directors

The Board of Directors consists of qualified individuals possessing knowledge, experience and skills in various professions, with the leadership and vision to provide oversight to the company.

The Board is headed by Dr. Amjad Waheed, an Independent Chairman. Out of 11 Directors, 4 are Independent Directors including 1 female Director. The current Board composition reflects a good mix of experience, diversity in backgrounds, skills and qualifications. All Directors have many years of experience and are fully aware of their duties and responsibilities under the Code of Corporate Governance. At present nine (9) Directors have attended the formal Directors Training Certificate programs while two Directors possess sufficient skills and experience of the Board room as described in the Code of Corporate Governance. In compliance with Clause 7 of the Companies (Code of Corporate Governance) Regulations, 2019 a female director was elected at the last election of the Board of Directors at the 12th annual general meeting in September 2019.

A digital interface is being used to update the Board of Directors by providing Companies Act, 2017, Companies (Code of Corporate Governance) Regulations, 2019, relevant portions of PSX Rule Book, the Company's Memorandum & Articles of Association and various policies and procedures.

To further its role of providing oversight and strategic guidelines to the company, the Board has formulated a Board Charter to define its role of strategic leadership and provide oversight to the management. The Board has constituted an Audit Committee and Human Resources & Remuneration Committee. The composition, role and responsibilities of the Committees are clearly defined in their respective Terms of References.

Annual Calendar and Agenda for Meetings

A meeting calendar is issued annually to reflect the dates planned for the Board, Audit and HR&R Committees. All the Board members are given appropriate documents through Diligent Board application in advance of each meeting which normally includes a detailed analysis of business and matters, where the Board will be required to make a decision or give its approval.

During the year 20201-22, the Board had five (5) meetings, out of which four (4) were held to review the quarterly results, a meeting was held to approve the budget for the ensuing year. The average attendance of the directors in Board meetings during the year was 89%.

Changes in the Board

At the 12th annual general meeting of the Company on September 25, 2019, eleven (11) Directors were elected for a term of three (3) years. During the year 2021-22, no casual vacancy was created.

Board Meetings Outside Pakistan

During the year 2021-22, no Board meetings were held outside Pakistan. However the directors living abroad were facilitated to attend meetings through video conferencing.

Roles and Responsibilities of the Chairman and Chief Executive

The Board of Directors provides the overall direction for the Company operations and provides oversight for various policies and monitors the management in the light of operational and financial plans. The roles of the Board and the Chief Executive Officer have been clearly defined where the Board is responsible for strategic guidance and providing directions for sustainable business.

The Chairman and the Chief Executive have separate and distinct roles. The Chairman has all the powers vested in him under the Listed Companies (Code of Corporate Governance) Regulations, 2019 and presides over all Board Meetings. The Chief Executive performs his duties under the powers vested by the law and the Board. He recommends and implements the business plans and is responsible for the overall control and operation of the Company.

Business Philosophy and Best Corporate Practices

We believe in ethical practices, sustainable manufacturing processes, transparent reporting to the shareholders, and the best practices of Corporate Governance to ensure success and better results for all stakeholders.

The Board Charter defines the scope of the Board's activities in setting the tone at the top, formulating strategies, and providing oversight to the management for sustainable growth of the business. The Board members actively participate in the meetings to guide the company's business activities, operational plans, review corporate operations and formulate and review all significant policies. The Board firmly adheres to the best ethical practices and fully recognizes its responsibilities for protection and efficient utilization of company assets for legitimate business objectives and compliance with laws and regulations. The Chairman ensures that the discussions held during the Board meetings and the consequent decisions arising are duly recorded and circulated to all the directors within fourteen (14) days. The CFO and the Company Secretary attended all the meetings of the Board as required by the Code of Corporate Governance. All periodic financial statements and other working papers for the consideration of the Board/ committees are circulated to the directors well before the meetings to give sufficient time to the directors to make decisions on an informed basis. This year the Board has held five (5) meetings, agendas of which were duly circulated through Diligent Board application at least a week before the meetings.

Timely Communication of Financial Results

The quarterly unaudited financial statements and the half yearly financial statements (with limited review by the Auditors) were duly circulated within thirty (30) days and sixty (60) days respectively along with the Directors' Report. Annual financial statements were authorized by the Board of Directors and communicated to the Pakistan Stock Exchange within fifty-six (56) days from the close of the financial year. Additionally, all important disclosures, including the financial statement, were also made on the Company's website to keep the stakeholders duly informed.

Board Evaluation

The Board of Directors has formulated a policy to evaluate its own performance, the salient features of which are as follows:

- 1. The Board Evaluation Methodology to be adopted as self-evaluation of the Board as a whole through an agreed questionnaire.
- 2. The evaluation exercise is to be carried out every year.
- 3. The evaluation system is designed to address critical importance and should include, but not be limited to, the following:
 - a) Appraising the basic organization of the Board of Directors
 - b) The effectiveness and efficiency of the operation of the Board and its sub-committees
 - c) Assess the Board's overall scope of responsibilities
 - d) Evaluate the flow of information; and
 - e) Validate the support and information provided by management
- 4. The Board would review the results and suggest measures to improve the areas identified for improvement.

The Board is continuing its self-evaluation since many years and has identified areas for further improvement in line with global best practices. The main focus remained on strategic growth,

business opportunities, risk management, Board composition and providing oversight to the management.

Directors Remuneration Policy

A formal policy to review and approve the remuneration of non-executive directors is well in place. The Company believes in remunerating its non-executive directors and Chairman adequately to justify their continued quality guidance and contributions to the Company's objectives, good corporate governance, and sustained long-term value creation for shareholders while maintaining their independent status.

Risk Management

Risk management is crucial to any business, which includes identification and assessment of various risks followed by coordinated application of resources, to economically minimize, monitor, and control the impact of such risks and maximize the realization of opportunities. The management has developed a dynamic register covering financial and operational risks which are subject to periodical review.

Internal Control Framework

The Company maintains an established control framework comprising clear structures, authority limits, and accountabilities, well understood policies and procedures, and budgeting for review processes. All policies and control procedures are documented in manuals. The Board establishes corporate strategy and the Company's business objectives.

