A Legacy to Forge

Corporate Profile

Steel for the Nation. Strength for the Future.

International Steels Limited (ISL) is Pakistan's foremost flat steel manufacturer, setting benchmarks in quality, scale, and innovation. Established in 2007, ISL began production in 2010 — a milestone that marked the company's commitment to transforming the nation's industrial capabilities. Today, ISL is a recognized leader in **Cold Rolled, Galvanized, and Color Coated Steel**, supplying diverse sectors with premium steel solutions for both domestic and international markets.

BUILT FOR SCALE AND PERFORMANCE

- **Total Investment to Date:** US\$ 300 Million
- **Annual Production Capacity:** 1 Million Metric Tons
- **Manufacturing Footprint:** 47 Acres

ISL's main production facility is located on a sprawling 32-acre site in Karachi's industrial heartland, equipped with cutting-edge technology and managed under stringent quality control systems. Accompanied with this is a **dedicated 15-acre Service Center**, offering value-added processing and finishing services to support industry-ready steel solutions in the most consumable forms.

GLOBAL REACH, LOCAL STRENGTH

With exports to **over 30 countries** across **six continents**, ISL has established itself as a trusted global supplier of high-quality flat steels. This international footprint not only enhances Pakistan's standing in the global steel industry but also contributes to **foreign exchange savings** by reducing the country's reliance on imported flat steel.

A PILLAR OF PAKISTAN'S INDUSTRIAL FABRIC

ISL's steel forms the backbone of several sectors, including construction, automotive, home appliances, and engineering. Its products are a key enabler of industrial growth and infrastructure development. From SMEs to large-scale manufacturers, ISL's materials power the ambitions of countless businesses, reinforcing the company's role as a **critical catalyst for national progress**.

PRODUCTION CAPABILITIES

Product Type	Annual Capacity
Cold Rolled Steel	1,000,000 Metric Tons
Hot-Dipped Galvanized Steel	462,000 Metric Tons
Color Coated Steel	84,000 Metric Tons

ISL serves the entire country through a wide supplier network supported by **regional offices in Lahore, Islamabad, and Multan**. With a diverse and adaptable product portfolio, ISL ensures timely supply to both local and international customers, meeting their dynamic production needs with consistency and care.

SUSTAINABILITY AND SOCIAL RESPONSIBILITY

ISL operates under a **Clean, Lean, and Green** philosophy. Through resource-efficient production, waste minimization, and recycling initiatives, ISL consistently reduces its environmental footprint. The company's **CSR programs** support underprivileged communities in health, education, and disaster relief — fostering inclusive growth and social well-being.

POWERING PROGRESS THROUGH RENEWABLE ENERGY

In 2024, ISL took a defining step in its sustainability journey by commissioning a **6.4 MW solar power** project at its Karachi factory. Fully operational in under a year, this initiative now generates over **8 million kilowatt-hours (kWh)** annually equivalent to the electricity consumption of more than **3,000 Pakistani households**.

The solar transition is a strategic investment in sustainable manufacturing and long-term value creation.

Key Benefits:

- **Carbon Emission Reduction:** Thousands of metric tons of CO₂ avoided each year
- **Operational Resilience:** Protection against grid disruptions and energy price volatility
- **Energy Security:** Enhanced self-sufficiency for industrial operations

Aligned with Global Sustainability Goals:

- **SDG 7:** Affordable and Clean Energy
- **SDG 9:** Industry, Innovation, and Infrastructure
- **SDG 12:** Responsible Consumption and Production
- **SDG 13:** Climate Action

This shift to solar energy strengthens ISL's **Environmental, Social, and Governance (ESG)** strategy, reinforcing its role as a trailblazer in industrial decarbonization. It positions the company as more than a steel manufacturer — **a partner in building a low-carbon and innovation-driven industrial future for Pakistan**.

About the Group

Amir S. Chinoy Group

The Amir S. Chinoy Group (ASC Group) has been at the forefront of Pakistan's industrial development since the founding of the country 78 years ago. Our founder, Mr. Amir S. Chinoy, a pioneer of industrialization in Pakistan, laid the foundation of the ASC Group by setting up manufacturing concerns in heavy chemicals (Pak Chemicals Ltd, 1951), steel, and galvanized pipes (International Industries Limited, 1948) and electrical wires and cables (Pakistan Cables Limited, 1953). His commercial interests also extended to trading, electrical contracting, and the representation of major European and international companies in South Asia. As a flag bearer of determination and innovation, the group later invested in a green field project for the manufacture of Cold Rolled, Galvanized and Colour Coated steel coils and sheet (International Steels Limited, 2007).

Today, the ASC group is one of the leading industrial groups in Pakistan with proven expertise in manufacturing, trading, and industrial services. The member companies enjoy a credible export pedigree with combined export revenues of Rs. 15 billion. ASC Group's growing global footprint is further represented by an on-ground presence in Australia, Canada, and Europe through its wholly owned subsidiaries IIL Australia Pty. Ltd., IIL Americas Inc., and INIL Europe Ltd., which collectively contribute Rs. 2.3 billion in export revenues. In addition, the Group operates IIL Trading Pvt. Ltd. in Pakistan, a premium trading company representing globally renowned brands such as Milwaukee, Fischer, Mapei, and Brenntag. In Pakistan, the ASC group has an extensive distribution network through 2,600 outlets in 500 cities and towns across the country. Recently in 2024, Chinoy Engineering and Construction (Pvt.) Ltd. (CECL), an associate company of International Industries Limited, Pakistan Cables Limited and International Steels Limited, was established to explore business opportunities in construction projects. CECL successfully entered into a contract with the Reko Diq Mining Company to design and construct a Permanent Accommodation Camp at Reko Diq Copper Gold Mines, Baluchistan.

The broad range of products manufactured by the Group companies includes:

Cold Rolled Steel

Galvanized Steel

Colour Coated Steel

Steel Pipes
(CR, HR, Galvanized,
Stainless Steel)

Polymer Pipes
(UPVC, PPRC, PE)

Highlights of the ASC Group member companies' events

ASC Group Participates in Saudi Build Expo 2024

ASC Group companies participated in the Saudi Build, expo to explore the region's largest building and infrastructure market at the 34th International Trade Exhibition for Construction Materials and Building Technologies held at Riyadh International Convention & Exhibition Center during November 4-7, 2024.

ASC Group Participates in IAPEX Lahore 2024

ASC Group companies participated in IAPEX Lahore, held at the Lahore Expo Centre from November 1 to 3, 2024, showcasing their commitment to innovation and industry leadership. Pakistan Cables featured its Wiring Accessories portfolio, International Industries displayed its comprehensive range of steel tubes and pipes and International Steels presented its latest galvanized and cold-rolled steel products. The exhibition provided a valuable platform to engage with industry stakeholders, strengthen brand visibility, and reinforce group's position as a leader in Pakistan's industrial landscape.

ASC Group Participates in Pakistan Minerals Investment Forum 2025

ASC Group participated in the Pakistan Minerals Investment Forum 2025, a premier platform showcasing the country's potential in the minerals and mining sector. Among the Group's highlights was CECL (Copper & Energy Company Limited), a sister company, which drew significant attention for its growing role in Pakistan's resource development landscape.

The event offered a valuable opportunity to present the Group's vision, explore strategic partnerships, and reinforce our commitment to contributing to the nation's industrial and energy advancement.

ASC Group Marks Pinktober

ASC Group organized a Breast Cancer Awareness event, featuring special guests, Dr. Bushra Maham Amin from Shaukat Khanum Hospital, cancer survivor Aysha Jamil, and former First Lady Begum Samina Arif Alvi. The informative session helped the attendees learn more about the symptoms, prevention, and treatment of breast cancer.

2nd Amir Sultan Chinoy Women's Tapeball Cricket Tournament 2024

The 2nd Amir Sultan Chinoy Women's Tape-ball Cricket Tournament, held in December 2024, was a significant milestone in the ASC Group's commitment to promoting diversity, equity, inclusion, and collaboration across its member companies. The tournament featured 42 enthusiastic women participants, with Tectonic Titans (ILL), Electric Eagles (PCL), and Steel Strikers (ISL) teams embodying the spirit of sportsmanship and empowerment. Tectonic Titans (ILL) claimed the championship title in an electrifying final, capping off a successful two-day event that celebrated unity and progress on and off the field.

ASCF Sports Collaboration

Under a multi-year sponsorship agreement by the Amir S. Chinoy Foundation, the ASC Group is proud to support Sana and Saif Bahader — two exceptionally talented squash athletes who continue to break barriers.

Despite being classified as Persons with Disabilities (PWDs), their unwavering determination and remarkable skill embody the spirit of Pakistan's resilient youth. This collaboration reflects our commitment to inclusivity and aims to elevate their talent — and Pakistan's squash legacy — onto the global stage.

ASCF Supports Water Filtration Plant in Dharasar Umarkot

ASCF in collaboration with Zaman Foundation installed a water filtration plant in Dharasar village, Umar Koth, to provide access to clean drinking water access to the local community. Dharasar is a remote desert village located 65km from Umarkot, home to over 600 residents across 350+ households. The predominantly Hindu community faces limited infrastructure and essential services access.

Emerge Incubation Centre Completed Cohort III

Emerge completed its COHORT III pitch deck round in which 30 highly promising incubates were meticulously selected, setting the stage for a dynamic and competitive cohort. Emerge is Pakistan's first TVET based incubation centre for the underprivileged youth, set up by the Amir Sultan Chinoy Foundation in collaboration with the Hunar Foundation with the intent to promote entrepreneurial skills among them.

ISL celebrates Health, Safety and Environment

ISL celebrated HSE Day, reaffirming its commitment to Health, Safety, and Environment as core values of the organization. The event brought together employees from all departments to engage in activities, training sessions, and discussions aimed at strengthening ISL's safety culture and environmental stewardship.

ISL at Pakistan HVACR Expo 2025

ISL showcased its steel solutions at the 30th Pakistan HVACR International Expo & Conference in Lahore. Its products underscored ISL's value proposition in HVACR industry segments.

ISL Completes 6.4MW Solar Power Project – A Sustainability Milestone

International Steels Limited (ISL) successfully completed its 6.4 MW solar power project, delivering clean electricity to production and office sites. Expected to generate over 8 million kWh per year, the project significantly reduces ISL's reliance on fossil fuels and advances its ESG strategy.

Products and Services

Products & Services

COLD ROLLED STEEL

Manufactured as per the ASTM A1008, JIS G3141 and equivalent standards

ISL's CRC is offered in a range of product specifications, ranging from drawable, deep drawable, to commercial grades, and surface finishes from bright to dull, to meet commercial or industrial needs of customers. ISL's Cold Rolling Mill is a modern, advanced facility designed and supplied by SMS Siemag, Germany. With strict quality control processes and advanced technology, our product provides outstanding finish and workability, highly valued by customers in the automobile, home appliances, furniture, drum, tube, filter, tin plate and various other industrial segments.

HOT DIP GALVANIZED STEEL

Manufactured as per the ASTM A653, JIS G3302 and equivalent standards

Galvanization is the process of applying a protective zinc coating to steel to prevent rust and corrosion. ISL's Hot Dipped Galvanized Steel is produced on a state-of-the-art, fully automated galvanizing complex. Our manufacturing facility, a dynamic production team, and adherence to strict quality control measures, paired with the best available raw materials and processes, are applied under controlled conditions to produce premium quality zinc-coated steel.

COLOR COATED STEEL

Manufactured as per the ASTM A653, JIS G3302 and equivalent standards

With a coating capability of 84,000 MT, ISL's Color Coating Line allows us to produce high-quality color coated sheets on various substrates like Cold Rolled, Galvanized, Galvalume, Aluminium, and Stainless-Steel sheets, in a broad range of colors. ISL's high manufacturing standards ensure uniform coating with excellent durability and stain resistance. Color Coated Steel is light weight, possesses good anti-corrosion properties, and can be directly processed and utilized in several indoor and outdoor applications. Polyester (PE) and Polyvinylidene Difluoride (PVDF) paint mediums are used to coat galvanized and other substrates.

Properties

- Annealed, skin passed
- Oiled / unoiled
- Bright or dull finish
- Tension levelled

Thickness Tolerance

1/2 of ASTM A568 and
1/2 of JIS G3141

Applications

Automotive components, tubes and sections, domestic appliances, electrical goods, oil filters, hardware, packaging drums, furniture and fixtures, gates, etc.

Properties

- Regular / suppressed spangle
- Chromated and dried
- Skin passed / Non skin passed

Thickness Tolerance

1/2 of ASTM A924 and
1/2 of JIS G3302

Applications

HVACR and ducting, industrial and agricultural warehouses and sheds, domestic appliances, silos, door frames, roofing sheets, trunks and storage boxes, cable trays, razor wire, etc.

Properties

- Heat cured on GI substrate
- Single / double side painted
- Finish coat (Polyester / PVDF)
- Laminated coils

Thickness Tolerance

1/2 of ASTM A924 and
1/2 of JIS G3312

Applications

Temperature-controlled vehicles, industrial and agricultural warehouses, sheds (roofing and cladding), appliances, furniture and fixtures, false ceilings, trunks, storage boxes, etc.

Chairman's Review

Chairman's Review Report

On behalf of the Board of Directors, I am pleased to present the Annual Report of International Steels Limited for the financial year ended 30 June 2025.

The year under review marked a gradual recovery for Pakistan's economy. GDP grew by 2.7%, inflation moderated to single digits, State Bank's policy rate was reduced to 11% and the exchange rate also remained stable, creating a more predictable business environment.

The domestic steel market exhibited mixed trends. Cold Rolled demand contracted by 5%, reflecting subdued industrial growth, while Galvanized demand grew 11%, due to stronger activity in the rural economy. The formal steel sector continued to contend with structural challenges, including misuse of sales tax exemptions allowed under FATA/PATA and the circumvention of anti-dumping duties on galvanized products.

Despite these headwinds, ISL volume grew by 15% as compared to last year, demonstrating our competitive strength. However, the benefit of higher volumes was tempered by declining global steel prices. Export performance was impacted by aggressive dumping from major steel-producing nations and rising protectionism in key markets.

ISL maintained its profitability trajectory and remains strategically positioned to capitalize on future market growth. The Company's resilience is reflected not only in market share gains but also in the execution of strategic initiatives:

- **Downstream Integration:** Acquisition of a 17% equity stake in Chinoy Engineering & Construction Limited to stimulate domestic steel demand.
- **Energy Diversification:** Commissioning of a 6.4 MW solar power plant, reinforcing our commitment to sustainability, energy cost reduction and a lower carbon footprint.
- **Economic Contribution:** ISL contributed USD 60 million to the national economy through import substitution and export receipts, alongside PKR 14.7 billion in direct and indirect taxes.

The Board maintained a high standard of corporate governance, with active participation from all Directors, including our Independent Directors, in strategic decision-making. During the year, Mr. Samir M. Chinoy was appointed Chief Executive Officer, succeeding Mr. Yousuf H. Mirza, who remains on the Board. We thank Mr. Mirza for his leadership and welcome Mr. Chinoy's vision for ISL's next growth phase. Additionally, Mr. Kenichi Hotta joined the Board, succeeding Mr. Norihiro Mizota, whose contribution we deeply appreciated.

We welcome recent regulatory reforms, including changes to the sales tax regime for FATA/PATA and the imposition of anti-dumping duties on circumvented coated products. These measures should help expand the footprint of Pakistan's domestic flat steel industry.

As Chairman, I remain committed to leading a culture grounded in openness, constructive debate and strategic foresight. We will continue to ensure compliance with all regulatory standards, while empowering our management to make decisions that create value over the short, medium and long term.

On behalf of the Board, I extend sincere appreciation to our shareholders, employees, customers and partners for their continued trust and support. Your confidence fuels our determination to navigate challenges and seize opportunities in the evolving market landscape.

With optimism and resolve, we look ahead to the coming year, prepared to build on our strengths, adapt to market realities and deliver sustainable growth.

We pray to Almighty Allah for the continued success and prosperity of your Company.

چیئر مین کی جائزہ رپورٹ

بورڈ آف ڈائریکٹرز کی جانب سے، مجھے انٹرنیشنل اسٹیلز لمیٹڈ کی سالانہ رپورٹ برائے مالی سال 30 جون 2025 پیش کرتے ہوئے خوشی محسوس ہو رہی ہے۔

زیر جائزہ سال میں پاکستان کی معیشت میں رفتہ رفتہ بحالی کے آثار نظر آئے ہیں۔ جی ڈی پی میں 2.7% اضافہ ہوا، افراط زر نمایاں کمی کے ساتھ یک ہندسی سطح پر آگیا، اسٹیٹ بینک کے پالیسی ریٹس کم ہو کر 11% تک آگئے اور زر مبادلہ کی شرح بھی مستحکم رہی، جس سے کاروباری ماحول میں استحکام پیدا ہوا۔

مقامی اسٹیل مارکیٹ میں ملا جلا رجحان رہا۔ کولڈ رولڈ کی طلب میں 5% تک کمی آگئی جو صنعتی نمو میں کمی کی نشاندہی کرتی ہے، جبکہ دیہی معیشت میں زیادہ فعال سرگرمیوں کے سبب گیلونائزڈ کی طلب میں 11% اضافہ ہوا۔ باضابطہ اسٹیل کے شعبہ کو بنیادی صنعتی ڈھانچے کی خامیوں کے ساتھ مقابلہ رہا جن میں FATA/PATA کے تحت سیلز ٹیکس میں استثنیٰ کا غلط استعمال اور گیلونائزڈ پروڈکٹس پر اینٹی ڈمپنگ ڈیوٹیز کا عدم نفاذ شامل ہے۔

ان مشکلات کے باوجود، ISL کے سیلز کے حجم میں گزشتہ سال کے مقابلے میں 15% اضافہ ہوا جو ہماری مسابقتی قوت کی عکاس ہے۔ تاہم زیادہ حجم کے فائدے پر عالمی سطح پر اسٹیل کی قیمتوں میں کمی کا نمایاں اثر پڑا۔ اسٹیل پیدا کرنے والے بڑے ممالک اور اہم منڈیوں میں بڑھتی ہوئی تجارتی رکاوٹوں کے باعث جارحانہ ڈمپنگ نے برآمدی کارکردگی کو متاثر کیا۔

ISL نے منافع کی شرح برقرار رکھی اور مستقبل میں مارکیٹ کی نمو میں سرمایہ کاری کیلئے حکمت عملی کی پوزیشن مستحکم کی۔ کمپنی کا استحکام نہ صرف مارکیٹ شیئر میں اضافے کی نشاندہی کرتا ہے اور طے شدہ حکمت عملی پر عمل درآمد کی عکاسی بھی کرتا ہے۔

• صنعتی انضمام: مقامی اسٹیل کی طلب کی حوصلہ افزائی کیلئے چنائے انجینئرنگ اینڈ کنسٹرکشن لمیٹڈ کے 17% حصص (Shares) اسٹیک کی خریداری۔

• توانائی میں تنوع: 6.4MW سولر پاور پلانٹ کی کم شنگ، جس سے اپنے استحکام، توانائی کی قیمت میں کمی اور کم تر کاربن کی موجودگی کے عزم کو تقویت حاصل ہوئی۔

• معیشت میں حصہ: ISL نے مقامی پیداوار و برآمدات کی مدد میں 60 ملین ڈالر کا حصہ ملانے کے ساتھ ساتھ براہ راست اور بالواسطہ ٹیکسز کی مدد میں 14.7 ملین پاکستانی روپے سرکاری خزانے میں جمع کرائے۔

بورڈ نے فیصلہ سازی کے عمل میں تمام ڈائریکٹرز، بشمول خود مختار ڈائریکٹرز کی جانب سے فعال شرکت سے کارپوریٹ گورننس کے اعلیٰ معیارات کو برقرار رکھا۔

سال کے دوران میں، جناب سمیر ایم چنائے کو جناب یوسف ایچ مرزا کی جگہ چیف ایگزیکٹو آفیسر مقرر کیا گیا، جو بورڈ میں شامل رہیں گے۔ ہم جناب مرزا کو ان کی شاندار قیادت پر شکریہ ادا کرتے ہیں اور ISL کی ترقی کے اگلے دور کیلئے جناب چنائے کے ویژن کا استقبال کرتے ہیں۔ اس کے ساتھ جناب کینچی ہوتانے جناب نوری ہیر و میزونا کی جگہ بورڈ میں شرکت اختیار کی جن کی خدمات کو ہم بھرپور طور پر سراہتے ہیں۔

ہم حالیہ ضوابط کی اصلاحات کا، بشمول FATA/PATA کیلئے سیلز ٹیکس کی شرح میں تبدیلیوں اور کوڈڈ پروڈکٹس پر اینٹی ڈمپنگ ڈیوٹیز کے نفاذ کا خیر مقدم کرتے ہیں۔ ان اقدامات سے پاکستان کی مقامی فیلٹ اسٹیل انڈسٹری کو تقویت حاصل ہوگی۔

بطور چیئر مین، میں ایک کھلے ذہن، تعمیریاتی مباحث اور حکمت عملی پر مبنی دوراندیشی پر مبنی کلچر کے عزم کا اعادہ کرتا ہوں۔ ہم تمام قوانین پر عمل درآمد کو یقینی بنانے کا عمل جاری رکھیں گے جبکہ اپنی انتظامیہ کو فیصلوں میں با اختیار بنائیں گے جو مختصر، درمیانی اور طویل مدت کیلئے اقدام کو ہموار کرے گا۔

میں بورڈ کی جانب سے اپنے شیئر ہولڈرز، ملازمین، صارفین اور پارٹنرز کے ہم پر مسلسل اعتماد اور تعاون پر دلی شکریہ ادا کرتا ہوں۔ آپ کا اعتماد ہیں ہمارے چینلجز سے نمٹنے کے عزم کو مضبوط کرتا ہے اور مارکیٹ کے بدلتے ہوئے منظر نامے میں مواقع کے حصول کا ذریعہ بنتا ہے۔

امید اور عزم کے ساتھ آنے والے سال میں ہم مارکیٹ کے حقائق کو اختیار کرنے اور پائیدار ترقی کیلئے پرعزم ہیں۔

ہم اپنی کامیابیوں کے تسلسل اور آپ کی کمپنی کی خوشحالی کے لئے اللہ تعالیٰ سے دعا گو ہیں۔

Director's Report

Director's Report

The Directors of International Steels Limited are pleased to present the 18th Annual Report accompanied by the audited financial statements for the year ended June 30, 2025.

GLOBAL STEEL SCENARIO

Steel prices remained volatile throughout the year, influenced by shifts in raw material costs (notably iron ore and coking coal), aggressive Chinese export policies and heightened geopolitical uncertainties. This sparked trade tensions and led to the imposition of protective tariffs and anti-dumping investigations across multiple regions. In response, major global producers responded by enhancing production efficiencies, diversifying export destinations, and accelerating investment in decarbonization initiatives to maintain competitiveness.

Looking ahead, while the industry's fundamentals remain sound, the risk of global overcapacity, pricing pressure, and rising trade protectionism may continue to shape the flat steel landscape. Strategic capacity rationalization, technological innovation, and regional demand stimulation will be key to sustaining growth.

NATIONAL ECONOMY

FY 2025 presents a cautiously optimistic outlook, reflecting the country's progress in restoring macroeconomic stability while highlighting the structural reforms required for sustainable, inclusive growth.

During FY 2025, real GDP expanded by 2.68%, a modest improvement over the prior year's growth, supported by a marked reduction in inflation, improved external balances and strengthened investor confidence. Inflation declined sharply to 4.5% from 23.4% compared to last year. This allowed the State Bank of Pakistan to reduce the policy rate by 950 basis points from July 2024, easing credit conditions and stimulating private sector activity. Fiscal discipline improved considerably, with the fiscal deficit narrowing to 5.4% of GDP and the primary surplus rising to 2.4%. Tax revenues surged by 26.2% and development spending increased, reflecting the government's commitment to growth-enhancing expenditure. The current account recorded a surplus of USD 2.1 billion, reversing a deficit of USD 2.1 billion last year, driven by record remittances and stable exports.

For ISL, these macro shifts and lower financing costs, support demand recovery and create room for volume growth. However, sustained enforcement of trade regulations and tax reforms will be critical in creating a level playing field for the domestic market.

Sectoral performance was mixed:

- **Agriculture** grew by 0.56%, hampered by a sharp decline in major crop output but supported by resilient livestock and horticulture.
- **Industry** posted 4.77% growth despite ongoing challenges in large-scale manufacturing which contracted by 1.21%.
- **Services**, the dominant sector, grew by 2.91%, led by IT, trade and financial services.

FY 2025 marks a turning point in stabilization, but the path ahead demands sustained structural reform—particularly in human capital, agriculture, export competitiveness and institutional governance.

BUSINESS REVIEW

International Steels Limited demonstrated resilience in navigating this challenging economic environment. The Company prioritized working capital management by aligning inventory levels with market demand and optimizing the use of letters of credit. Continued focus on operational efficiency through energy conservation measures and strategic capital allocation enabled the Company to generate cash flows, thereby reducing reliance on external financing.

The National Tariff Commission conducted a sunset review of anti-dumping duties on the Company's Cold Rolled coils and sheets. It concluded that injurious conditions for the domestic industry persisted, resulting in an extension of protective duties for another five years. This regulatory outcome has safeguarded domestic market share and provided a stable foundation for capacity utilization.

The government has reduced the sales tax exemption on FATA/PATA from 18% to 8%, as such importers will now pay 10% sales tax. The administrative measures have also been enhanced, as businesses must now deposit bankable security for the Sales Tax differential, which is only refundable upon the completion of sales within that specific area.

The National Tariff Commission has recently concluded its review of an anti-circumvention application and imposed anti-dumping duties on circumvented coated products. Combined, these measures reflect the success of ISL's proactive regulatory engagement strategy, which continues to help create a level playing field.

SALES

During the year, the Company's sales volumes were marginally higher than the previous year, generating sales revenue of PKR 62.3 billion. This performance reflects the Company's resilience in a highly competitive and challenging market environment. Domestic market share improved from 20% to 23%, reflecting stronger customer engagement, distribution reach and targeted sales programs.

However, this growth remains constrained by ongoing market distortions, particularly the misuse of sales tax exemptions granted to businesses operating in the FATA/PATA regions. These practices continue to distort competition, creating an uneven playing field and threatening the long-term sustainability of the market.

Export sales contributed meaningfully to fixed cost absorption and capacity utilization, reinforcing ISL's focus on leveraging export growth as part of its long-term volume strategy.

The Company remains firmly committed to ethical business practices and continues to advocate for a fair, transparent and equitable regulatory framework to ensure a level playing field across the industry.

MANUFACTURING OPERATIONS

The company practices Lean manufacturing and Six sigma to drive efficiencies in the production processes and reduce wastages. The current year's production was 264,000 tons, which is in line with sales demand. The company continued its strong focus on cost optimization through multiple initiatives, including reduction in process wastages and improvements in overall plant efficiency. These measures resulted in measurable cost per ton reductions, enhancing operational sustainability and competitiveness.

HEALTH, SAFETY & ENVIRONMENT

The company remains fully committed to advancing Health, Safety and Environment (HSE) standards to achieve sustainable performance. Over the past year, significant progress was made in HSE stewardship. Notably, we achieved 0.91 million safe man-hours without a lost time injury since November 2024, reflecting our strong safety culture while supporting operational continuity. The first HSE Day, held in June 2025 with participation from around 570 employees, reinforced our focus on workplace safety. We also marked World Environment Day with a tree plantation initiative, underscoring our environmental commitment.

We underwent an external QHSE Surveillance Audit by M/s LRQA, reaffirming compliance with ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 standards. Regular environmental monitoring and emergency evacuation drills were conducted to ensure regulatory compliance and preparedness.

Our HSE Family Online Training, held in February, received strong feedback and emphasized safety awareness among employees and their families. In total, 6,073 training hours were dedicated to various safety programs, equipping staff with vital skills and knowledge. These initiatives reflect the company's unwavering commitment to HSE excellence.

ENERGY MANAGEMENT

The company's 19 MW co-generation power plant continued to operate efficiently, with recovered heat fulfilling most of the utility requirements. In line with our sustainability practices, a major milestone was achieved with the successful installation and commissioning of a 6.4 MW solar project, further reinforcing our commitment to clean energy. The solar project generated significant annual cost savings and formed a key pillar in ISL's energy mix optimization strategy, aimed at reducing dependency on high-cost supply.

FINANCIALS

Revenue for the fiscal year totaled PKR 62.3 billion, representing a 10% decrease compared to the previous year. Gross profit margin reduced to 8.58% from 12.37% in the prior year,

primarily due to increased energy costs and low-capacity utilization. The company reported a profit after tax of Rs. 1,559 million compared to Rs. 3,655 million recorded in the same period last year. While these results reflect near-term margin compression from external pressures, management's deliberate trade-offs, focusing on market share retention, inventory optimization and energy efficiency are designed to drive improved fixed cost absorption and margin recovery over the medium term.

This decline reflects the ongoing challenges facing the industry. Profitability was primarily impacted by external pressures, including the expiry of the 5% Regulatory Duty on imports effective April 2025, the non-enforcement of Anti-Dumping Duties and intensified competition from circumvention-based imports such as Galvalume/ZAM. Additionally, sustained high energy and input costs continued to compress industry margins. Despite these headwinds, the company maintained a disciplined strategic approach focusing on market share retention, inventory optimization and cost control. These measured trade-offs, though affecting short-term profitability, have strategically positioned the company to expand volumes, enhance fixed cost absorption and capture long-term energy efficiency gains.

EARNINGS PER SHARE

Earnings per share for the year ended June 30, 2025, were Rs. 3.58 compared with Rs. 8.40 per share last year.

VIS CREDIT RATING

VIS Credit Rating Company Limited has maintained the company ratings of 'A+/A-1' (Single A Plus/A-One) reviewed in October 2024. The outlook assigned remained 'Stable'.

HUMAN RESOURCES

The Company sustained a climate of industrial harmony and a high-performance work culture built on candor, fairness, and meritocracy. Our talent strategy focused on developing capabilities at every organizational level, ensuring both business continuity and future-ready leadership. Robust engagement policies and procedures were complemented by cross-functional team-building initiatives that strengthened collaboration, trust, and organizational coherence.

With an optimal headcount of 690, ISL has embedded a structured succession plan that integrates rigorous performance evaluation with targeted learning interventions. Employees benefited from development opportunities at leading institutions such as LUMS, IBA, ICAP, MAP, and an advanced overseas leadership program in Japan.

Our commitment to employee well-being is reinforced through initiatives such as the state-of-the-art gymnasium, which promotes a healthy lifestyle and work-life balance. In recognition of our HR excellence, ISL was honored with the "Employer of the Year" award from the Employers' Federation of Pakistan. Female representation in managerial roles continues to expand, reflecting our commitment to diversity, inclusion, and merit-based advancement.

CORPORATE SOCIAL RESPONSIBILITY

The Company is committed to sustainable development towards corporate social responsibility initiatives. Key focus areas include education, healthcare, and environmental conservation. The Company has reduced its carbon footprint through energy efficiency measures and renewable energy adoption. The Company contributed Rs. 22.6 Mn, to different health care, educational and social uplifting projects.

The Company regularly supports various healthcare facilities including Karwan-e- Hayat and Al Rehmat Benevolent Trust, to ensure the provision of quality healthcare facilities to the less privileged section of society.