The Board Audit Committee has been entrusted with the main responsibility of Internal Controls. The Audit Committee receives the Audit reports from the Internal and External Auditors, and after detailed deliberations, and suggesting improvements, periodic reports are submitted to the Board of Directors. The Company places a high value on transparency, both internally and externally, in its corporate management. It focuses consistently on the implementation of efficient management practices to achieve clear and quantifiable commitments.

The Head of Internal Audit is being assisted by in house executives to carry out the Internal Control functions. The Management has placed an explicit internal control framework with clear structures, authority limits, and accountabilities, well defined policies, and detailed procedures, enabling the Audit Committee and the Board to have a clear understanding of risk areas and to place effective controls to mitigate these risks.

Disclosure of Conflict of Interest

The Company has taken measures to prevent conflict of

interests between directors, employees, and the Company. In this regard, a clear policy on conflict of interests is contained in the Code of Conduct duly approved by the Board of Directors which is placed on Page No. 31 As per the Code of Corporate Governance, the Company annually circulates the Code of Conduct and takes appropriate steps to disseminate it across all ranks in the Company. further, the Directors and key employees are reminded to abstain from insider trading of shares and to avoid dealing in shares during the close period.

Every director is required to bring to the attention of the board complete details regarding any material transaction which has a conflict of interest for prior approval of the Board. The interested directors neither participate in discussions nor vote on such matters.

The complete details of all transactions with related parties are submitted to the Audit Committee who recommends them to the Board for approval in each quarter. These transactions are also fully disclosed in the annual financial statement of the Company.

Corporate Social Responsibility

The Company has implemented comprehensive policies on "Occupational health, Safety and Environment" and "Corporate Social Responsibility and Sustainable Development" to meet its Corporate Social Responsibilities. The social and environmental responsibility reflects the company's recognition that there is a strong positive correlation between financial performance and corporate, social, and environmental responsibility. Social and environmental responsibility. Social and environmental responsibility include the following:

- 1. Community investment and welfare schemes
- 2. Environmental protection measures
- 3. Occupational health and safety
- 4. Business ethics and anti corruption measures
- 5. Energy conservation
- 6. Industrial relations
- 7. National cause donations
- 8. Contribution to the national exchequer
- 9. Consumer protection measures

Our role as a corporate citizen is as important to us as the satisfaction of our customers and earning a fair return for our shareholders. We are committed to working for the betterment and prosperity of our stakeholders. Management has endeavoured to provide a safe and healthy work atmosphere by adopting practices and creating working conditions that are safe and healthy for our employees, vendors, contractors, suppliers, and customers.

We are committed to providing better education and health facilities to the less fortunate people especially to our stakeholders.

In line with our philosophy of CSR, we regularly maintain and support TCF school - Amir Sultan Chinoy Campus in the vicinity of Landhi along with offering need based scholarships to NED University students for a better tomorrow of our younger generation. We also support NGOs like SIUT, LRBT, Kidney Center. SINA Health, Education Welfare Trust and Amir Sultan Chinoy Foundation to help the deserving patients for their treatment.

Sustainability Measures

All aspects of sustainability including efficient operational procedures, effective internal controls, ethical behaviour, and energy conservation are an integral part of our business model. We also believe that employees are most critical in progress, growth, and sustainability of any organization.

For more details, please refer to our "Sustainability Report" available on our website (www.isl.com.pk)

Engaging Stakeholders and Transparency

The development of stakeholders' relationships is of significant importance for the company. Building "stakeholder's engagement", compliance with regulatory requirements and terms and conditions are some of the main business principles by which we abide. To bring an accurate understanding of the company's management policies and business activities to all its stakeholders, it strives to make full disclosure of all material information to all stakeholders by various announcements on its website, to the Stock Exchange, and other sources available to help investors to make informed decisions. It encourages full participation of the members in the General Meetings by sending corporate results and sufficient information following the prescribed timeline to enable the shareholders to participate on an informed basis. While increasing management transparency, it aims to strengthen its relationships and trust with shareholders and investors. Our stakeholders include but are not limited to customers, employees, government, shareholders, suppliers, local communities and bankers.

Corporate Briefing Session

In compliance with the listing regulations of the Pakistan Stock Exchange, Company arranges corporate briefing session(s) annually to answer queries of the various stakeholders including investors and financial analysts.

A Corporate Briefing Session of the Company was held on Tuesday, October 5, 2021 at 11.00 a.m. through video conference to brief the investors/analyst/shareholders about the financial performance and future outlook of the Company.

Policy for Investor Grievances

The Company has an "Investor Relation Policy" that sets out the principles in providing the shareholders and prospective investors with the necessary information to make well informed investment decisions and to ensure a level playing field.

Investor grievances and complaints are very important and are properly reviewed to minimize the recurrence of similar issues in the future.

The following principles are adhered to with regards to investor grievances:

- 1. Investors are treated fairly at all times.
- 2. Complaints raised are dealt with in a courteous and timely manner.
- 3. Various modes of communication like email, telephone, meetings, and raising matters at the Annual General Meeting are available to investors to raise grievances.
- 4. Queries and complaints are treated fairly and efficiently.
- 5. Employees work in good faith and without prejudice towards the interest of the creditors.

REPORT OF THE BOARD AUDIT COMMITTEE ON ADHERENCE TO THE CODE OF CORPORATE GOVERNANCE

CORPORATE GOVERNANCE

The Board Audit Committee has concluded its annual review of the conduct and operations of the Company for the year ended June 30, 2022 and reports that:

- 1. The Company has adhered in full, without any material departure, with both the mandatory and voluntary provisions of the listing regulations of the Pakistan Stock Exchange, Code of Corporate Governance, the Company's Code of Conduct and Values and the international best practices of governance throughout the year.
- 2. The Company has issued a Statement of Compliance with the Code of Corporate Governance which has also been reviewed and certified by the auditors of the Company.
- 3. Appropriate accounting policies have been consistently applied except those disclosed in financial statements. Applicable accounting standards were followed in the preparation of the financial statements of the Company on a going concern basis for the financial year ended June 30, 2022, which fairly present the state of affairs, results of operations, profits, cash flows, and changes in equity of the Company for the year under review.
- 4. The Chief Executive Officer and the Chief Financial Officer have reviewed the financial statements of the Company and the Chairman and Directors' Reports. They acknowledge their responsibility for a true and fair presentation of the financial statements, the accuracy of reporting, compliance with regulations and applicable accounting standards, and establishment and maintenance of internal controls and systems of the Company.
- 5. Accounting estimates are based on reasonable and prudent judgment. Proper, accurate, and adequate accounting records have been maintained by the Company in accordance with the Companies Act, 2017.
- 6. The financial statements comply with the requirements of the Fourth Schedule to the Companies Act, 2017 and applicable International Accounting Standards and International Financial Reporting Standards notified by the SECP.
- 7. All direct and indirect trading in and holdings of the Company's shares by directors and executives or their spouses were notified in writing to the Company Secretary along with the price, the number of shares, form of shares, and nature of the transaction. All such transactions were disclosed at the PSX and reported to the Board of Directors.