ISL believes that the future of our country is linked with high-quality education. Education is critical for sustainable economic development as well as human and social interaction within society. The Company has continued to maintain a scholarship program at NED University for deserving students and provides support to The Citizen Foundation for their activities related to the promotion of education.

The Company demonstrates a firm commitment to contributing to social uplifting and community development initiatives by supporting organizations like the Amir Sultan Chinoy Foundation.

RISK MANAGEMENT

A robust ERM framework to identify and manage strategic, operational, financial and compliance risks. Key risks include market volatility, credit

risk, operational disruptions, and regulatory changes. Mitigation strategies, such as risk transfer, risk avoidance, and risk reduction, are implemented to manage these risks effectively. A robust system of internal controls has been established, communicated and monitored through regular self-assessments. Emerging risks such as import circumvention and energy cost shocks are actively mitigated through advocacy, process improvement and supply chain diversification.

A detailed risk register, encompassing key risks and corresponding controls, is maintained and reviewed periodically by the Board Audit Committee.

A dedicated BAC meeting was held on May 30, 2025, to review the risks and actions in place for their adequate mitigation.

Independent Internal Audit function, reporting directly to the Audit Committee, ensure the design and operating effectiveness of these controls.

BOARDS COMPOSITION & REMUNERATION

The composition of the Board and the names of Members of Board Sub- committees are detailed on Pages 85 & 100.

The Company has formulated a transparent policy and procedures for the remuneration of its directors.

RECOMMENDATION OF THE BOARD AUDIT COMMITTEE FOR APPOINTMENT OF AUDITOR

The Audit Committee's recommendation for auditor appointment is referred to on Page 102.

DIVIDEND

Given the financial results of the Company for the year 2024-25, the Board of Directors of the Company has recommended a final cash dividend of 25% i.e., Rs. 2.50 per share for the financial year ended June 30, 2025.

	2025	2024
Appropriations	Rupees in '000	
Profit after tax for the year	1,559,261	3,654,815
Interim Dividend 2025: Nil; (2024 Rs. 2.5 per share)	-	(1,087,500)
Final Dividend 2025 Rs. 2.50 per share; (2024 Rs. 3.00 per share)	(1,087,500)	(1,305,000)

CONTRIBUTION TO THE NATIONAL EXCHEQUER AND THE ECONOMY

Your Company contributed Rs. 14,703 Mn to the National Exchequer during the year by way of income tax, super tax, sales tax, customs duties and other levies.

PROVIDENT FUND & GRATUITY SCHEME

The Company provides retirement benefits to its employees. These include a non- contributory defined benefit Gratuity Scheme and a contributory Provident Fund. The defined benefit gratuity scheme remains fully funded at the year end with a net plan surplus of Rs. 102 Mn. at the end of the year. (2024: Rs. 55 Mn.) Both plans are funded schemes recognized by tax authorities.

RECOGNITION

ISL won its sixth consecutive award at the 39th Corporate Excellence Awards (CEA) hosted by MAP, recognizing exceptional performance and management best practices.

In September 2024, ISL was honored with the 7th CSR Award 2024 by The Intellects Club, Religion for Peace and Rotary Club.

FUTURE OUTLOOK

The Company anticipates a positive business environment in the coming year, supported by several macroeconomic and policy-driven factors. Key contributors to this outlook include pro-growth government policies, easing inflationary pressures, signs of economic recovery and a reduction in interest rates, all of which are expected to create a more conducive environment for industrial activity.

STRATEGIC PRIORITIES FOR FY 2026 WILL FOCUS ON:

- Sustained sales volume growth across domestic and export markets.
- Energy mix optimization and reduction of overall energy consumption.
- Conversion costs reduction to enhance delivered margins.
- Continued regulatory engagement to address market distortions.

With a strengthened market position, disciplined cost structure and targeted growth initiatives, ISL is positioned to navigate near-term volatility while capturing medium-term opportunities.

For the year 2026, the government has set a GDP growth target of 4.2%, primarily driven by a rebound in the agricultural sector and moderate recovery in industrial activity. Inflation, which had eased in the previous fiscal year, is forecast to rise modestly to 7.5%, largely due to base effects and global commodity price fluctuations.

Against this backdrop, the Company will continue to focus on cost management, operational efficiency and market diversification to ensure sustainable long-term growth.

Looking ahead, a continued emphasis on research and development will be essential to remain agile in a dynamic market and to strengthen our competitive position.

The Company remains fully committed to creating value for its stakeholders while contributing positively to the community and the environment.

ACKNOWLEDGMENTS

The Board would like to thank our employees, customers, suppliers, shareholders and bankers for their continued support. The confidence and goodwill of the stakeholders have allowed the Company to sustain and grow over the years.

We continue to pray to Allah for the success of the Company and the benefit of all stakeholders and the country in general.

قومی خزانے اور معیشت میں حصہ

آپ کی کمپنی نے سال کے دوران میں انکم ٹیکس، سپر ٹیکس، کسٹم ڈیوٹیز اور دیگر محصولات کی مد میں قومی خزانے میں 14,703 ملین روپے جمع کرائے۔

پراویڈنٹ فنڈ اور گریجویٹی

کمپنی اپنے ملازمین کو ریٹائرمنٹ کے فوائد فراہم کرتی ہے۔ ان میں غیر شرکاتی متعین فنڈ پر مبنی گریجویٹی اسکیم اور شرکاتی پراویڈنٹ فنڈ شامل ہے۔ متعین فنڈ پر مبنی گریجویٹی اسکیم سال کے اختتام پر مکمل طور پر فنڈ ڈر ہی جس میں سال کے اختتام پر 102 ملین روپے کا خالص سرپلس موجود ہے۔ 2024: 55 ملین روپے دونوں اسکیمیں فنڈ ڈر ہیں اور ٹیکس اتھارٹیز سے تسلیم شدہ ہیں۔

اعتراف

ISL نے کی MAP جانب سے 39 ویں کارپوریٹ ایکی لئس ایوارڈز (CEA) میں مسلسل چھٹی مرتبہ ایوارڈ حاصل کیا، جو ہماری غیر معمولی کارکردگی اور بہترین انتظامی معمولات کا اعتراف ہے۔

ستمبر 2024 میں ISL کو 'Religion for Peace' The Intellectuals Club اور روٹری کلب کی جانب سے 7 واں CSR ایوارڈ کا اعزاز حاصل ہوا۔ مستقبل کا منظر نامہ

کمپنی کو آنے والے سال میں مثبت کاروباری ماحول کی امید ہے جس کو متعدد میکرو اکنامک اور پالیسی پر مبنی عوامل سے مدد ملے گی اس منظر نامے کے لئے بنیادی محرکات میں نمو سے متعلق حکومتی پالیسیز، افراط زر کے دباؤ میں کمی، معیشت کی بحالی کی علامات اور شرح سود میں کمی شامل ہیں، اور توقع ہے کہ یہ تمام انڈسٹری کی سرگرمیوں کیلئے ایک زیادہ سازگار ماحول پیدا کریں گے۔

مالی سال 2026 کیلئے حکمت عملی کی ترجیحات میں مرکزی توجہ کے نکات:

- مقامی اور برآمدی مارکیٹس میں سیلز کے حجم میں پائیدار نمو
- ملی توانائی کا انتخاب اور مجموعی طور پر توانائی کے خرچ میں کمی لانا
- دیئے گئے مارجنز میں اضافے کیلئے لاگت کی تبدیلی میں کمی
- مارکیٹ میں ہگاڑ کی صورت حال سے مقابلے کیلئے ضابطوں پر مسلسل عملدرآمد

ایک مضبوط ترمار کیٹ پوزیشن، لاگت کے منظم اسٹرکچر اور ہدف پر مبنی اقدامات کے ساتھ ISL قلیل المدت طیران پذیری سے نمٹنے، جبکہ درمیانی مدت کے مواقع حاصل کرنے کی پوزیشن میں ہوگی۔

سال 2026 کیلئے حکومت نے 4.2% جی ڈی پی کی نمو کا ہدف مقرر کیا ہے جو بنیادی طور پر زرعی شعبہ کے دوبارہ ابھرنے اور صنعتی سرگرمیوں کی اعتدال کے ساتھ بحالی سے حاصل ہوگا۔ افراط زر کی شدت جو گزشتہ مالی سال میں کم ہو گئی تھی، توقع ہے کہ اعتدال کے ساتھ 7.5% تک بڑھ جائے گی، جس کا بڑا سبب بنیادی اثرات اور عالمی اشیاء کی قیمتوں میں اتار چڑھاؤ ہے۔

اس پس منظر کے برخلاف، طویل پائیدار نمو کو یقینی بنانے کیلئے کمپنی لاگت کی منجمنٹ، آپریشنز کی استعداد اور مارکیٹ کے تنوع پر توجہ مرکوز رکھے گی۔ آئندہ پر نظر رکھتے ہوئے، تحقیق اور ڈیولپمنٹ پر مسلسل زور دینا لازمی ہے تاکہ مختلف پہلوؤں کی مارکیٹ میں متحرک رہا جائے اور اپنی مسابقتی پوزیشن کو مضبوط کیا جائے کمپنی اپنے اسٹیک ہولڈرز کیلئے اقدار کی تخلیق کیلئے، نیز کمیونٹی اور ماحولیات کے لئے مثبت سرگرمیوں کیلئے مکمل طور پر برعزم ہے۔

اعتراف

بورڈ اپنے ملازمین، صارفین، سپلائرز، شیئر ہولڈرز اور بینکرز کے مسلسل تعاون پر ان کا شکر گزار ہے۔ اسٹیک ہولڈرز کے طویل مدت سے ہم پر اعتماد اور خلوص نے کمپنی کے استحکام اور خوشحالی کو ممکن بنایا ہے۔

ہم کمپنی کی کامیابیوں اور تمام اسٹیک ہولڈرز کے مفاد اور خاص طور پر ملک کی بہتری کیلئے ہمیشہ اللہ تعالیٰ سے دعا گو ہیں۔

کمپنی معاشرے کی بہتری اور کمیونٹی ڈیولپمنٹ کے اقدامات میں شرکت کرنے کیلئے اپنے پختہ عزم کا مظاہرہ کرتی ہے اور اس سلسلے میں مختلف تنظیموں، جیسے عامر سلطان چنائے فاؤنڈیشن کے ساتھ مستقل تعاون پیش کرتی ہے۔

خداشات کا سدباب

کمپنی کا ایک مضبوط ERM فریم ورک موجود ہے جس کے ذریعے حکمت عملی، آپریشنز، مالیاتی اور عمل درآمد سے متعلق خداشات کی نشاندہی کی جاتی ہے اور ان کا سدباب کیا جاتا ہے۔ اہم خداشات میں مارکیٹ کی طیران پذیری، کریڈٹ رسک، آپریشن میں درپیش رکاوٹیں اور ضوابط میں ردوبدل شامل ہیں۔ نقصانات سے بچاؤ کی حکمت عملی کے تحت جیسے خداشات کی منتقلی، خداشات سے گریز اور خداشات میں کمی لانا جیسے اقدامات کئے گئے ہیں تاکہ خداشات کا موثر طور پر سدباب کیا جاسکے۔ اندرونی کنٹرولز کا ایک مضبوط سسٹم بھی قائم کیا گیا ہے جس کو مسلسل خود تشخیصی کے ذریعے چلایا اور مانیٹر کیا جاتا ہے۔ نئے ابھرنے والے خداشات، جیسے سرکیوموینشن کی درآمد، توانائی کی لاگت کے گہرے اثرات کو وکالت، پروسیس کی بہتری اور سپلائی چین کے تنوع کے ذریعے فعال طور پر ختم کیا جاتا ہے۔

ایک تفصیلی رسک رجسٹر، جس میں اہم خداشات اور ان سے متعلق کنٹرولز شامل ہیں، مرتب کیا گیا ہے اور بورڈ آڈٹ کمیٹی وقفے وقفے سے اس کا جائزہ لیتی رہتی ہے۔ اس سلسلے میں 30 مئی 2025 کو ایک خصوصی BAC میٹنگ منعقد ہوئی جس میں خداشات اور ان کے مناسب سدباب کیلئے سرگرمیوں کا جائزہ لیا گیا۔ ایک خود مختار اندرونی آڈٹ کا نظام آڈٹ کمیٹی کو براہ راست رپورٹ پیش کرتا ہے تاکہ ان کنٹرولز کے ڈیزائن اور عمل درآمد کے موثر ہونے کو یقینی بنایا جاسکے۔

بورڈ کی ترتیب اور مشاہرہ

بورڈ کی ترتیب اور بورڈ کی ذیلی کمیٹیوں کے ممبرز کے ناموں کی تفصیل صفحہ نمبر 85 اور 100 پر موجود ہے۔ کمپنی نے اپنے ڈائریکٹرز کے مشاہرے کیلئے ایک شفاف پالیسی اور طریقہ کار ترتیب دیا ہے۔ آڈیٹر کے تقرر کیلئے بورڈ آڈٹ کمیٹی کی سفارشات آڈیٹر کے تقرر کیلئے آڈٹ کمیٹی کی سفارشات صفحہ نمبر 102 پر دی گئی ہیں۔

ڈیویڈنڈ

کمپنی کے مالیاتی نتائج برائے سال 2024-25 کے مطابق، کمپنی کے بورڈ آف ڈائریکٹرز نے مالیاتی سال ختمہ 30 جون 2025 کیلئے حتمی کیشن ڈیویڈنڈ بحساب 25% یعنی 2.5 روپے فی شیئر کی سفارش کی ہے۔

2024 2025

روپے 1000 میں		تخصیصات
3,654,815	1,559,261	بعد از ٹیکس منافع برائے سال
(1,087,500)	-	عبوری ڈیویڈنڈ 2025: صفر؛ (2024: 2.5 روپے فی شیئر)
(1,305,000)	(1,087,500)	حتمی ڈیویڈنڈ 2025: 2.5 روپے فی شیئر (2024: 3.0 روپے فی شیئر)

مالیاتی صورتحال

زیر جائزہ مالی سال میں 62.3 بلین پاکستانی روپے کی آمدنی ہوئی جو گزشتہ سال کے مقابلے میں 10% زیادہ ہے۔ مجموعی منافع کا مارجن 12.37% سے کم ہو کر 8.58% ہو گیا، جو بنیادی طور پر توانائی کی بڑھتی ہوئی لاگت اور کم کیپیسٹی کے استعمال کے باعث ہوا۔ کمپنی کا بعد از ٹیکس منافع 1,559 ملین روپے رہا جبکہ گزشتہ سال کی اسی مدت میں 3,655 ملین روپے ریکارڈ کیا گیا تھا۔ ان نتائج سے ظاہر ہوتا ہے کہ قلیل مدت کے مارجن میں کمی بیرونی دباؤ کے باعث ہوئی، لہذا کمپنی نے حکمت عملی کے تحت دوسرا راستہ اختیار کیا اور مارکیٹ شیئر برقرار رکھنے، انونٹری کا انتخاب کرنے اور توانائی کی استعداد پر توجہ مرکوز کی تاکہ بہتر مقررہ لاگت کو شامل رکھا جائے اور قلیل مدت میں مارجن کی بحالی حاصل کی جائے۔

اس کمی سے ظاہر ہوتا ہے کہ انڈسٹری کو جاری چیلنجز کا سامنا ہے۔ منافع پر بنیادی طور پر بیرونی عوامل کے دباؤ کا اثر پڑا جس میں اپریل 2025 میں درآمدات پر 5% ریگولیٹری ڈیوٹی کی مدت کا خاتمہ، اینٹی ڈمپنگ ڈیوٹیز کے عدم نفاذ اور سرکیو مویشن پر مبنی درآمدات، جیسے گیلو ایوم / ZAM شامل ہیں، نیز انڈسٹری کے مارجن پر مہنگی توانائی اور ان پٹ کی لاگت کا دباؤ بھی جاری رہا۔ ان مشکلات کے باوجود، کمپنی نے منظم حکمت عملی کے طرز عمل کو جاری رکھتے ہوئے مارکیٹ شیئر برقرار رکھنے، انونٹری کا انتخاب اور لاگت پر کنٹرول پر توجہ مرکوز رکھی۔ اس طے شدہ تبدیلی سے اگرچہ قلیل مدت کے منافع پر اثر پڑا، مگر کمپنی اپنی حکمت عملی کے مطابق حجم میں توسیع، مقررہ قیمت کو سونے اور طویل مدت کے توانائی کی استعداد کے فائدے حاصل کرنے کی پوزیشن میں آگئی۔

فی شیئر آمدنی

سال ختمہ 30 جون، 2025 کیلئے فی شیئر آمدنی 3.58 روپے رہی، جبکہ گزشتہ سال فی شیئر آمدنی 8.40 روپے تھی۔

VIS کریڈٹ ریٹنگ

VIS کریڈٹ ریٹنگ کمپنی لمیٹڈ نے کمپنی کی 'A+/A-1' (Single A Plus/A-One) کی ریٹنگ برقرار رکھی، جس کا جائزہ اکتوبر 2024 میں لیا گیا تھا۔ اس سلسلے میں آئندہ کے امکان بھی مستحکم رہے۔

انسانی وسائل

کمپنی نے صنعتی ہم آہنگی کی فضا اور اعلیٰ کارکردگی کے کلچر کو برقرار رکھا جو غیر جانبداری، شفافیت اور میرٹ پر مشتمل ہے۔ ہماری صلاحیت کی حکمت عملی

ادارے میں ہر سطح پر صلاحیتوں کو ابھارنے، کاروبار کے تسلسل اور مستقبل کیلئے قیادت کی تیاری، دونوں کو یقینی بنانے پر مرکوز ہے۔ پالیسیز اور پروسیجرز پر بھرپور عمل درآمد کے ساتھ مختلف شعبوں کے افراد پر مبنی ٹیم سازی کے اقدامات اٹھائے جن کے ذریعے اشتراک عمل، اعتماد اور ادارتی ہم آہنگی کو تقویت حاصل ہوتی ہے۔

690 بہترین ملازمین کے ساتھ ISL میں ایک مربوط وراثت کا پلان موجود ہے جو کارکردگی کی کڑی جانچ کے ساتھ ساتھ سیکھنے کے مقرر کردہ اہداف کے حصول پر مبنی ہے۔ ملازمین کو اعلیٰ ترین علمی اداروں، جیسے لمس، آئی بی اے، آئی سی اے پی، ایم اے پی کے ساتھ جاپان میں ایڈوانسڈ اور سیز لیڈر شپ پروگرام میں شرکت کے ذریعے ڈیولپمنٹ کے مواقع فراہم کئے جاتے ہیں۔

ہم نے اپنے ملازمین کی صحت و عافیت کے لئے مختلف انتظامات کئے ہیں جن میں اسٹیٹ آف دی آرٹ جمنازیم جو صحت افزاء اور کام کے ساتھ متوازن لائف اسٹائل فراہم کرتا ہے۔ اپنے اعلیٰ ترین ایچ آر کی پیروی میں ISL کو ایمپلائز فیڈریشن آف پاکستان کی جانب سے "بہترین ایمپلائز آف دی ایئر" کا اعزاز حاصل ہوا ہے۔ انتظامی کردار میں خواتین کی نمائندگی کو توسیع دینے کا عمل بھی جاری ہے جو ہمارے تنوع کی شمولیت اور میرٹ پر مبنی ترقی کے عزم کی عکاسی کرتی ہے۔

اجتماعی سماجی ذمہ داری

کمپنی اجتماعی سماجی ذمہ داری کے اقدامات کیلئے دیرپا ڈیولپمنٹ کے عزم پر کاربند ہے۔ اہم قابل توجہ شعبوں میں تعلیم، صحت عامہ اور ماحولیات کا تحفظ شامل ہے۔ اس سلسلے میں کمپنی نے توانائی کی استعداد کے اقدامات اور قابل تجدید توانائی کے ذریعے کاربن کے اثرات کو کم کیا ہے۔ کمپنی نے صحت عامہ، تعلیمی اور سماجی بہتری کے متعدد پروجیکٹس میں 22.6 ملین روپے خرچ کئے ہیں۔

کمپنی باقاعدگی کے ساتھ صحت کے مختلف اداروں کو تعاون پیش کرتی رہتی ہے تاکہ معاشرے کے کم مراعات یافتہ طبقے کو معیاری صحت کی سہولتیں یقینی طور پر پہنچتی رہیں ان اداروں میں کاروان حیات اور الرحمت بینو ویلنٹ ٹرسٹ شامل ہیں۔

ISL کو یقین ہے کہ ہمارے ملک کے مستقبل کا اعلیٰ معیاری تعلیم سے گہرا تعلق ہے۔ تعلیم نہ صرف پائیدار معاشی ترقی کیلئے ناگزیر ہے بلکہ معاشرے میں لوگوں کے آپس میں میل جول اور فلاح کیلئے بھی نہایت اہم ہے۔ کمپنی نے NED یونیورسٹی کے ساتھ مستحق طلبہ کیلئے اسکالرشپ پروگرام پیش کرنے کا سلسلہ جاری رکھا ہوا ہے اور ہم دی سٹیزن فاؤنڈیشن کے ساتھ ان کی تعلیم کے فروغ کی سرگرمیوں کیلئے مسلسل تعاون کرتے رہتے ہیں۔

نیمسل ٹیرف کمیشن نے حال ہی میں ایک اینٹی سرکومینشن درخواست کا جائزہ مکمل کیا ہے اور سرکومینٹڈ کوئٹڈ مصنوعات پر اینٹی ڈیپنگ ڈیوٹیز نافذ کر دی ہیں۔ یہ اقدامات ISL کی فعال ریگولیٹری حکمت عملی کی عکاسی کرتی ہیں جو برابری کی سطح پر کاروباری شعبہ کو ترتیب دینے میں معاون ہے۔

فروخت

سال کے دوران میں، کمپنی کے فروخت کے حجم میں گزشتہ سال کے مقابلے میں اضافہ ہوا اور فروخت کی آمدنی 62.3 بلین روپے ہوئی۔ اس کارکردگی سے انتہائی مسابقتی اور چیلنج والے ماحول میں کمپنی کی استقامت کی عکاسی ہوتی ہے۔ مقامی مارکیٹ شیئر 20% سے بڑھ کر 23% ہو گیا جو صارفین کے ساتھ مضبوط رابطہ، تقسیم کاری کی پہنچ اور ہدف پر مبنی فروخت پروگرام کا اظہار ہے۔

تاہم یہ اضافہ مارکیٹ کے عوامل، خاص طور پر FATA/PATA رجسٹر میں کاروباری آپریشنز کو دینے گئے سیزن ٹیکس استثنیٰ کے غلط استعمال کے باعث محدود رہا۔ ان عوامل کے سبب مسابقت مجروح ہوتی ہے اور کاروبار کیلئے عدم مسابقت کی سطح پیدا ہوتی ہے جو مارکیٹ میں طویل مدت کے استحکام کیلئے خطرہ ہے۔

برآمدی فروخت نے مقررہ قیمت کے جذب ہونے اور گنجائش کے استعمال میں بڑے پیمانے پر حصہ ڈالا اور ISL نے اپنے طویل المدت حجم کی حکمت عملی کے حصے کے طور پر برآمدی نموکو سہارا دینے پر توجہ مرکوز رکھی۔

کمپنی کاروباری اخلاقیات پر پوری طرح عمل پیرا رہتی ہے اور ایک صاف، شفاف اور درست ضابطے کے دائرہ کار میں رہنے کی حمایت کرتی ہے تاکہ انڈسٹری کو برابری کی بنیاد پر کام کرنے کو یقینی بنایا جاسکے۔

پیداواری طرز عمل

کمپنی پیداواری عمل کے طریقہ کار میں استعداد پیدا کرنے اور کم سے کم ضیاع کیلئے Lean مینوفیکچرنگ اور Six sigma پر عمل درآمد کرتی ہے۔ موجودہ سال میں 264,000 ٹن کی پیداوار ہوئی، جو فروخت کی طلب سے مطابقت رکھتی ہے۔ کمپنی نے متعدد اقدامات کے ذریعے لاگت کو مناسب رکھنے پر بھرپور توجہ جاری رکھی جس کیلئے پروسس میں ضیاع میں کمی اور مجموعی طور پر پلانٹ کی استعداد میں بہتری لانا شامل ہے۔ ان اقدامات کے نتیجے میں فی ٹن لاگت میں قابل قدر کمی آئی اور آپریشنز میں استحکام اور مسابقت میں اضافہ ہوا۔

صحت، تحفظ اور ماحولیات

کمپنی صحت، تحفظ اور ماحولیات (HSE) کے معیار کو برقرار رکھنے اور پائیدار کارکردگی کے حصول کیلئے مکمل طور پر عزم ہے۔ گزشتہ سال کے دوران میں HSE کی ذمہ داریوں میں نمایاں اضافہ کیا گیا۔ خاص طور پر نومبر 24 سے ہم نے 0.91 ملین محفوظ افراد (سیف مین) آوز، بلاکسی بڑے ضرر حاصل کیا، جو ہمارے مضبوط تحفظ کے کلچر کی عکاسی کرتا ہے جبکہ یہ آپریشنز کے مسلسل جاری رہنے میں مددگار ہے۔ پہلا HSE ڈے جون 2025 میں منایا گیا جس میں تقریباً 570 ملازمین نے شرکت کی جو کام کی جگہ پر تحفظ پر توجہ مرکوز رکھنے کا اعادہ ہے۔ ہم نے عالمی یوم ماحولیات پر شجرکاری کی جو ہمارے ماحولیات سے متعلق عزم کو واضح کرتی ہے۔

ہم نے LRQA سے بیرونی طور پر QHSE سروس ایلیمنس آڈٹ بھی کروایا، جو ہمارے ISO 9001:2015-ISO 14001:2015 اور

ISO 45001:2018 معیارات کی پیروی کی تصدیق کرتا ہے۔ ماحولیات کی مسلسل نگرانی اور ہنگامی حالات میں جگہ خالی کرنے کی مشقیں بھی کرائی گئیں جو ضابطہ پر عمل درآمد کیلئے تیار رہنے کو یقینی بناتی ہیں۔

فروری میں ہماری HSE فیملی آن لائن ٹریننگ کا انعقاد کا انعقاد ہوا جس کی ہمیں بھرپور پذیرائی حاصل ہوئی اور ملازمین اور ان کی فیملیز کے درمیان تحفظ کی آگہی پر زور دیا گیا۔ اس کے علاوہ تحفظ کے دیگر پروگراموں میں ٹریننگ کے کل 6,073 گھنٹے مخصوص ہوئے جس سے اسٹاف کو اہم صلاحیتوں اور معلومات فراہم ہوئیں۔ ان اقدامات سے کمپنی کے HSE کے اعلیٰ ترین معیار کیلئے غیر متزلزل عزم کا اظہار ہوتا ہے۔

توانائی کے اختلالات

کمپنی کے 19MW کو۔ جنریشن پاور پلانٹ سے آپریٹ کرنے کی استعداد کے ساتھ شمسی توانائی سے بجلی کی ضروریات پوری کرتے ہوئے کام کر رہی ہے۔ ہماری پائیداری کی کاوشوں کے مطابق، 6.4MW سولر پروجیکٹ کی کامیاب تنصیب اور کمشننگ سے ہمارے صاف توانائی کے عزم کی مزید تصدیق ہوئی ہے۔ شمسی توانائی پروجیکٹ سالانہ لاگت میں نمایاں بچت فراہم کر رہا ہے اور ISL کی انرجی مکس کے انتخاب کی حکمت عملی، یعنی زیادہ قیمت پر سپلائی کے انحصار میں کمی کے ہدف کو پورا کرنے کیلئے بنیادی ستون ثابت ہوا ہے۔

ڈائریکٹر کی رپورٹ

انٹرنیشنل اسٹیل کے ڈائریکٹر 18 ویں سالانہ رپورٹ مع آڈٹ شدہ مالیاتی اسٹیٹمنٹس برائے مالی سال ختمہ 30 جون 2025 پیش کرتے ہوئے خوش محسوس کرتے ہیں۔

عالمی اسٹیل کا منظر نامہ

پورے سال کے دوران میں اسٹیل کے خام مال (خاص طور پر آئرن اور کوئٹک کول) کی قیمتوں میں اتار چڑھاؤ، چین کی جارحانہ برآمداتی پالیسیز اور جیو پولیٹیکل غیر یقینی صورتحال کے باعث غیر مستحکم رہیں۔ ان عوامل کے باعث کاروبار میں تناؤ پیدا ہوا اور اس کے نتیجے میں تحفظ کے ٹیرفس کا نفاذ اور متعدد ریجنز میں اینٹی ڈمپنگ کی تحقیقات کا آغاز ہوا۔ اس کے رد عمل کے طور پر بڑے عالمی پروڈیوسرز نے مسابقت برقرار رکھنے کیلئے پیداواری استعداد میں اضافہ، برآمدات کے مقامات میں تنوع اور ڈیکاربوناٹیشن میں سرمایہ کاری بڑھانے جیسے اقدامات کئے۔

اگرچہ انڈسٹری کی بنیادی ضروریات مضبوط ہیں، آنے والے وقت میں عالمی اضافی گنجائش، قیمتوں کے دباؤ اور کاروبار کے تحفظ میں اضافے کا عمل جاری رہنے کے خدشے کے باعث فلیٹ اسٹیل کے منظر نامے میں تبدیلی ہو سکتی ہے۔ حکمت عملی کے تحت منظم گنجائش، ٹیکنالوجی کی جدت اور متحرک مقامی طلب نمو کے مستحکم ہونے کی بنیاد ہوگی۔

قومی معیشت

مالی سال 2025 کیلئے ایک محتاط امید افزا امکانات موجود ہیں جن سے معاشی صورتحال کی بحالی کی عکاسی ہوتی ہے جبکہ پائیدار، مجموعی نمو کیلئے اسٹرکچرل اصلاحات کی ضرورت نمایاں ہوتی ہے۔

مالی سال 2025 کے دوران میں حقیقی جی ڈی پی میں 2.68% اضافہ ہوا، جو گزشتہ سال کی نمو سے خاطر خواہ بہتر ہے، جس کو افراط زر میں نمایاں کمی، بیرونی توازن کی بہتری اور سرمایہ کاروں کے اعتماد میں مضبوطی سے مدد ملی۔ افراط زر میں گزشتہ سال کے 23.4% کے مقابلے میں تیزی سے 4.5% تک کمی آئی اور اسٹیٹ بینک آف پاکستان نے پالیسی ریٹ میں جولائی 2024 سے 950 بیسس پوائنٹس کم کر دیئے، جس سے کریڈٹ کے حالات میں آسانی اور نجی شعبہ کی سرگرمیوں کی حوصلہ افزائی ہوئی۔ مالی شعبہ میں بھی کافی بہتری آئی اور مالی خسارہ جی ڈی پی کے 5.4% تک محدود رہا اور ابتدائی سرپلس میں 2.4% اضافہ ہوا ٹیکس کی آمدنی تیزی کے ساتھ 26.2% تک بڑھ گئی اور ترقیاتی اخراجات میں اضافہ ہوا، جو حکومت کے ترقی کیلئے اخراجات میں اضافہ کے عزم کی عکاسی کرتا ہے۔ کرنٹ اکاؤنٹ میں 2.1 بلین ڈالر سر مثبت رہا جس کے مقابل گزشتہ سال کے 2.1 بلین یو ایس ڈالر کا خسارہ دیکھا گیا، یہ رقم ریکارڈ ترسیلات زر اور مستحکم برآمدات سے حاصل ہوئی۔