INTERNAL AUDIT FUNCTION

- 1. The Company's Internal Audit function is being led by the Chief Internal Auditor in compliance with the Code of Corporate Governance, who is assisted by in-house staff. The Chief Internal Auditor reports directly to the Chairman of the Board Audit Committee.
- 2. The Company's system of internal control is sound in design and has been continually evaluated for effectiveness and control.
- 3. The Board Audit Committee has ensured the achievement of operational, compliance and financial reporting objectives, safeguarding of the assets of the Company and shareholders' wealth through effective financial, operational and compliance controls and risk management at all levels within the Company.
- 4. Coordination between the external and internal auditors was facilitated to ensure efficiency and contribution to the Company's objectives, including a reliable financial reporting system and compliance with laws and regulations.

EXTERNAL AUDITORS

- 1. The statutory auditors of the Company, A.F. Ferguson & Co., Chartered Accountants, have completed their audit of the Company's financial statements and the Statement of Compliance with the Code of Corporate Governance for the financial year ended June 30, 2022 and shall retire on the conclusion of the 15th Annual General Meeting.
- 2. INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF INTERNATIONAL STEELS LIMITED

Review Report on the Statement of Compliance Contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of International Steels Limited for the year ended June 30, 2022 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2022.

INDEPENDENT AUDITORS' REPORT

To the members of International Steels Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of International Steels Limited (the Company), which comprise the statement of financial position as at June 30, 2022, and the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2022 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

A.F.FERGUSON&CO.

Following is the key audit matter

S. No. Key audit matter

 (i) Revenue from contracts with customers (Refer note 3.10 and note 24 to the financial statements)

The Company recognizes revenue from the sale of cold rolled, galvanized and colour coated steel coils and sheets to domestic as well as export customers when the performance obligation is satisfied by transferring control of a promised good to the customer. During the year, net sales to the domestic and export customers have increased significantly by 25.6% and 57.5%, respectively, which is substantially due to increase in international steel prices.

We considered revenue recognition as a key audit matter due to revenue being one of the key performance indicators of the Company and for the year revenue has increased significantly as compared to the last year. In addition, revenue was also considered as an area of significant audit risk as part of the audit process.

How the matter was addressed in our audit

Our audit procedures amongst others included the following:

- evaluated management controls over revenue and checked their validation;
- performed verification of sales with underlying documentation including gate pass, delivery order and invoice;
- performed cut-off procedures on sample basis to ensure sales has been recorded in the correct period;
- verified that sales prices are negotiated and approved by appropriate authority;
- recalculated the commission as per Company's policy and verified related distribution expenses; and
- ensured that presentation and disclosures related to revenue are being addressed appropriately.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

A·F·FERGUSON&CO.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our

conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

 Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- (a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- (b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- (c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- (d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditor's report is Syed Muhammad Hasnain.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IFRS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for the Company's liability under defined benefit plan (gratuity) that is determined based on the present value of defined benefit obligation less fair value of plan assets, freehold land and buildings thereon that are stated at fair values determined by an independent valuer.

2.3 Functional and presentation currency

These financial statements are presented in Pakistan Rupees, which is the Company's functional currency. All amounts have been rounded off to the nearest thousand, unless otherwise indicated.

2.4 Use of significant estimates and judgments

The preparation of financial statements in conformity with accounting and reporting standards, as applicable in Pakistan, requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates underlying the assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Information about the judgements made by the management in the application of the accounting policies, that have the most significant effect on the amount recognized in these financial statements, assumptions and estimation uncertainties with significant risk of material adjustment to the carrying amount of assets and liabilities in future periods are described in the following notes:

- Property, plant and equipment (note 3.2)
- Trade debts, advances (note 3.4.2.1)
- Stores and spares (note 3.5)
- Stock-in-trade (note 3.6)
- Taxation (note 3.7)
- Staff retirement benefits (note 3.8)
- Impairment (note 3.12)
- Provisions (note 3.13)
- Contingent liabilities (note 3.14)
- Lease liabilities (note 5.2)

2.5 Changes in accounting standards, interpretations and pronouncements

a) Standards and amendments to approved accounting standards that are effective

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Company's annual accounting period which began on July 01, 2021. However, these do not have any significant impact on the Company's financial reporting.

b) Standards and amendments to approved accounting standards that are not yet effective

There is a standard and certain other amendments to the accounting and reporting standards that will be mandatory for the Company's annual accounting periods beginning on or after July 01, 2022. However, these are considered either not to be relevant or to have any significant impact on the Company's financial statements and operations and, therefore, have not been disclosed in these financial statements.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies and methods of computations adopted in the preparation of these financial statements are same as those applied in the preparation of the annual financial statements of the Company for the year ended June 30, 2021.

3.1 Lease liability and Right-of-use assets

The Company, as a lessee, has recognised right-of-use assets representing its right to use the underlying assets and lease liabilities representing its obligations to make lease payments.

At inception of a contract, the Company assesses whether a contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. The Company mainly leases properties for its operations. The Company recognizes a right-of-use asset and lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses if any, and adjusted for certain remeasurements of the lease term and the asset's useful life. The estimated useful lives of assets are determined on the same basis as that for owned assets. In addition, the right-of-use asset is periodically reduced by impairment losses, if any.

The Company has various lease agreements for head office and sales offices which were previously classified by the Company based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under IFRS 16, the Company recognises right-of-use assets and lease liabilities for all the leases - i.e. these leases are on statement of financial position.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the entity's incremental borrowing rate being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is re-measured when there is a change in future lease payments arising from a change in an index or rate, a change in assessment of whether extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of right-of-use asset has been reduced to zero.