ISL کیلئے یہ معاشی استحکام اور کم تر مالیاتی لاگت طلب کی بحالی میں مددگار ہوتی ہیں اور پیداواری حجم بڑھانے کا محرک ہے۔ تاہم تجارتی ضوابط اور ٹیکس کی اصلاحات کے نفاذ مقامی مارکیٹ کیلئے برابری کے مواقع فراہم کرنے کیلئے ناگزیر ہے۔

شعبہ جاتی مجموعی کارکردگی

- **زراعت** میں 0.56% اضافہ ہوا، جس پر بڑی فصلوں کی پیداوار میں کمی کا اثر پڑا مگر لائیو اسٹاک سیکٹر کے شعبہ سے زراعت کے شعبے کو تقویت ملی۔
- **انڈسٹری** میں 4.77% اضافہ ریکارڈ ہوا باوجود اس کے کہ بڑے پیمانے کی صنعتوں میں جاری چیلنجز کے سبب شرح نمو 1.21% کی حد تک کم ہوئی۔
- **خدمات** کے شعبہ میں، جو ہمارا سب سے نمایاں شعبہ ہے، 2.91% اضافہ ہوا جس میں سرفہرست IT، کاروبار اور مالیاتی خدمات شامل ہیں۔

مالی سال 2025 استحکام کے لحاظ سے ایک نئے موڑ پر آیا، لیکن آنے والے وقت کیلئے اسٹرکچرل اصلاحات، خاص طور پر افرادی سرمایہ کاری، زراعت، برآمدات میں مسابقت اور ادارتی گورننس کی ضرورت ہے۔

کاروبار کا جائزہ

انٹرنیشنل اسٹیل لمیٹڈ نے اس مشکل معاشی ماحول میں آگے بڑھنے کیلئے استقامت کا مظاہرہ کیا۔ کمپنی نے جاری سرمایہ کاری کے منصوبوں کو ترجیح دی اور خام اور تیار مال کے ذخائر کی سطح کو مارکیٹ کی طلب کے مطابق کیا اور لیٹر آف کریڈٹ کے استعمال کا انتخاب کیا۔ آپریشنز کی استعداد کو توانائی کی بچت کے ذریعے قائم کرنے پر توجہ مرکوز رکھی اور اس حکمت عملی کے باعث کاروباری سرمائے کو بہاؤ میں مدد ملی جس سے قرضہ جات کی ضرورت میں کمی آئی۔

نیشنل ٹیرف کمیشن نے کمپنی کے کولڈ رولڈ کوائلز اور شیٹس پر اینٹی ڈمپنگ ڈیوٹیز کے اختتامی جائزے کا اہتمام کیا۔ اس کے نتیجے کے مطابق مقامی انڈسٹری کیلئے مشکل حالات برقرار ہیں، اس تناظر میں ڈیوٹیز میں آئندہ پانچ سال کیلئے توسیع کردی جس نتیجے میں مقامی مارکیٹ شیئر کو تحفظ حاصل ہوا اور پیداوار میں اضافے کی ایک مستحکم بنیاد فراہم ہوئی۔

حکومت نے FATA/PATA پر سیلز ٹیکس کے استثنیٰ کو 18% سے کم کر کے 8% کر دیا ہے، لہذا اب درآمد کنندگان 10% سیلز ٹیکس ادا کریں گے۔ انتظامی اقدامات میں بھی اضافہ کیا گیا ہے اور اب بینک میں ضمانت جمع کرانا ہوگی جو صرف مخصوص حد کے اندر سیلز مکمل ہونے پر قابل واپسی ہوگی۔

A Legacy to Endure

Sustainability & CSR Report

Our Commitment to Society and Community

As we reflect on the past year, we reaffirm our dedication to both our business and the communities we serve. While Pakistan's economy continues to navigate a challenging environment, signs of recovery are emerging. The government's focus on macroeconomic stabilization and structural reforms—supported by the IMF Extended Fund Facility—has helped maintain a stable exchange rate and Current Account Balance.

The domestic steel sector, however, continues to face significant challenges. Declining global steel prices are exerting pressure on margins, and the misuse of sales tax exemptions in the erstwhile FATA/PATA regions has distorted the competitive landscape, disadvantaging compliant manufacturers and causing revenue shortfalls for the national exchequer. ISL remains actively engaged with policymakers to help restore fair competition across the industry.

Despite these headwinds, International Steels Limited continues to demonstrate discipline in operational efficiency, cost management, and strategic adaptation in an evolving economic landscape.

Central to our business philosophy is a steadfast commitment to global quality standards, sustainability, and responsible manufacturing. Our 6.4 MW solar power project at our Karachi factory—part of our “Clean, Lean, and Green”

approach—reflects our dedication to reducing our carbon footprint and energy costs while protecting the environment for future generations. We remain committed to initiatives that conserve vital natural resources and advance the transition to renewable energy.

Looking ahead, we will remain vigilant, closely monitoring economic variables and adjusting our strategies to seize emerging opportunities while mitigating rising costs. Our priorities remain clear: enhancing operational efficiency, optimizing working capital management, and implementing cost-rationalization measures to safeguard profitability and long-term sustainability.

In conclusion, we extend our deepest appreciation to our employees and stakeholders for their unwavering support, trust, and commitment. Your contributions have been instrumental in helping us navigate these testing times, as we continue building a future where business success and societal well-being go hand in hand.

Sustainability and CSR

Advancing in Responsible Practices

As a flat steel manufacturer, our approach to CSR is integral to our business philosophy and operations. We have voluntarily adopted the Corporate Social Responsibility (Voluntary) Guidelines, 2013 issued by the Securities and Exchange Commission of Pakistan (SECP), as well as other relevant regulatory frameworks. Our commitment to CSR is not only about compliance but also about making a meaningful impact on the communities we serve. Through our CSR initiatives, we aim to address key social and environmental challenges while aligning with our core values and business objectives. We believe in fostering sustainable development, promoting ethical practices, and enhancing

stakeholder engagement. Our CSR activities encompass various areas such as education, healthcare, environmental conservation, and community development. We regularly assess the effectiveness of our initiatives, measure their impact, and transparently report our progress to stakeholders. By integrating CSR into our corporate strategy and operations, we strive to create shared value for our company, stakeholders, and society as a whole. We remain committed to continuous improvement in our CSR practices and to contributing positively to the betterment of our communities and the environment.

SUSTAINABLE DEVELOPMENT GOALS

COMMITMENT TO THE SUSTAINABLE DEVELOPMENT GOALS

At ISL, we draw inspiration from the United Nations Sustainable Development Goals (SDGs) and are committed to aligning our business practices with these global benchmarks. Our dedication to sustainability drives us to embed responsible practices across every

facet of our operations—ensuring positive contributions to environmental stewardship, social equity, and economic progress.

By actively integrating the SDGs into our strategies and day-to-day activities, we aim to create lasting value, make a measurable impact, and help shape a sustainable future for all.

Employees

At ISL, we are deeply committed to creating a meaningful societal impact through initiatives that generate employment opportunities, develop skills, provide on-the-job training, and promote employee well-being within a secure and nurturing work environment.

In today's fast-paced and competitive business landscape, an organization's most valuable asset is its people. At ISL, we recognize this fundamental truth. Our Human Resources Department designs policies that not only align with our strategic business objectives but also serve as catalysts for career growth and personal development. This approach empowers our employees to excel as high-performing contributors who embody the core values and vision of our company.

Central to ISL's operations is an unwavering commitment to workplace equity and inclusivity. We embrace diversity across gender, race, and religion; foster a culture of collaboration; uphold respect for every individual; prioritize safety; and actively promote employee well-being. By cultivating an environment where people feel valued, supported, and inspired, we ensure that our teams remain the driving force behind our continued success.

MERIT-BASED RECRUITMENT

Our recruitment process is firmly rooted in meritocracy, guided by clearly defined role requirements and competency assessments. Structured interviews and panel evaluations ensure that we hire candidates based on relevant experience, skills, and cultural fit, aligning with both immediate and future organizational needs.

TALENT ACQUISITION AND PROFESSIONAL GROWTH

At ISL, we are committed to unlocking and nurturing the full potential of our workforce. Our recruitment process is meticulously designed to attract top talent, guided by well-defined, role-specific criteria. Beyond evaluating skills and aptitude, we place significant emphasis on a candidate's values to ensure alignment with our company culture.

Drawing from the best talent in the industry, our recruitment strategy is reinforced by a comprehensive orientation program. This onboarding process immerses new employees in our operations,

introduces them to our customers, and familiarizes them with the intricacies of our processes. By ensuring a smooth transition, we help employees quickly understand our structure, values, and operational flow.

We focus on developing well-rounded professionals equipped with the knowledge, skills, and passion to excel in their roles. This approach not only drives high performance but also deepens employee engagement with ISL's mission and vision.

SUCCESSION PLANNING

We follow a structured succession planning process to ensure long-term leadership continuity and organizational resilience. High-potential employees are identified through performance and potential metrics and are nominated for tailored leadership development programs. This proactive approach helps us build a strong internal pipeline for critical roles.

Our HR department works closely with departmental heads to identify key positions, evaluate current talent, and develop potential successors. Through regular talent reviews, individualized development plans, and targeted succession training, we ensure smooth transitions in leadership and critical functions—strengthening organizational stability and supporting sustainable growth.

WELL-BEING

At ISL, we place the highest priority on both physical and mental well-being, recognizing it as the cornerstone of a healthy work-life balance. We foster a supportive work environment that promotes wellness, safety, and resilience, enabling our people to perform at their best while maintaining personal fulfillment.

We actively encourage our employees to cultivate a healthy balance between work and personal life, fostering a work environment that supports their well-being while maintaining high levels of productivity.

GYM FACILITIES

To prioritize the physical well-being of our workforce, ISL has established a state-of-the-art gym at our manufacturing facility, fully equipped with modern amenities, including hot showers. The gym is managed by professional trainers who not only maintain the facility but also provide personalized guidance to employees during their workout sessions.

COMPENSATION AND BENEFITS

ISL is committed to offering competitive and comprehensive compensation packages. We regularly benchmark our plans against industry leaders, conducting salary surveys to ensure remuneration remains competitive and includes regular annual increments.

Our packages are robust, comprising annual performance bonuses, the Workers' Profit Participation Fund, Provident Fund, and Gratuity Fund. We also provide comprehensive health insurance, life insurance, mobile phone allowances, company-maintained vehicles, and fuel allowances. To further support work-life balance, we offer a variety of leave options—including annual, sick, casual, and maternity leave—tailored to meet the diverse needs of our employees.

PERFORMANCE-BASED APPRAISAL SYSTEM

Our annual appraisal process is structured to ensure clear goal-setting, consistent evaluation, and alignment with organizational priorities. Performance is assessed through a calibrated process that promotes fairness and transparency, with results directly linked to employee development, career progression, and reward decisions.

PROMOTION, REWARD, AND MOTIVATION

Promotions and rewards are performance-driven and aligned with demonstrated contribution, capability, and business impact. Our system ensures recognition of high performers while motivating all employees through transparent, data-driven career progression and reward mechanisms.

Staff Turnover Ratio: 4.93

DIVERSITY, EQUITY & INCLUSION (DE&I)

Our DE&I policy emphasizes fair representation and inclusive growth. We are actively enhancing female participation across all levels through gender-inclusive hiring practices, unbiased performance evaluations, and supportive workplace policies that ensure equitable career advancement.

We are committed to fostering an inclusive environment where all employees have equal opportunities to thrive. Female representation in professional and management roles continues to strengthen, as reflected in the steady year-on-year increase in women in leadership positions and their access to broader development programs. In addition, engagement initiatives are conducted to build confidence and support long-term inclusion across the organization.

GENDER EQUALITY

ISL is committed to being the employer of choice in Pakistan, with a focused effort on attracting and retaining talent across all genders and age groups. Central to our mission is achieving gender equality and ensuring balanced representation of women within our workforce.

As a leading industrial manufacturer located on the outskirts of the city, we provide safe and convenient transportation services to all female employees at our manufacturing facility, ensuring equal access to the workplace and supporting their participation in the industrial sector.

Over the years, ISL has made significant progress in increasing the representation of women in management roles. These talented professionals contribute across a broad range of functions, including HR, finance, sales, marketing, IT, supply chain, procurement, planning, engineering, and production.

ANTI-HARASSMENT POLICY

Our Gender Diversity Procedure covers provisions related to anti-harassment. These aspects are also addressed on annual basis through the awareness sessions of the Code of Conduct.

TRAINING AND DEVELOPMENT

We allocate a dedicated annual training budget covering both technical and behavioral learning areas. Training needs are identified in consultation with departments, ensuring that learning paths are relevant, role-based, and future-focused. This investment strengthens functional excellence and leadership capability across the organization. Last year, we allocated a budget of 6,500,000, specifically dedicating it towards operational trainings – Kaizen to optimize continuous improvement. These investments underscore our commitment to fostering a knowledgeable and capable workforce, driving sustained organizational success.

CHILD CARE POLICY

At ISL, we understand the importance of supporting our employees as they balance professional responsibilities with the demands of parenthood. Our Child Care Policy is designed to provide meaningful assistance to both new mothers and fathers, fostering a healthy work-life balance during the crucial early years of a child's life.

- Parental Leaves

Male employees are entitled to one week of paid leave to support their families during the birth of a child.

- Maternity Leave:

Female employees are entitled to four months of paid leave to ensure adequate recovery and bonding time.

SUPPORT FOR CHILDREN (NEWBORN TO 5 YEARS)

To help with child care, ISL provides new mothers with a monthly allowance until their child reaches the age of five.

CONVEYANCE ALLOWANCE AND TRANSPORTATION FACILITY FOR FEMALE EMPLOYEES

Female employees working at ISL's Head Office receive a conveyance allowance, while those working at our manufacturing facility and service centers are provided with safe, reliable transportation to and from the workplace. This ensures convenience, security, and peace of mind for our workforce.

EMPLOYEE ENGAGEMENT AND FEEDBACK

We foster a culture of openness and continuous dialogue through an open-door policy and structured feedback mechanisms.

Regular employee engagement surveys provide valuable insights that guide HR initiatives, enhance workplace policies, and strengthen our organizational culture.

SAFETY AWARENESS AND PRACTICES

At ISL, we are steadfast in our commitment to providing a safe workplace that minimizes the risk of injury for both employees and visitors. This commitment is embedded in our robust Occupational Health, Safety, and Environment (OHS&E) System, managed by our dedicated HSE Department.

Our safety program operates under well-defined reporting protocols to identify and address unsafe

behaviors before they lead to incidents. By fostering a culture of shared responsibility, our HSE initiatives help maintain a hazard-free environment.

Large, clearly visible safety illustrations outlining protocols, exit routes, and cautionary notices are displayed across factory floors and offices. Safety is a core part of our daily operations—before commencing work, employees are required to wear appropriate protective gear, including gloves, goggles, and ear protection. Designated safety pathways ensure secure movement within the facility. To maintain best practices, we work closely with expert consultants who regularly evaluate and enhance our safety systems. Employees receive ongoing training from industry specialists to strengthen awareness and adherence to safety procedures. Recent first-aid training and fire drills conducted at multiple locations across Pakistan have equipped our workforce with critical emergency response skills. These sessions ensure that our staff can respond effectively to fire or health-related incidents.

For specialized high-risk activities, such as working at heights, a mandatory "permit to work" or safety clearance is enforced. This measure underscores our commitment to rigorous safety compliance. In Fiscal Year 2024–25, ISL recorded 0.91 million safe man-hours and conducted 6,074 hours of HSE training LTI: 04 and TRIR: 0.84 (to date).