Lease liabilities include the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that are based on an index or a rate;
- Amounts expected to be payable by the lessee under residual value guarantees;
- The exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Right-of-use assets are measured at cost comprising the following:

- The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentives received;
- Any initial direct costs; and
- Dismantling costs and restoration costs.

The Company has not elected to recognise right-of-use assets and lease liabilities for short-term leases of properties that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3.2 Property, plant and equipment

3.2.1 Operating assets and depreciation

Initial recognition

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of such item can be measured reliably.

Recognition of the cost in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by the management.

Measurement

Property, plant and equipment (except freehold land and buildings) are stated at cost less accumulated depreciation and impairment losses, if any. Freehold land are stated at revalued amounts and buildings on freehold land are stated at revalued amounts less accumulated depreciation and accumulated impairment, if any. The costs of property, plant and equipment include:

- (a) its purchase price including import duties, non-refundable purchase taxes after deducting trade discounts and rebates;
- (b) any other costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management; and
- (c) Borrowing costs, if any.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent expenditure

Expenditure incurred to replace a significant component of an item of property, plant and equipment is capitalised and the asset so replaced is retired. Other subsequent expenditure is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the items can be measured reliably. All other expenditure (including repairs and normal maintenance) is recognised in the statement of profit or loss as an expense when it is incurred.

Depreciation

Depreciation on all items except for freehold land is charged on straight line method at the rates specified in note 4.1 to the financial statements and is generally recognised in statement of profit or loss.

Depreciation on addition is charged from the month the asset is available for use up to the month prior to disposal.

Depreciation methods, useful lives and residual values of each part of property, plant and equipment that is significant in relation to the total cost of the asset are reviewed, and adjusted if appropriate, at each reporting date.

Revaluation surplus

Revaluation of freehold land and buildings on freehold land is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from the fair value. Any revaluation increase in the carrying amount of freehold land and buildings on freehold land is recognized, net of tax, in other comprehensive income and presented as a separate component of equity as "Revaluation surplus on property, plant and equipment" except to the extent that it reverses a revaluation decrease / deficit for the same asset previously recognised in the statement of profit or loss, in which case the increase is first recognized in the statement of profit or loss to the extent of the decrease previously charged.

Any decreases that reverse previous increases of the same asset are first recognized in other comprehensive income to the extent of the remaining surplus attributable to the asset, all other decreases are charged to statement of profit or loss. The revaluation reserve is not available for distribution to the Company's shareholders. Each year, the difference between depreciation based on the revalued carrying amount of the asset charged to statement of profit or loss and depreciation based on the asset's original cost, net of tax, is reclassified from revaluation surplus to retained earnings.

Gains and losses on disposal

Gains and losses on disposal of assets are taken to the statement of profit or loss, and the related surplus on revaluation of property, plant and equipment, if any, is transferred directly to retained earnings.

3.2.2 Capital work-in-progress

Capital work-in-progress is stated at cost less impairment loss, if any and consists of expenditure incurred (including any borrowing costs, if applicable) and advances made in the course of their construction and installation. Transfers are made to relevant asset category as and when assets are available for intended use.

Advances paid to suppliers for acquisition of property, plant and equipment including land and building is also classified under capital work-in-progress.

3.3 Intangible assets

An intangible asset is recognised as an asset if it is probable that future economic benefits attributable to the asset will flow to the entity and the cost of such asset can be measured reliably.

Costs directly associated with identifiable software that will have probable economic benefits exceeding one year, are recognised as an intangible asset.

Indefinite intangible assets

These are stated at cost less impairment, if any.

Definite intangible assets

- a) These are stated at cost less accumulated amortisation and impairment, if any.
- b) These are amortised on straight line basis over its estimated useful life(s) of these assets (refer note 6).
- c) Amortisation on additions during the year is charged from month in which the asset is intended to use, whereas no amortisation is charged from the month the asset is disposed-off.

3.4 Financial instruments

3.4.1 Initial measurement of financial asset

The Company classifies its financial assets into following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- measured at amortised cost.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Subsequent measurement

 Debt investments at
 These assets are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss. Other net gains and losses are recognised in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in other comprehensive income and are never reclassified to the statement of profit or loss.
Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognised in statement of profit or loss.
Financial assets measured at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses, if any. Interest / markup income, foreign exchange gains and losses and impairment, if any, are recognised in the statement of profit or loss.

3.4.2 Non-derivative financial assets

All non-derivative financial assets are initially recognised on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Non-derivative financial assets comprise loans and receivables that are financial assets with fixed or determinable payments that are not quoted in active markets and include trade debts, deposits, advances and cash and cash equivalents. The Company derecognises the financial assets when the contractual rights to the cash flows from the asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risk and rewards of ownership of the financial assets are transferred or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset.

3.4.2.1 Trade debts, advances and other receivables

These are classified at amortised cost and are initially recognised when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

3.4.2.2 Cash and cash equivalents

For the purpose of presentation in statement of cash flows, cash and cash equivalents includes cash in hand, balances with banks and short term borrowings availed by the Company, which are repayable on demand and form an integral part of the Company's cash management.

3.4.3 Financial liabilities

Financial liabilities are initially recognised on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Financial liabilities include mark-up bearing borrowings, unclaimed / unpaid dividend, accrued mark-up, lease liability and trade and other payables. The Company derecognises the financial liabilities when contractual obligations are discharged or cancelled or expire. Financial liabilities other than at fair value through profit or loss are initially measured at fair value less any directly attributable transaction cost. Subsequent to initial recognition, these liabilities are measured at amortised cost using effective interest rate method.

3.4.3.1 Mark-up bearing borrowings and borrowing costs

Mark-up bearing borrowings are recognised initially at fair value, less attributable transaction costs. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortised cost, while the difference between the cost (reduced for periodic payments) and redemption value is recognised in the statement of profit or loss over the period of the borrowings using the effective interest rate method.

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the relevant asset.

3.4.3.2 Trade and other payables

Trade and other payables are recognised initially at fair value plus directly attributable costs, if any, and subsequently measured at amortised cost.

3.4.3.3 Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

3.4.4 Derivative financial instruments - other than hedging

Derivatives that do not qualify for hedge accounting are recognised in the statement of financial position at estimated fair value with corresponding effect to statement of profit or loss. Derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative.