HSE DAY AT ISL: FOSTERING A CULTURE OF SAFETY

International Steels Limited celebrated HSE Day in June 2025, reaffirming its commitment to Health, Safety, and Environment as core values of the organization. The event brought together employees from all departments to engage in activities, training sessions, and discussions aimed at strengthening

ISL's safety culture and environmental stewardship. The day featured interactive workshops, safety drills, and awareness sessions conducted by HSE experts, focusing on workplace hazard prevention, emergency preparedness, and environmental sustainability. Employees actively participated in hands-on demonstrations, learning best practices for maintaining a safe and healthy work environment. Speaking at the event, ISL's management emphasized that HSE is not just a policy—it is a way of life at the company.

By adhering to rigorous safety protocols and promoting eco-friendly practices, ISL continues to ensure the well-being of its employees, protect the environment, and maintain operational excellence. HSE Day served as a reminder that safety starts with each individual and that a safe workplace is key to productivity, morale, and sustainability. With collective commitment and continuous improvement, ISL aims to set new benchmarks in industrial safety and environmental responsibility.

THE 2ND ASC WOMEN'S CRICKET TOURNAMENT 2024

Paving the Way for Inclusivity

Traditionally considered a gentleman's game, cricket has steadily broken barriers, becoming a sport that champions diversity, inclusivity, and empowerment. The **ASC Women's Cricket Tournament** is a shining example of this transformation, offering a platform where women can display their talent, passion, and resilience on the field.

Building on the success of last year's event, the 2nd ASC Women's Cricket Tournament 2024 brought together the women of the ASC Group for an exciting day of competition, camaraderie, and sportsmanship. The tournament showcased not only athletic skill but also the spirit of teamwork and determination that defines our organization.

Events like these reaffirm our belief that empowering women in sports is a vital step towards building a more inclusive and equitable workplace. Here's to many more milestones on and off the field!

Customers

CUSTOMER CENTRICISM

At ISL, our customers are at the heart of everything we do. They are not just clients—they are valued partners whose trust and collaboration have been pivotal in our journey toward success. Our diverse portfolio of domestic and international customers provides the foundation that fuels our continued growth and achievements.

CUSTOMER SERVICE EXCELLENCE

We believe that exceptional customer service is built on teamwork. Across all departments - planning, production, quality assurance, service center, information technology, and sales and marketing—we work in perfect synergy to deliver outstanding results. This integrated approach allows us to exceed expectations through value-added services and reliable after-sales support for both industrial and commercial clients.

By deeply understanding the complexities of our customers' operations and tailoring solutions to their specific needs, we strengthen our role as a trusted and long-term partner in their success.

CUSTOMER AWARENESS

At ISL, our sales and marketing team plays a pivotal role in shaping strategies that seamlessly blend information with engagement—strengthening our brand presence while driving product and service sales.

Our sales representatives maintain close connections with customers through regular visits, participation in expos, seminars, and exhibitions. These interactions help us better understand customer needs while sharing insights about our offerings. Additionally, our website serves as a readily accessible hub for marketing materials, quality certifications, and other essential resources, ensuring customers always have the information they need at their fingertips.

To sustain brand leadership in the steel market, ISL conducts regular retail branding initiatives. These include identifying and mapping new retail locations, installing ISL shop fascia, maintaining existing retail points, and executing impactful in-shop branding. These efforts not only enhance visibility but also reinforce ISL's position as a trusted name in the industry.

AFTER SALES SUPPORT

We place the utmost importance on staying connected with our customers long after a sale is made. Our dedicated regional and international sales teams ensure seamless communication and timely assistance.

Through our robust Quality Management System and specialized Complaint Handling Teams, we meticulously log, track, and resolve any concerns—ensuring quick, effective, and lasting solutions.

CUSTOMER ENGAGEMENT

To strengthen relationships and build lasting brand loyalty, ISL regularly hosts corner meetings across various cities, creating opportunities for meaningful interaction between customers, end-users, and our management team. These sessions encourage open dialogue, allowing us to better understand customer needs while sharing insights into our products and services. We also provide virtual tours through engaging corporate videos and presentations, giving fabricators an inside look at our operations and capabilities. To further nurture these connections, we organize special events such as iftars, lunches, and dinners, fostering a sense of community and partnership. Throughout the year, our sales teams also distribute thoughtful giveaways as a token of appreciation for our customers' continued trust and support.

ISL CUSTOMER PORTAL

As part of our ongoing commitment to enhancing customer experiences, ISL proudly launched the ISL Customer Portal—a major step forward in our customer-centric journey. This secure, user-friendly digital platform serves as a unified gateway for customers to access product details, ledgers, and other transactional information.

With username and password authentication, the portal safeguards sensitive data while allowing customers to conveniently place orders, view ledger information, and manage transactions from their office or home—whether on a computer or smartphone. The portal offers a clear, real-time overview of orders and account activities, ensuring transparency and efficiency.

In 2024, ISL successfully rolled out the Customer Portal to ISL Dealers and select industrial

customers, marking a significant milestone in digitalizing our customer engagement.

FACILITATING PAYMENTS

In line with our mission to provide seamless and efficient services, ISL partnered with two leading banks to integrate our systems with their internet banking platforms. One of these banks completed the setup of virtual accounts, enabling automatic receipt creation upon payment. This innovation complements our existing payment channels, offering customers greater flexibility, convenience, and speed in managing their financial transactions with ISL.

ISL Steel Uncovered: Season 1

A JOURNEY WITH OUR CUSTOMERS INTO PAKISTAN'S FLAT STEEL STORY

International Steels Limited stands as a benchmark of excellence in Pakistan's industrial sector, renowned for its high-quality flat steel products that form the backbone of numerous industries. Through its pioneering series, ISL Steel Uncovered, ISL invites viewers to explore the remarkable journey of raw steel as it is transformed into everyday products that power modern life. From household essentials to critical infrastructure components, this series highlights the indispensable role of steel and celebrates the ingenuity of Pakistan's manufacturing ecosystem.

Season 1 of ISL Steel Uncovered offered an unprecedented look into the manufacturing processes that turn ISL's flat steel into products that drive industries such as construction, automotive, and safety. By featuring ISL's industrial partners, the series underscores the collaborative efforts that enable innovation and excellence.

A LEGACY OF EXCELLENCE AND COLLABORATION

ISL Steel Uncovered is more than a series; it's a testament to the ingenuity, resilience, and collaborative spirit of Pakistan's manufacturing sector. By showcasing the transformative journey of ISL's flat steel, the series

celebrates the industries, partnerships, and innovations that drive progress.

CELEBRATING PAKISTAN'S MANUFACTURING EXCELLENCE

ISL Steel Uncovered is more than just a series; it's a celebration of Pakistan's manufacturing capabilities and the pivotal role steel plays in shaping the nation's industrial landscape. Each episode dives into the applications of ISL's flat steel, revealing the precision, expertise, and innovation behind the products that define modern infrastructure and mobility.

By spotlighting its industrial partners, ISL highlights the collaborative spirit that drives progress, showcasing how these partnerships transform raw materials into high-quality, reliable products that meet the demands of a dynamic economy.

From durable steel drums to energy-efficient sandwich panels, the series illustrates the versatility of ISL's flat steel and its impact across diverse sectors. These episodes not only educate viewers about the manufacturing process but also inspire pride in Pakistan's ability to produce world-class products that compete on a global stage.

SEASON 1 RECAP: A DEEP DIVE INTO ISL'S IMPACT ACROSS INDUSTRIES

Season 1 of ISL Steel Uncovered took viewers on a fascinating journey through the manufacturing processes of ten key products, each made possible by ISL's high-quality flat steel. Below, we revisit the highlights of each episode, exploring how ISL's steel contributes to the creation of essential goods that power Pakistan's economy.

1. STEEL DRUMS: DURABILITY FOR INDUSTRIAL NEEDS

Steel drums are a cornerstone of industries such as chemical storage and industrial transportation, requiring materials that are both robust and reliable. This episode delves into how ISL's flat steel is used by Petroleum Packages (Pvt) Ltd to transformed into durable steel drums, engineered to withstand demanding conditions while ensuring safety and efficiency. The process highlights the precision and quality that define ISL's products, showcasing their critical role in supporting industrial operations across Pakistan.

2. SANDWICH PANELS: BUILDING THE FUTURE WITH EFFICIENCY

Sandwich panels are revolutionizing the construction industry with their strength and insulation properties, making them ideal for energy-efficient buildings. This episode explores how ISL's flat steel is used by Pakistan Insulations Pvt. Ltd to create these innovative panels, which combine durability with thermal efficiency. The result is a product that supports sustainable construction practices while meeting the demands of modern infrastructure projects.

3. MOTORCYCLE RIMS: ENGINEERED FOR PERFORMANCE

Motorcycle rims are critical to the safety and performance of two-wheeled vehicles, requiring materials that offer both strength and precision. This episode shows how ISL's high-quality steel used by Super Tech Auto Parts Pvt. Ltd. is crafted into rims that deliver durability and reliability on the road. The manufacturing process highlights the meticulous engineering that ensures these rims meet the demands of Pakistan's motorcycle industry.

4. MOTORCYCLE HANDLES: PRECISION FOR RIDER CONTROL

Motorcycle handles are essential for rider control and comfort, demanding a balance of strength and ergonomic design. In this episode, ISL's flat steel takes center stage as it is transformed into handles that meet the highest standards of precision and durability. The episode underscores Super Tech Auto Parts Pvt. Ltd., demonstrating the critical role of quality materials in ensuring rider safety and enhancing the riding experience.

5. MOTORCYCLE MUFFLERS: BALANCING PERFORMANCE AND COMPLIANCE

Mufflers play a vital role in controlling noise and emissions in motorcycles, requiring materials that can withstand high temperatures and meet regulatory standards. This episode highlights how Super Tech Auto Parts Pvt. Ltd. Utilizes ISL's steel to produce high-performance mufflers that combine durability with environmental compliance. The manufacturing process showcases the innovation driving Pakistan's automotive sector.

6. FIRE RETARDANT DOORS: SAFETY THROUGH STRENGTH

Fire retardant doors are essential for ensuring safety in buildings, providing critical protection in the event of a fire. This episode explores how Karachi Steel Services uses ISL's flat steel to manufacture doors that offer both fire resistance and structural integrity. The process highlights the importance of quality materials in creating products that prioritize safety without compromising on design.

7. AUTOMOTIVE COMPONENTS: EXHAUST SYSTEMS AND CENTRAL PILLARS

Exhaust systems and central pillars are key to the performance and safety of vehicles, requiring materials that offer strength and precision. This episode delves into explores how ISL's flat steel is transformed into these critical automotive components in collaboration with Agriauto Industries Limited, showcasing the engineering expertise behind Pakistan's growing automotive industry. The result is a product that enhances vehicle performance while ensuring passenger safety.

8. STEEL INSTRUMENT PANELS FOR CARS: FUNCTIONALITY MEETS DESIGN

Instrument panels are a vital part of a vehicle's interior, combining functionality with aesthetic appeal. This episode highlights how Agriauto Industries Limited utilizes ISL's flat steel to create instrument panels that meet the demands of modern automotive design. The

manufacturing process underscores the importance of precision and quality in producing components that enhance driver safety and comfort.

9. STEEL PIPES: THE BACKBONE OF INFRASTRUCTURE

Steel pipes are essential for a wide range of applications, from construction to fluid transportation. This episode explores how ISL's flat steel is transformed into pipes that offer unmatched strength and durability, supporting International Industries Limited in critical infrastructure projects across Pakistan. The manufacturing process highlights the versatility and reliability of ISL's steel in meeting diverse industrial needs.

10. FALSE CEILING STEEL T-CHANNELS: ENHANCING AESTHETICS AND FUNCTIONALITY

False ceiling systems are widely used in buildings to improve aesthetics and provide insulation. This episode shows how ISL's flat steel is used by Home Impex to create T-channels, the structural components that support these ceiling systems. The process highlights the precision and quality that define ISL's products, ensuring they meet the demands of modern architectural design.

LOOKING AHEAD TO SEASON 2: A NEW CHAPTER IN INNOVATION

As ISL Steel Uncovered prepares to launch Season 2 in 2025, the series promises to continue its celebration of Pakistan's manufacturing ingenuity and the transformative power of steel. Building on the success of Season 1, the upcoming season will dive deeper into the innovative processes and partnerships that drive ISL's mission to empower excellence. From cutting-edge technologies to groundbreaking collaborations, Season 2 will showcase the creativity and precision that define Pakistan's industrial landscape.

ISL Expands Presence in the Saudi Arabia's Booming Construction Sector

During the year, ISL made significant strides in Saudi Arabia's construction sector, establishing itself as a key supplier of high-quality flat steel products. With successful appearances at some of Saudi Arabia's biggest construction shows including consecutive appearances at the Big 5 Construct Saudi Arabia and the Saudi Build, ISL has not only strengthened its presence in the region but also secured vendor registration for multiple high-profile Saudi Giga-Projects. With an unwavering commitment to quality and international certifications, ISL is set to play a pivotal role in the Kingdom's ambitious Vision 2030 transformation.

BREAKING INTO A COMPETITIVE MARKET

Saudi Arabia's construction industry follows some of the most rigorous regulations, making it a challenging market for foreign suppliers. Companies have to comply with strict quality control measures and require multiple certifications before being approved as vendors for large-scale projects. ISL successfully navigated these requirements, securing approvals and establishing itself as a trusted supplier of high-quality steel products.

ISL's reputation as a world-class flat steel supplier is backed by an impressive portfolio of international certifications, such as ISO 9001:2015 certification for quality management, ISO 14001:2015 for environmental responsibility, and CE and RoHS compliance for safety and reliability. Most notably, a key enabler of ISL's successful market entry has been its SASO Saudi Quality Mark certification, which has facilitated seamless integration into the Saudi construction supply chain.

BEYOND STEEL SUPPLY: OFFERING TAILORED SOLUTIONS

ISL is more than just a steel supplier; it's also an integrated mill. What this means is that it has its own state-of-the-art service center that offers ISL's customers value-added services like slitting and trimming coils, cutting them to length and profiling. We also have a dedicated FrameCAD machine helping ISL produce C-channels, and C&Z purlins, essential components in contemporary construction projects.

SUPPLYING SAUDI ARABIA'S GIGA-PROJECTS

ISL's presence in Saudi Arabia has positioned it as a supplier to several of the Kingdom's most ambitious Giga-Projects, including:

- **NEOM:** An ultra-modern smart city powered by renewable energy, featuring The Line, Oxagon, Trojena, and Sindalah.
- **Red Sea Global:** A 28,000 sq. km sustainable tourism development featuring luxury destinations and pristine ecosystems.
- **Qiddiya:** A 360 sq. km entertainment and leisure hub projected to contribute \$36 billion to GDP and create 325,000 jobs.
- **ROSHN:** A housing initiative aimed at increasing Saudi homeownership through projects like SEDRA, WAREFA, and ALAROUS.
- **King Salman Park & Murabba:** Iconic urban expansion projects integrating green spaces with cutting-edge infrastructure.

These projects are central to Saudi Arabia's Vision 2030, and ISL's role as a supplier demonstrates its reliability, capacity, and competitiveness in the global marketplace.

STRENGTHENING PAKISTAN'S INDUSTRIAL REPUTATION

The longstanding bond and strategic partnership shared between Saudi Arabia and Pakistan is reflected in ISL's vendor approvals for Saudi Arabia's flagship Giga Projects. This achievement not only reflects the technical and operational excellence but also contributes to the broader economic collaboration between Pakistan and Saudi Arabia.

Exhibitions and Expos

International Exhibitions & Expos

PARTICIPATION AT THE BIG 5 SAUDI CONSTRUCT 2025

International Steels Limited proudly represented Pakistan at The Big 5 Saudi Construct 2025. The exhibition provided ISL with an important platform to showcase its flat steel innovations and engage with global industry leaders in the world's fastest-growing construction market.