3.4.5 Derivative financial instruments - cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in fair value of the derivative is recognised in other comprehensive income and accumulated in hedging reserve. Any ineffective portion of changes in fair value of derivative is recognised immediately in statement of profit or loss. The amount accumulated in equity is removed therefrom and included in the initial carrying amount of non-financial asset upon recognition of non-financial asset.

The fair value of forward exchange contracts is estimated using appropriate valuation techniques. These are carried as assets when the fair value is positive and liabilities when the fair value is negative.

3.4.6 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when the Company has currently legally enforceable right to set-off the recognised amounts and the Company intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in normal course of business and in the event of default, insolvency or winding up of the Company or the counter parties.

3.5 Stores and spares

Stores and spares are stated at lower of weighted average cost and net realisable value, less provision for impairment, if any. Items in transit are valued at cost comprising invoice value plus other charges incurred thereon.

Provision is made for obsolete and slow moving stores and spares and is recognised in the statement of profit or loss.

3.6 Stock-in-trade

These are valued at lower of cost and net realisable value. Cost is determined under the weighted average basis. Cost comprises all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition. Raw material in transit comprises invoice value and other charges thereon. Net realisable value signifies the estimated selling price in the ordinary course of the business less net estimated cost of completion and selling expenses. Scrap and by-product is valued at estimated realisable value.

3.7 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the statement of profit or loss, except to the extent that it relates to items recognised directly in equity or in other comprehensive income, in which case it is recognised in equity or in other comprehensive income respectively. In making the estimates for income taxes currently payable by the Company, the management considers the current income tax law and the decisions of appellate authorities on certain issues in the past.

Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable or receivable in respect of previous years.

Provisions for current taxation is based on taxability of certain income streams of the Company under presumptive / final tax regime at the applicable tax rates and remaining income streams chargeable at current rate of taxation under the normal tax regime and / or minimum tax liability or alternate corporate tax as applicable, after taking into account tax credits and tax rebates available, if any. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability.

Deferred tax

Deferred tax is recognised using balance sheet liability method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the tax rates enacted or substantively enacted at the reporting date.

The Company recognises a deferred tax asset to the extent that it is probable that taxable profits for the foreseeable future will be available against which the assets can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3.8 Staff retirement benefits

3.8.1 Defined benefit plan

The Company provides gratuity benefits to all its permanent employees who have completed their minimum qualifying period of service i.e. three years (except in case of workers where minimum qualifying period of service is six months). For executives and officers having total service of over twenty years, the benefit is available at one month's basic salary (eligible salary) for each completed year of service. For executives and officers having total service of less than twenty years, the benefit is available at half month's basic salary (eligible salary) for each completed year of service. For executives and officers having total service of less than twenty years, the benefit is available at half month's basic salary (eligible salary) for each completed year of service. For workers, the benefit is available at one month's gross salary less conditional allowances (eligible salary) for each completed year of service. The Company's obligation is determined through actuarial valuations carried out under the 'Projected Unit Credit Method'. Remeasurements which comprise actuarial gains and losses and the return on plan assets (excluding interest) are recognized immediately in other comprehensive income.

The Company determines the net interest expense / (income) on the net defined benefit liability / (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability / (asset), taking into account any changes in the net defined benefit liability / (asset) during the period as a result of contribution and benefit payments. Net interest expense and current service cost are recognised in statement of profit or loss. The latest actuarial valuation was conducted at the reporting date by a qualified professional firm of actuaries.

The actual return on plan assets represent the difference between the fair value of plan assets at the beginning and end of the year and adjusted for contributions and benefits paid.

3.8.2 Defined contribution plan

The Company provides provident fund benefits to all its officers. Equal contributions are made, both by the Company and the employees, at the rate of 8.33% of basic salary and cost of living allowance and the same is charged to the statement of profit or loss.

3.8.3 Compensated absences

The liability for accumulated compensated absences of employees is recognised in the period in which

employees render service that increases their entitlement to future compensated absences.

3.9 Foreign currency transactions and translation

Transactions in foreign currencies are translated into Pakistan Rupees at the rates of exchange approximating those prevailing on the date of transactions. Monetary assets and liabilities in foreign currencies are translated into Pak Rupees at the rates of exchange ruling on the reporting date. Exchange differences are included in the statement of profit or loss.

3.10 Revenue recognition

- Domestic sales are recognised as revenue when invoiced with the transfer of control of goods, which coincides with delivery, as this is the point in time that the consideration becomes unconditional, because only the passage of time is required before the payment is due.
- Export sales are recognised as revenue when invoiced with the transfer of control of goods, which coincides
 either with the date of bill of lading or upon delivery to customer or its representative, based on terms of
 arrangement.
- Revenue from power generation plant on account of sales of surplus electricity is recognised on transmission of electricity to K-Electric Limited.
- Toll manufacturing / partial manufacturing income is recognised when related services are rendered.

No element of financing is deemed present as the sales are made with a credit term of up to 120 days, which is consistent with the market practice.

3.11 Income on bank deposits and finance cost

The Company's finance income and finance cost includes income on bank deposits and finance cost. Income or expense is recognised using the effective interest rate method.

3.12 Impairment

3.12.1 Financial assets

The Company recognises loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortised cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade debts are always measured at an amount equal to lifetime ECLs.

The expected loss rates are based on the payment profiles of sales over a period of 36 - 60 months before June 30, 2022 or July 1, 2021 respectively and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the debts. The Company has identified the Gross Domestic Product (GDP) and the unemployment rate of the countries in which it sells its goods to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovery of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The adoption of the expected loss approach has not resulted in any material change in impairment provision for any financial asset.

A financial asset is considered irrecoverable (default event) when the counterparty fails to make contractual payments within one year of when they fall due.

3.12.2 Non-financial assets

The carrying amounts of the Company's non-financial assets, other than stores and spares, stock in trade and deferred tax are reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount, being higher of value in use and fair value less costs to sell, is estimated. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the statement of profit or loss.

3.13 Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are measured at the present value of expected expenditure, discounted at a pre-tax rate reflecting current market assessment of the time value of money and the risk specific to the obligation. However, provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

3.14 Contingent liabilities

A contingent liability is disclosed when the Company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Company; or the Company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

3.15 Segment reporting

Segment results that are reported to the Company's Chief Executive Officer (CEO) - the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items, if any, comprise mainly corporate assets, head office expenses, and tax

assets and liabilities. Management has determined that the Company has a single reportable segment and therefore it has only presented entity wide disclosures.