ISL's presence at the event underscored its commitment to delivering high-quality steel solutions and strengthening Pakistan's industrial footprint on the international stage. By connecting with key stakeholders and industry professionals, the Company reinforced its role in shaping a stronger and more innovative future for the construction sector.

PARTICIPATION AT THE BIG 5 GLOBAL 2024

At The Big 5 Global 2024 in Dubai, International Steels Limited shared its vision for innovation, growth, and international collaboration. The exhibition served as a valuable platform for meaningful interactions with global industry stakeholders and the presentation of trailblazing solutions. ISL's participation highlighted its role in shaping the flat steel industry while proudly representing Pakistan on the world stage.

The exhibition was dedicated to connecting with industry leaders and exploring collaborative opportunities for a stronger tomorrow. ISL's team engaged in insightful discussions and showcased the Company's unwavering commitment to innovation and excellence in the steel industry.

PARTICIPATION AT SAUDI BUILD 2024

International Steels Limited made a strong presence at Saudi Build 2024, where the Company connected with industry leaders and explored new horizons in construction and infrastructure. Through its flat steel products and tailored solutions, ISL reinforced its position as a trusted partner for the region's growing development needs while proudly representing Pakistan on an international stage.

SMU STEEL SUMMIT – ATLANTA, USA

International Steels Limited had the privilege of participating in the SMU Steel Summit held in Atlanta, USA—a premier gathering of global steel industry leaders. The event provided a valuable platform to engage with industry pioneers, exchange insights on emerging trends, and explore innovative opportunities shaping the future of steel. Our presence at the summit reaffirmed ISL's

commitment to excellence, global collaboration, and staying at the forefront of advancements in the flat steel sector.

Domestic Exhibitions & Expos

PARTICIPATION AT THE 30TH PAKISTAN HVACR EXPO & CONFERENCE 2025

International Steels Limited participated in the 30th Pakistan HVACR Expo & Conference 2025, held from June 19–21 at the Lahore International Expo Centre. The event provided ISL with the opportunity to showcase its world-class flat steel solutions and engage with industry stakeholders in the HVACR sector.

At the exhibition, ISL highlighted its premium hot dip galvanized steel, trusted for its superior strength, corrosion resistance, and durability. Widely used in HVACR and ducting systems, ISL's steel enables lasting performance, in every project.

The Company's presence underscored its commitment to powering Pakistan's future through sustainable, high-quality steel solutions.

ISL SHINES AT PAKISTAN AUTO SHOW (PAPS) 2025

International Steels Limited marked its presence at the Pakistan Auto Show (PAPS) 2025, held in October, making a significant impact at one of the country's premier automotive industry events.

The exhibition served as a dynamic platform for ISL to connect with industry stakeholders, showcase its advanced flat steel solutions, and highlight its role in supporting Pakistan's growing automotive and manufacturing sectors. Throughout the event, ISL's welcomed a steady stream of visitors, including manufacturers, suppliers, and enthusiasts eager to learn more about the company's high-quality steel products and services.

ISL's dedicated sales team engaged directly with attendees, answering questions, sharing technical insights, and discussing tailored solutions to meet diverse customer needs. The overwhelming interest and positive feedback underscored the strong relationships ISL continues to build within the industry.

Shareholders

At International Steels Limited, our goal has remained to be a model corporate citizen by upholding and creating substantial value for our shareholders. We have been dedicated to ensuring fair returns and maximizing shareholder value through diligent and strategic efforts across all teams and functions of the Company.

Society and Community

COMMITMENT TO SOCIETY

At International Steels Limited, we remain committed to addressing the challenges faced by society. As a major industrial manufacturer, the Company continues to contribute to human development through its operations and active community engagement.

ISL's corporate culture reflects the values of its founder, Mr. Amir S. Chinoy, a staunch supporter of local community initiatives.

CORPORATE GIVING

ISL regularly makes contributions to charitable causes, either directly or through the Amir Sultan Chinoy Foundation (ASCF). Established in 1968 by Mr. Amir Sultan Chinoy under the name The Friendship Foundation—in honor of his father, Sir Sultan Mehrally Chinoy—the foundation was renamed the Amir Sultan Chinoy Foundation in 1980. The ASCF continues to operate in line with the vision of its founder, with a strong focus on the advancement of education, healthcare, and social uplift. Through these initiatives, ISL seeks to extend the impact of its business beyond industry, fostering meaningful change within the community.

PLANTATION DRIVE

A PROMISE TO THE FUTURE

As part of its commitment to sustainability and responsible growth, International Steels Limited organized a **plantation drive**, reaffirming its promise to future generations and to the environment. The initiative brought together employees, partners, and community members, reflecting the spirit of collective responsibility.

Through this effort, ISL underscores that meaningful change is possible when communities work together—growing stronger, greener, and more sustainable for the future.

EMERGE – EMPOWERING THE NEXT GENERATION

Introduced by the Amir Sultan Chinoy Foundation (ASCF), Emerge continued to grow louder and stronger in 2025 with the launch of Cohort III. The program focuses on training the next generation of skill-based entrepreneurs, equipping them with the knowledge and tools to lead, build, and transform the world around them.

Through Emerge, ASCF reinforces its mission of fostering innovation, self-reliance, and social impact by empowering youth to convert their potential into meaningful enterprise.

SUPPORTING SPORTS THROUGH THE AMIR S. CHINYOY FOUNDATION

Through a multi-year sponsorship agreement under the Amir S. Chinoy Foundation, the ASC Group proudly supported Sana and Saif Bahader—two exceptionally talented athletes who continued to defy odds. Though classified as Persons with Disabilities, their resilience, skill, and passion positioned them as true symbols of Pakistan's unstoppable youth.

This initiative reflects the Group's commitment to empowering individuals and promoting inclusivity in sports. By supporting Sana and Saif, ASC aims to showcase their talent on the global stage while contributing to the revival of Pakistan's rich squash legacy.

Powering Pakistan's Future in Squash

ASC Group signs a multi-year sponsorship agreement to proudly support, Sana and Saif Bahader — defying all odds and making Pakistan proud in squash globally.

PARTNERSHIP WITH CHINIOT GENERAL HOSPITAL

During the year, Chiniot General Hospital entered into a strategic partnership with International Steels Limited, through the signing of a Memorandum of Understanding. Both organizations committed to

strengthening healthcare initiatives and creating a positive impact within the community.

This collaboration reflects ISL's dedication to social responsibility and its commitment to supporting quality healthcare services for all.

SUPPORTING EDUCATION FOR A BRIGHTER FUTURE

ISL, through the Amir Sultan Chinoy Foundation, supports The Citizens Foundation (TCF) Schools, providing underprivileged children with access to quality education. Currently, we are sponsoring two campuses – TCF IIL and TCF Chinoy Campus – enabling students from disadvantaged backgrounds to pursue learning and growth opportunities for a brighter future.

Environmental Responsibility

At International Steels Limited, we remain acutely aware of the potential impact our business activities could have on the environment. Recognizing that access to water and essential resources is a fundamental human right, the Company remains committed to taking meaningful measures to minimize its environmental footprint.

As Pakistan continues to face critical challenges related to energy and clean water scarcity, ISL acknowledges that its most direct and significant contributions stem from ongoing efforts to enhance environmental efficiencies. While the Company's primary raw materials—steel and zinc—do not directly harm the environment, ISL is steadfast in its commitment to minimizing any potential impact resulting from its operations.

ISL ensures that all technologies and equipment employed are environmentally safe and fully compliant with both international and national standards. Environmental considerations are integrated into every aspect of the business, from project costing to procurement processes. Furthermore, all future investments are preceded by thorough environmental impact assessments, ensuring sustainability remains at the forefront of decision-making.

Guided by its “Clean, Lean, and Green” approach, ISL continues to adopt environmentally friendly practices across its manufacturing processes. By embracing sustainable technologies, the Company focuses on reducing its environmental impact through effective

resource utilization, waste reduction, and the recycling of materials wherever possible.

CLEAN WATER AND SANITATION

At ISL, we are deeply committed to minimizing our environmental footprint while ensuring responsible access to clean water and sanitation. We recognize that water is a precious resource and a fundamental human right, and we take our responsibility to safeguard it with utmost seriousness. To uphold these principles, ISL has implemented a series of sustainable water management initiatives:

EFFLUENT TREATMENT PLANT (ETP)

ISL operates a state-of-the-art effluent treatment plant with a capacity of 600 m³/day. This facility collects, neutralizes, and filters solvent-based waste generated during manufacturing. The treated water is discharged strictly in compliance with the National Environmental Quality Standards (NEQS), ensuring that our operations do not compromise surrounding ecosystems.

SEWAGE TREATMENT PLANT (STP)

In addition, ISL has established a sewage treatment plant with a capacity of 90 m³/day. All sewage generated by our operations is treated at this facility, with the reclaimed water repurposed for toilet flushing, landscape irrigation, and groundwater recharge. These initiatives are a vital part of ISL's broader commitment to sustainable water stewardship—ensuring that every drop is managed responsibly for the benefit of both people and the environment.

REVERSE OSMOSIS (RO) SYSTEMS

Our RO plants, with a combined capacity of 54 m³/hour, ensure the removal of pollutants from well water, making it fully reusable within our facility.

To minimize waste, even the rejected water is treated by an additional RO unit (16 m³/hour capacity) and purified for reuse. This reduces our dependence on the city's main water supply and reinforces our commitment to efficient water conservation.

ACID REGENERATION PLANT (ARP)

The ARP is designed to recycle and recondition 98% of the hydrochloric acid (HCl) used in the pickling process, drastically reducing the need for fresh acid and eliminating harmful disposal practices. By reusing resources effectively, we ensure cleaner operations and contribute to the **UN SDG goals on clean water and sanitation**.

HEAT ABSORPTION CHILLER

Our heat absorption chiller system captures waste heat and converts it into chilled water for air-conditioning. This innovative solution significantly reduces the energy demand for cooling, making our operations more efficient and environmentally friendly.

STEAM BOILER AND TURBINE

To maximize the use of waste heat, we operate a steam boiler that converts exhaust heat into steam, which is then used across various processes within our facility. In addition, our 1.2 MW steam turbine harnesses this steam to generate electricity—further strengthening our energy efficiency and lowering our carbon footprint.

RAINWATER HARVESTING PROGRAM

At International Steels Limited, the commitment to a sustainable future is further reinforced through our **Rainwater Harvesting Program**. By capturing and recharging groundwater with each rainfall, the initiative contributes to water conservation,

supports the **United Nations Sustainable Development Goals (SDGs)**, and reduces the Company's overall carbon footprint.

For ISL, every drop counts in its journey toward responsible and resilient operations, reflecting the Company's broader vision of embedding sustainability into industrial growth.

AFFORDABLE AND CLEAN ENERGY

At ISL, we are driving progress toward affordable and clean energy through smart, sustainable practices. By capturing and reusing waste heat from our operations, we not only enhance energy efficiency but also reduce our environmental footprint. This proactive approach reflects our commitment to innovation, responsible resource use, and a cleaner, more resilient future.

Advancing Sustainable Manufacturing: Commissioning of 6.4 MW Solar Project

During the year, International Steels Limited successfully commissioned its 6.4 megawatt (MW) solar power project, reinforcing the Company's commitment to long-term sustainability and operational efficiency. Launched in 2024 and executed within 12 months, the initiative began supplying clean, renewable electricity to ISL's production facilities.

The installation is designed to generate over 8 million kilowatt-hours (kWh) annually, reducing dependence on fossil fuels and strengthening ISL's energy independence. This generation capacity is equivalent to powering more than 3,000 average Pakistani households per year.

ENVIRONMENTAL IMPACT

By shifting a significant portion of its energy mix to solar, ISL is projected to cut thousands of metric tons of CO₂ emissions annually. This transition not only supports Pakistan's national climate objectives but also enhances resilience against fuel price volatility and grid instability.

SUPPORTING GLOBAL SUSTAINABILITY GOALS

The project contributes directly to the United Nations Sustainable Development Goals (SDGs):

Goal 7: Affordable and Clean Energy

Goal 9: Industry, Innovation, and Infrastructure

Goal 12: Responsible Consumption and Production

Goal 13: Climate Action

ESG IN PRACTICE

The solar initiative forms a core part of ISL's broader Environmental, Social, and Governance (ESG) strategy. By adopting clean energy solutions, the Company demonstrates that industrial growth can be both economically viable and environmentally responsible.

This milestone represents a significant step forward not only for ISL but also for Pakistan's industrial sector, showcasing how innovation and sustainability can drive long-term progress.

RESPONSIBLE CONSUMPTION AND PRODUCTION

At ISL, we are committed to creating long-term value for our shareholders while upholding the highest standards of transparency, accountability, and corporate governance. Integrity and openness remain at the core of all our operations.

PRICE TRANSPARENCY

We believe in fair and transparent business practices. To support this, ISL offers a single, comprehensive national price list that is shared with all customers, ensuring clarity, consistency, and fairness in pricing.

WORKPLACE SAFETY

Safety is a non-negotiable priority at ISL. We are dedicated to providing a safe, injury-free workplace for both employees and visitors. Our Health, Safety, and Environment (HSE) department, along with expert consultants, regularly assesses our facilities and fosters a proactive safety culture across teams.

- Regular safety awareness and training sessions instill a strong safety mindset at every level.
- Comprehensive HSE programs strengthen accountability for hazard-free operations.
- Sales and marketing collaterals also provide detailed product handling guidelines to minimize risks during transit.

CERTIFICATIONS & STANDARDS

Our practices are aligned with global standards of excellence, as reflected in our certifications:

ISL is certified by Lloyd's Register Quality Assurance Limited (LRQA) for:

ISO 9001:2015 - Quality Management System

ISO 14001:2015 – Environmental Management System

ISO 45001:2018 – Occupational Health & Safety

CE, RoHS, and REACH certifications, demonstrating our compliance with stringent EU quality and safety requirements.

SASO Saudi Quality Mark

ROHS COMPLIANCE

At ISL, we comply with the Restriction of Hazardous Substances (RoHS) Directive, which restricts the use of specific hazardous materials in electrical and electronic equipment. This ensures our products are free from harmful substances, safeguarding both human health and the environment.

REACH COMPLIANCE

We are certified under the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) regulation, governed by the European Chemicals Agency (ECHA). This certification guarantees the safe use and management of chemicals within the European Union, reflecting our commitment to responsible chemical practices and global regulatory standards. With these international certifications, ISL reinforces

- its dedication to:
- Delivering products that meet the highest standards of safety and environmental sustainability.
 - Minimizing environmental impact through responsible material and chemical management.
 - Providing customers with reliable, compliant, and sustainable steel solutions.
 - At ISL, we continuously strive to uphold global best practices while promoting a cleaner and more sustainable future.

GOVERNANCE FRAMEWORK

The main philosophy of business followed by the sponsors of International Steels Limited for the last many decades has been to create value for all stakeholders through fair and sound business practices, which translates into policies approved by the Board and implemented throughout the company to enhance the economic and social values of all stakeholders of the company.

Our governance strategy is to ensure that the Company follows the direction defined by its core values, current regulatory framework, and global best practices. Our approach towards corporate governance ensures ethical behavior, transparency and accountability in all that we do and to attain a fair value for the shareholders.

COMPLIANCE STATEMENT

The Board of Directors has, throughout the year 2024-25, complied with the Companies Act, 2017, Code of Corporate Governance Regulation 2019, Rule Book of the Pakistan Stock Exchange Limited and the Corporate Financial Reporting Framework of Securities and Exchange Commission of Pakistan (SECP).

The Directors confirm that the following has been complied with:

- Financial statements have been prepared which fairly represent the state of affairs of the company, the result of its operations, cash flows and changes in equity.
- Proper books of accounts of the company have been maintained.
- Appropriate accounting policies have been consistently applied in the preparation of financial statements and accounting estimates

are based on reasonable and prudent business judgment.