The Company does not consider sale of electricity to K-Electric Limited (KE) as separate reportable segment as the power plant of the Company is installed primarily to supply power to its production facilities and currently any excess electricity is sold to KE.

3.16 Dividend and appropriations to / from reserves

Dividend distribution to the Company's shareholders and appropriations to / from reserves are recognised as a liability in the period in which these are approved.

3.17 Government grants

Government grants are transfers of resources to an entity by a government entity in return for compliance with certain past or future conditions related to the entity's operating activities - e.g. a government subsidy. The definition of "government" refers to governments, government agencies and similar bodies, whether local, national or international.

The Company recognises government grants when there is reasonable assurance that grants will be received and the Company will be able to comply with conditions associated with Grants.

Government grants are recognised at fair value, as deferred income, when there is reasonable assurance that the grants will be received and the Company will be able to comply with the conditions associated with the grants.

Grants that compensate the Company for expenses incurred, are recognized on a systematic basis in the income for the year in which the related expenses are recognized. Grants that compensate for the cost of an asset are recognized in income on a systematic basis over the expected useful life of the related asset.

A loan is initially recognized and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that is the government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant.

3.18 Share capital

Ordinary shares are classified as equity and recognised at their face value. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, if any.

11. STAFF RETIREMENT BENEFITS

11.1 Defined contribution plan

Staff Provident Fund

All investments in collective investment schemes, listed equity and listed debt securities out of provident fund have been made in accordance with the provisions of section 218 of the Companies Act, 2017 and the conditions specified thereunder.

11.2 Defined benefit scheme

Staff Gratuity Fund

- **11.2.1** As stated in note 3.8 the company operates approved funded defined benefit gratuity plan for all permanent employees meeting the specified criteria and defined contribution plan for all active employees subject to minimum service of prescribed period as per the respective trust deeds. Actuarial valuation of these plans is carried out every year and the latest actuarial valuation was carried out as at June 30, 2022.
- 11.2.2 Plan assets held in trust are governed by local regulations which mainly include Sindh Trusts Act, 2020; the Companies Act, 2017; Income Tax Rules, 2002 and the Rules under the respective trust deeds. Responsibility for governance of the Plans, including investment decisions and contribution schedules, lies with the respective Board of Trustees. The Company appoints the trustees among its employees.

11.2.3 Risks on account of defined benefit plan

The Company faces the following risks on account of defined benefit plan:

Final salary risk - The risk that the final salary at the time of cessation of service is greater than what the Company has assumed. Since the benefit is calculated on the final salary, the benefit amount would also increase proportionately.

Asset volatility - Most assets are invested in risk free investments of 6 months, 3, 5 or 10 years Regular Income Certificates, Defence Savings Certificates, Treasury Bills and Government Bonds. However, investments in equity instruments is subject to adverse fluctuations as a result of change in the market price.

Discount rate fluctuation - The plan liabilities are calculated using a discount rate set with reference to market yields on government bonds. A decrease in market yields on government bonds will increase plan liabilities, although this will be partially offset by an increase in the value of the current plans' bond holdings.

Investment risks - The risk of the investment underperforming and not being sufficient to meet the liabilities. This risk is mitigated by closely monitoring the performance of investment.

Risk of insufficiency of assets - This is managed by making regular contribution to the Fund as advised by the actuary.

11.2.4 Funding

The gratuity plan is fully funded by the Company. The funding requirements are based on the gratuity fund's actuarial measurement framework set out in the funding policies of the plan. The funding is based on a separate actuarial valuation for funding purposes for which the assumptions may differ from the assumptions used in determining defined benefit liability. Employees are not required to contribute to the plan.

11.2.5 The actuarial valuation of gratuity was carried out at June 30 by an independent actuary under projected unit credit method using the following assumptions:

Four years	18,266	22,139
Five years	66,978	14,944
Six years and onwards	8,867,627	4,016,909

11.2.15 The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	2022	2021
	(Rup	ees in '000)
Actuarial liability		
Discount rate + 1%	264,72	7 213,184
Discount rate - 1%	328,54	2 267,161
Salary increase + 1%	329,01	7 267,577
Salary increase - 1%	263,82	3 212,399
	(Num	ber in years)
Weighted average duration of the Defined Benefit Obligation	1	1 11

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied.

Additionally, the grant was also recognized in respect of SBP's Temporary Economic Refinance Facility (TERF) obtained for import of Plant and Machinery.

18 GAS INFRASTRUCTURE DEVELOPMENT CESS

In the prior year, the Honorable Supreme Court of Pakistan (SCP) has decided the Appeal against consumers upholding the vires of GIDC Act, 2015 through its judgement dated August 13, 2020. The SCP on November 02, 2020 ordered that their decision of August 13, 2020 has validated the GIDC Act, 2015 in complete sense and the benefits allowed under its Section 8(2) to the industrial sector is also available. Further, payment of due GIDC was allowed in 48 installments instead of 24 installments.

The Company has also filed a civil suit before the Honourable High Court of Sindh (SHC) on the ground that the Company has not passed on the burden of cess. Stay order was granted in the aforesaid suit, which has been operative till the next date of hearing.

The Company has revalued and recorded the payable at its present value by discounting the future cash flows using three year PKRV rate and has booked income of Rs. 49.42 million (2021: Rs. 183.64 million), which has been recorded as other income. The unwinding of the GIDC during the year amounts to Rs. 76.997 million (2021: Rs. 40.84 million).

Despite the speaking order dated August 13, 2020 by the SCP, the Federal Government did not initiate the gas project within six months, therefore, during the year the Company has filed a petition in the SHC challenging the decision of the SCP.

18.1 Following is the carrying amount of provision for GIDC and the movement during the year:

	(569,107)	(440,472)
	1,705,161	2,031,997

- **19.1** The deferred tax assets and the deferred tax liabilities relate to income tax in the same jurisdiction, and the law allows net settlement. Therefore, they have been offset in the statement of financial position.
- **19.2** Deferred tax liability is restricted to 72.80% (2021: 89.16%) of the total deferred tax liability based on the assumptions that export sales will continue to fall under Final Tax Regime and the current trend of export and local sales ratio will continue to be the same in the foreseeable future.
- **19.3** Under the Finance Act, 2019, corporate rate of tax has been fixed at 29% for tax year 2020 and onwards. As per Finance Act, 2022, companies operating in certain sectors, including steel, are liable to pay super tax at 10% for tax year 2022 and upto 4% for subsequent years. Accordingly, deferred tax assets and liabilities have been recognised using the expected applicable rate.

- **20.1** These include payable to Sumitomo Corporation, related party of the Company, amounting to Nil (2021: Rs. 1,197.41 million).
- **20.2** These include current portion of provision for Gas Infrastructure Development Cess amounting to Rs. 713.28 million (2021: Rs. 403.26 million) and provision against revision of gas tariff by Oil and Gas Regulation Authority amounting to Rs. 688.38 million (2021: Rs. 610.26 million).

20.3 The Sindh Finance Act, 1994 prescribed an infrastructure fee at the rate of 1% of the C&F value of all goods entering or leaving the province of Sindh via sea or air. The Sindh High Court (SHC), passed an interim order directing that every company subsequent to December 27, 2006 is required to clear the goods on paying 50% of the fee amount involved and furnishing a guarantee / security for the balance amount. Subsequently through Sindh Finance Act 2015 and 2016, the legislation has doubled the rate of Sindh Infrastructure Cess.

The case was decided on June 04, 2021 by the SHC. The SHC declared first four versions of the law unconstitutional and the release of bank guarantees were ordered. However, the Sindh Infrastructure Development Cess Act, 2017 was declared constitutional with retrospective effect from 1994. The operation of the order remained suspended till September 03, 2021. The Company was not satisfied with the above orders and filed an appeal with the Supreme Court of Pakistan.

On September 01, 2021, the Supreme Court granted a stay order against the operation of the order of SHC dated June 04, 2021, that the bank guarantees already submitted by the Company in pursuant to the order of High Court is valid and enforceable. The court further ordered that imports should be released on submission of fresh bank guarantees equivalent to 100% of the fee amount under the Act.

Bank guarantees issued as per the above mentioned orders amounting to Rs. 2.622.5 million (2021; Rs. 1.667.5 million) have been provided to the Excise and Taxation Department. However, a provision to the extent of amount utilized from the limit of guarantee has also been provided for by the Company on prudent basis.

20.3.1 Provision for Infrastructure Cess

This represents provision against fifty percent amount guaranteed to Excise and Taxation Officer (refer 20.3 note).

20.4 The Company filed a constitutional petition in the SHC against notice to the Company for payment of Sindh Workers Welfare Fund under the Sindh Workers Welfare Fund Act, 2014. Stay was obtained on the ground that the Company is a trans-provincial establishment operating industrial and commercial activities across Pakistan and is liable to pay Workers Welfare Fund under Federal Workers Welfare Fund Ordinance, 1971.

36. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

Financial risk management

The Board of Directors of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

Risk management framework

The Board meets frequently throughout the year for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Board Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

36.1 Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations without considering the fair value of the collateral available there against.

36.1.1 Exposure to credit risk

The carrying amount of respective financial assets represent the maximum credit exposure. The maximum exposure to credit risk at the reporting date is as follows:

	Note	2022	2021
		(Rupees in '000)	
- Long term deposit with Central Depository			
Company of Pakistan Limited		100	100
- Trade debts	9	1,034,132	939,845

- Bank balances	13	896,462	292,511
		2,007,762	1,336,149

The Company does not take into consideration the value of collateral while testing financial assets for impairment. The Company considers the credit worthiness of counterparties as part of its risk management.

Long term deposit with Central Depository Company of Pakistan Limited (CDC)

This represents long term deposits with CDC. The Company does not foresee any credit exposure there against as the amounts are paid to counterparty as per agreement and is refundable on termination of the agreement with respective counterparty.

Trade debts

The Company's exposure to credit risk arising from trade debtors is mainly influenced by the individual characteristics of each customer. Majority of the Company's sales are made against receipts in advance from customers. The Company has no major concentration of credit risk with any single customer. The majority of the trade customers have been transacting with the Company for several years. The Company establishes an allowance for impairment where it considers recoveries are not probable.

Trade deposits

These represent deposits placed with various suppliers as per the terms of securing availability of services. The management does not expect to incur credit loss there against.

Receivable from K-Electric Limited

The receivable from K-Electric Limited amounting to Rs. 32.87 million (2021: Rs. 26.92 million) on account of electricity provided to it under an agreement from the power plant located at the factory site. The Company does not expect to incur credit loss against this receivable.

Analysis of gross amounts receivable from local and foreign trade debtors and from K-Electric Limited are as follows:

2022	2021	
(Rupees	s in '000)	
244,909	106,477	
822,097	860,288	
1,067,006	966,765	

36.1.2 Impairment losses

The aging of trade debtors and receivable from K-Electric Limited (KE) at the reporting date was as follows:

	2022		2021	
	Gross Impairment		Gross	Impairment
	(Rupees in '000)			
Not past due	679,081	-	871,221	-

Past due 61 + days	56	-	43	-
Total	1,067,006	-	966,765	-

Management believes that the unimpaired balances that are past due are still collectible in full, based on historical payment behaviour and review of financial strength of respective customers. Further, certain trade debtors are secured by way of Export Letter of Credit and Inland Letter of Credit which can be called upon if the counter party is in default under the terms of the agreement.

36.1.3 Concentration of credit risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. In order to avoid excessive concentrations of risk, management focuses on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. Management does not consider that it has any concentration of credit risk at the reporting date.

36.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or there is difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company ensures that it has sufficient cash to meet expected working capital requirements by having credit lines available. The following are the contractual maturities of financial liabilities, including interest payments and excluding the impact of netting agreements:

		2022					
	Carrying amount	Contractual cash flows	Six months or less	Six to twelve months	One to five years	More than five years

- **36.2.1** The contractual cash flows relating to the above financial liabilities have been determined on the basis of mark-up rate effective as at June 30. The rate of mark-up has been disclosed in respective notes to these financial statements.
- **36.2.2** Long term financing from various banks contains certain loan covenants. A breach of covenant, in future, may require the Company to repay the respective loans earlier than as directed in the above table.

36.3 Market risk

Market risk is the risk which arises due to changes in market prices, such as foreign exchange rates, interest rates and equity prices, that will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company is exposed to currency risk and interest rate risk only.

Management assessed that the fair values of cash and cash equivalents and short-term deposits, receivable from K-Electric Limited (KE), trade debts, trade payables, short term borrowings and other current liabilities approximate their carrying amounts largely due to short-term maturities of these instruments. For long term deposit assets and long term liabilities, management considers that their carrying values approximate fair value owing to credit standing of counterparties and interest payable on borrowings is at market rate.

36.3.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Exposure to currency risk

The Company is exposed to currency risk on trade debts, bank balances and trade creditors that are denominated in a currency other than the respective functional currency of the Company, primarily U.S. Dollar. The Company's exposure to foreign currency risk is as follows:

	2022		2021	
	Rupees	US Dollars	Rupees	US Dollars
		(Amount	s in '000)	
Financial assets				
Bank balance	402,149	1,970	219,072	1,394
Trade debts	822,098	4,027	860,288	5,475
Financial liabilities				
Trade creditors	(153,380)	(750)	(1,416,398)	(8,993)
Net exposure	1,070,867	5,247	(337,038)	(2,124)

The following significant exchange rates applied during the year:

	Average rates		Reporting date rate		
	2022	2021	2022 2021		
	(Rupees)				
US Dollars to PKR	181.04	160.47	204.59	157.49	

Sensitivity analysis

A 10 percent strengthening / (weakening) of the Pak Rupee against the US Dollar at June 30, 2022 would have increased / (decreased) the profit by Rs. 72.4 million (2021: Rs. 24.42 million). This analysis assumes that all other variables, in particular interest rates, remain constant and the analysis is performed on the same basis as done in prior year.

36.3.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate exposure arises from short and long term borrowings from banks.

At the reporting date, the interest rate profile of the Company's interest-bearing financial instrument is:

	Carrying amount	
	2022	2021
	(Rupees in '000)	
Fixed rate instruments		
Financial liabilities	8,843,278	5,996,602
Variable rate instruments		
Financial liabilities	12,876,772	6,006,488

a) Cash flow sensitivity analysis for variable rate instruments

The Company holds various variable rate financial instruments amounting to Rs. 12,876.77 million (2021: Rs. 6,006.49 million) exposing the Company to cash flow interest rate risk. A change of 100 basis points as at June 30, 2022 would have increased / (decreased) profit after tax and equity by Rs. 91.43 million (2021: Rs. 42.65 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

b) Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect the statement of profit or loss.

Other price risk

Price risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate due to changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Company has no exposure to price risk.

36.5 Fair value of financial assets and liabilities

The carrying values of financial assets and financial liabilities reported in the statement of financial position approximate their fair values.

37. CAPITAL MANAGEMENT

The objective of the Company when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital base to support the sustained development of its businesses. The Company intends to manage its capital structure by monitoring return on capital, as well as the level of dividends to ordinary shareholders.

38. MEASUREMENT OF FAIR VALUES

Management engages an independent external expert / valuer to carry out valuation of its non-financial assets (i.e. Land and Building) and obtains rate from financial institution to value derivative financial instruments. Involvement of external valuers is decided by management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

When measuring the fair value of an asset or a liability, the Company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at June 30, 2022, all financial assets and financial liabilities are carried at amortised cost which is approximate to their fair value. The Company measures the Land and Buildings at fair value and all of the resulting fair value estimates in relation to Land and Buildings of the Company are included in Level 3.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the management recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers between different levels of fair values mentioned above.

The following table provides the valuation approach, inputs used and inter-relationship between significant unobservable inputs and fair value measurement of the Company's Land and Buildings measured at fair value:

Assets measured at fair value	Date of Valuation	Valuation approach and inputs used	Inter-relationships between significant unobservable inputs and fair value measurement
Revalued property, plant and equipment - Land and Building	June 30, 2022	The valuation model is based on price per square meter and current replacement cost method adjusted for depreciation factor for the existing assets in use. In determining the valuations for land and buildings, the valuer refers to current market conditions, structure, current replacement cost, sale prices of comparable land in similar location adjusted for differences in key attributes such as land size and inquires with numerous independent local estate agents / realtors in the vicinity to establish the present market value. The fair valuation of land and building is considered to represent a level 3 valuation based on significant non-observable inputs being the location and condition of the assets.	change owing to changes in input. However, management does not expect material sensitiv- ity to the fair values arising from

The fair value of land and buildings is a Level 3 recurring fair value measurement. A reconciliation of the opening and closing fair value is provided below:

	2022	2021
	(Rupees in '000)	
Opening net book value	5,248,331	5,434,720
Additions during the year	57,005	18,565
Depreciation for the year	(199,065)	(197,981)
Disposals during the year (at NBV)	(12,164)	(6,973)
Revaluation during the year	1,489,762	-
Closing net book value	6,583,869	5,248,331

Management assessed that the fair values of cash & cash equivalents, other receivable, receivables from K-Electric, trade deposits, trade debts, short term borrowings, trade and other payables, accrued mark-up, contract liabilities and unclaimed dividends approximate their carrying amounts largely due to short-term maturities of these instruments. For long term deposit and long term financing, management consider that their carrying values approximate fair value owing to credit standing of counterparties and interest payable on borrowings at market rates.

39. TRANSACTIONS WITH RELATED PARTIES

The related parties comprise the Holding Company, associated undertakings, directors of the Company, key management personnel and staff retirement funds. اراكين كو مطلح كياجاتاب كدكهات كاندراج كي شكل ميں حصص رکھنے کے متعدد فوائد ہيں جن ميں شامل ہيں:

- تصص کی محفوظ اور آسان تحویل
- با آسانی قابل تجارت اور قابل منتقل
- خرابی، نقصان یا چوری کا کوئی خطرہ نہیں
- کھاتے کے اندراج کی شکل میں حصص کی منتقلی پرکوئی سٹیمپ ڈیوٹی نہیں۔
 - بلاركاوٹ بونس ادائيگي پارائٹ شيئرز

ہم ایک بار پھر کمپنی کےارا کین کو تندبیہ کرنا چاہتے ہیں کہ وہ اپنے بہترین مفاد میں اپنے حقیقی صص جلداز جلد کھاتے کےاندراج کی شکل میں تبدیل کرلیں۔