- International Financial Reporting Standards (IFRS), as applicable in Pakistan, have been followed in the preparation of financial statements and any departures therefrom have been adequately disclosed and explained.
- The system of internal control is sound in design and has been effectively implemented and monitored. The Internal Audit function is led by the Chief Internal Auditor supported by in-house staff.
- There are no significant doubts about the company's ability to continue as a going concern.
- There is no material departure from the best practices of Corporate Governance as per regulations.

THE BOARD OF DIRECTORS

The Board of Directors consists of qualified individuals possessing knowledge, experience, and skills in various professions, with leadership and vision to provide oversight to the company.

The Board is headed by Mr. Kamal A. Chinoy, a non-executive Chairman and out of the 8 elected Directors, 3 are Independent Directors including 1 female Director. The current Board composition reflects a good mix of experience and diversity in backgrounds, skills and qualifications. All Directors have years of experience and are fully aware of their duties and responsibilities under the Code of Corporate Governance. At present six (6) Directors have attended the formal Directors Training

Certificate programs while two Directors possess sufficient skills and experience of the Board room as described in the Code of Corporate Governance.

In compliance with Regulation 7 of the Companies (Code of Corporate Governance) Regulations, 2019 a female Director was elected at the last election of the Board of Directors at the 15th Annual General Meeting in September 2022.

A digital interface is being used to update the Board of Directors by providing the Companies Act, 2017, Companies (Code of Corporate Governance) Regulations, 2019, relevant portions of the PSX Rule Book, the Company's Memorandum & Articles of Association and various policies and procedures.

To further its role of providing oversight and strategic guidelines to the company, the Board has formulated a Board Charter to define its role of strategic leadership and provide oversight to the management. The Board has constituted an Audit Committee and Human Resources & Remuneration Committee. The composition, role and responsibilities of the Committees are clearly defined in their respective Terms of References.

ANNUAL CALENDAR AND AGENDA FOR MEETINGS

A meeting calendar is issued annually to reflect the dates planned for the Board, Audit and HR&R Committees. All the Board members are given appropriate documents through Diligent Board application in advance of each meeting which normally includes a detailed analysis of business and matters, where the Board will be required to make a decision or give its approval

During the year 2024-25, the Board had seven (7) meetings, out of which four (4) were held to review and approve the financial results, one (1) meeting was held to approve the budget for the ensuing year and two (2) meetings were held to discuss matters other than financial results. The average attendance of the Directors in Board meetings during the year was 87%.

CHANGES IN THE BOARD

At the 15th Annual General Meeting of the Company on September 29, 2022, eight (8) Directors were

elected for a term of three (3) years. During the year 2023-24, a casual vacancy arose following the resignation of non-executive Director Mr. Shuji Tsubota, effective March 31, 2024, and Mr. Norihiro Mizota was appointed on April 08, 2024, to serve the remainder of the term. Subsequently, another casual vacancy arose, effective October 1, 2024, as executive Director Mr. Samir M. Chinoy was appointed as the CEO of the Company and it was filled by appointment of Mr. Yousuf H Mirza as non-executive Director on October 16, 2024, to serve the remainder of the term. Further, in the year 2024-25, Mr. Mizota also tendered his resignation, and Mr. Kenichi Hotta was appointed on April 10, 2025, to fill the resulting vacancy for the remainder of the term.

BOARD MEETINGS OUTSIDE PAKISTAN

During the year 2024-25, no Board meetings were held outside Pakistan.

ROLES AND RESPONSIBILITIES OF THE CHAIRMAN AND CHIEF EXECUTIVE

The Board of Directors provides the overall direction for the Company operations and provides oversight for various policies and monitors the management in the light of operational and financial plans. The roles of the Board and the Chief Executive Officer have been clearly defined where the Board is responsible for strategic guidance and providing directions for sustainable business.

The Chairman and the Chief Executive have separate and distinct roles. The Chairman has all the powers vested in him under the Listed Companies (Code of Corporate Governance) Regulations, 2019 and presides over all Board Meetings. The Chief Executive performs his duties under the powers vested by law and the Board. He recommends and implements the business plans and is responsible for the overall control and operation of the Company.

BUSINESS PHILOSOPHY & BEST CORPORATE PRACTICES

We believe in ethical practices, sustainable manufacturing processes, transparent reporting to the shareholders, and the best practices of

Corporate Governance to ensure success and better results for all stakeholders.

The Board Charter defines the scope of the Board's activities in setting the tone at the top, formulating strategies, and providing oversight to the management for sustainable growth of the business. The Board members actively participate in the meetings to guide the company's business activities, operational plans, review corporate operations and formulate and review all significant policies. The Board firmly adheres to the best ethical practices and fully recognizes its responsibilities for the protection and efficient utilization of company assets for legitimate business objectives and compliance with laws and regulations. The Chairman ensures that the discussions held during the Board meetings and the consequent decisions arising are duly recorded and circulated to all the Directors within fourteen (14) days. The CFO and the Company Secretary attended meetings of the Board as required by the Code of Corporate Governance.

All periodic financial statements and other working papers for the consideration of the Board/Committees are circulated to the Directors well in advance of meetings to allow them sufficient time to make informed decisions. This year, the Board held seven (7) meetings, the agendas of which were duly circulated through the Diligent Board application at least one week in advance of the meetings, except for one emergent meeting that was held during the year for which the notice period was waived by the Board.

TIMELY COMMUNICATION OF FINANCIAL RESULTS

The quarterly unaudited financial statements and the half yearly financial statements (with limited review by the Auditors) were duly circulated within thirty (30) days and sixty (60) days respectively along with the Directors' Report. Annual financial statements were authorized by the Board of Directors and communicated to the Pakistan Stock Exchange within fifty-three (52) days from the close of the financial year. Additionally, all important disclosures, including the financial statement, were also made available on the Company's website to keep the stakeholders duly informed.

BOARD EVALUATION

The Board of Directors has formulated a policy to evaluate its own performance. The salient features of which are as follows:

1. The Board Evaluation Methodology to be adopted as a self-evaluation of the Board as a whole through an agreed questionnaire.
2. The evaluation exercise is to be carried out every year.
3. The evaluation system is designed to address areas of critical importance and should include, but not limited to, the following:
 - a. Appraising the basic organization of the Board of Directors.
 - b. The effectiveness and efficiency of the operation of the Board and its sub-committees.
 - c. Assess the Board's overall scope of responsibilities.
 - d. Evaluate the flow of information; and
 - e. Validate the support and information provided by management.
4. The Board would review the results and suggest measures to improve the areas identified for improvement. The Board is continuing its self-evaluation since many years and has identified areas for further improvement in line with global best practices. The focus remained on strategic growth, business opportunities, risk management, Board composition and providing oversight to the management.

DIRECTORS REMUNERATION POLICY

A formal policy to review and approve the remuneration of non-executive directors is well in place. The Company believes in remunerating its non-executive directors and Chairman adequately to justify their continued quality guidance and contributions to the Company's objectives, good corporate governance, and sustained long-term value creation for shareholders while maintaining their independent status.

RISK MANAGEMENT

Risk management is critical to any business, which includes identification and assessment of various risks and their mitigation to control and minimize the impact of such risks and maximize the realization of opportunities. The management has developed a dynamic risk register covering financial and operational risks and their mitigation plans which are subject to periodical review. A dedicated Board Audit Committee meeting was held during the year for a detailed discussion on business, financial and operational risks.

INTERNAL CONTROL FRAMEWORK

The Company maintains an established control framework comprising clear structures, authority limits, accountabilities, well understood policies and procedures. All policies and control procedures are documented in manuals. The Board establishes corporate strategy and the Company's business objectives.

The Board Audit Committee has been entrusted with the main responsibility of Internal Controls. The Audit Committee reviews the audit reports from the Internal and External Auditors, and after detailed deliberations, these periodic reports are submitted to the Board of Directors. The Company places a high value on transparency, both internally and externally, in its corporate management. It continually focuses on the implementation of efficient management practices.

The Head of Internal Audit is being assisted by in-house executives. The Management has placed an explicit internal control framework with clear structures, authority limits, accountabilities, well defined policies, and detailed procedures, enabling the Audit Committee and the Board to have a clear understanding of risk areas and to place effective controls to mitigate these risks.

DISCLOSURE OF CONFLICT OF INTEREST

The Company has taken measures to prevent conflict of interests between directors, employees, and the Company. In this regard, a clear policy on conflict of interests is contained in the Code of Conduct duly approved by the Board of Directors which is placed on Page No. 36

As per the Code of Corporate Governance, the Company annually circulates the Code of Conduct and takes appropriate steps to disseminate it across all ranks in the Company. Further, the Directors and key employees are reminded to abstain from insider trading of shares and to refrain from dealing in shares during the closed period.

Every director is required to bring to the attention of the Board, complete details regarding any material transaction, which has a conflict of interest, for prior approval of the Board. The interested Directors neither participate in discussions nor vote on such matters.

The complete details of all transactions with related parties are submitted to the Audit Committee which recommends them to the Board for approval in each quarter. These transactions are also fully disclosed in the published financial statement of the Company.

CORPORATE SOCIAL RESPONSIBILITY

The Company has implemented comprehensive policies on "Occupational health, Safety & Environment" and "Corporate Social Responsibility and Sustainable Development" to meet its Corporate Social Responsibilities. Social and environmental responsibility reflects the company's recognition that there is a strong positive correlation between financial performance and corporate, social, and environmental responsibility. Social and environmental responsibility include the following:

1. Community investment and welfare schemes
2. Environmental protection measures
3. Occupational health and safety
4. Business ethics and anti-corruption measures
5. Energy conservation
6. Industrial relations
7. National cause donations

Our role as a corporate citizen is as important to us as the satisfaction of our customers and earning a fair return for our shareholders. We are committed to working for the betterment and prosperity of our stakeholders. Management has endeavored to provide a safe and healthy work atmosphere by adopting practices and creating working conditions that are safe and healthy for our employees, vendors, contractors, suppliers, and customers.

We are committed to providing better education and health facilities to the less fortunate people, especially to our stakeholders.

In line with our philosophy of CSR, we regularly maintain and support TCF school - Amir Sultan Chinoy Campus in the vicinity of Landhi along with offering need-based scholarships to NED University students for a better tomorrow of our younger generation. We also support NGOs like Karwan-e-Hayat, Al Rehmat Benevolent Trust and Amir Sultan Chinoy Foundation to help deserving patients for their treatment.

SUSTAINABILITY MEASURES

All aspects of sustainability including efficient operational procedures, effective internal controls, ethical behavior, and energy conservation are an integral part of our business model. We also believe that employees are most critical in the progress, growth, and sustainability of any organization.

For more details, please refer to our “Sustainability Report” which is available on our website (www.isl.com.pk).

ENGAGING STAKEHOLDERS & TRANSPARENCY

The development of stakeholders’ relationships is of significant importance for the company. Building “stakeholder’s engagement” and compliance with regulatory requirements and terms and conditions are some of the main business principles by which we abide.

To bring an accurate understanding of the company’s management policies and business activities to all its stakeholders, it strives to make full disclosure of all material information to all stakeholders through various announcements on its website, to the Stock Exchange, and other sources available to help investors to make informed decisions. It encourages full participation of the members in the General Meetings by sending corporate results and sufficient information following the prescribed timeline to enable the shareholders to participate on an informed basis.

While increasing management transparency, it aims to strengthen its relationships and trust with shareholders and investors. Our stakeholders include but are not limited to customers,

employees, government, shareholders, suppliers, local communities, and bankers.

CORPORATE BRIEFING SESSION

Khan Road, Karachi, and through video conferencing to brief the investors/ analysts/shareholders about the financial performance and future outlook of the Company.

POLICY FOR INVESTOR GRIEVANCES

The Company has an “Investor Relation Policy” that sets out the principles in providing the shareholders and prospective investors with the necessary information to make well-informed investment decisions and to ensure a level playing field. Investor grievances and complaints are very important and are properly reviewed to minimize the recurrence of similar issues in the future. The following principles are adhered to with regard to investor grievances:

1. Investors are always treated fairly.
2. Complaints raised are dealt with in a courteous and timely manner.
3. Various modes of communication like email, telephone, meetings, and raising matters at the Annual General Meeting are available to investors to raise grievances.
4. Queries and complaints are treated fairly and efficiently.
5. Employees work in good faith and without prejudice towards the interests of the creditors.
6. Detailed company information regarding financial highlights, investor information, and other requisite information specified under the relevant regulations has been placed on the corporate website of the company which is updated on a regular basis.

SAFETY OF COMPANY RECORDS

The company has a firm “Document & Record Control Policy” for establishing, approving,

reviewing, changing, maintaining, replacing, retrieving, retaining, distributing, and administering control of all documents and data that relate to the Company and has taken the following concrete measures to ensure safety/security of the records and creating a paperless environment.

- All important documents such as minutes and proceedings of the Board & its sub-committees, Annual General Meetings, statutory certificates, title documents of the Company properties and all other important communications and records are digitally scanned and archived on secured Company servers.
- All important original documents are placed in a neutral, secured, and well-known vault.
- Record keeping of accounting books is at a separate secured location.

HUMAN RESOURCE MANAGEMENT POLICIES AND SUCCESSION PLANNING

TA comprehensive set of policies has been well implemented to cover all aspects related to HR. The policies focus on training, motivating, and retaining valuable human assets for the future growth of the company. To maintain the continuity of business operations, particularly at senior management and key managerial levels, a well-defined succession planning framework is in place.

INFORMATION TECHNOLOGY POLICY

A comprehensive Information Technology (IT) Policy is in place to ensure the effective and efficient use of IT resources. It provides strategic direction, sets priorities, enhances productivity, and ensures delivery of the right services to users across the organization.

The IT Steering Committee, comprising the CEO, CFO, CIO, Heads of Manufacturing, Sales & Marketing, and HR & Admin, is responsible for all major IT-related decisions. The CIO is also accountable for communicating IT security policies to all users. The Internal Audit department independently monitors

compliance with these policies.

The IT Policy focuses on information security, access control, system acquisition, development, and maintenance, as well as business continuity, incident management, the company's website, and the ERP system.

WHISTLEBLOWING POLICY

We are committed to creating an atmosphere in which our people can freely communicate their concerns to their supervisors and functional Heads. The Company also has a Whistleblowing Policy in place which provides an additional avenue to employees to report any corrupt or unethical behavior.

THE POLICY OF SECURITY CLEARANCE OF FOREIGN DIRECTORS

DESIGN ARCHITECTURE FOR MANAGEMENT SYSTEMS INTEGRATION

ISL utilizes a robust, industry-standard ERP application to seamlessly manage and integrate core business functions, including finance, sales, production, supply chain, and inventory management, into a unified system. The ERP application is designed with a unified data model that ensures data consistency and accuracy across interconnected modules, facilitating smooth data flow and comprehensive reporting. Automated features for routine tasks such as invoice processing, sales order processing and sales invoicing help reduce manual effort and minimize errors, thereby enhancing operational efficiency and compliance.

EXPERT SUPPORT FOR ADVANCEMENTS & UPDATES

ISL's management demonstrates unwavering support for the effective implementation and continuous updating of our ERP system. This includes allocating necessary resources, providing ongoing training, and promoting a culture of continuous improvement. The management ensures that the ERP system aligns with our strategic objectives and business processes through regular reviews and updates, keeping the system current with the latest industry standards and technological advancements. This commitment enhances operational efficiency and supports overall business growth.

ERP SOFTWARE USER TRAININGS

ISL emphasizes thorough user training to maximize the effective use of the ERP software. New users receive role-specific training, hands-on workshops, and an introduction to the system's features. Ongoing learning includes regular refresher courses, training sessions, and access to online resources. We provide support through a dedicated help desk, user manuals, and community forums. Management supports the training process by allocating necessary resources and fostering an environment of continuous feedback and improvement.

ERP PROJECTS RISK MANAGEMENT

ISL addresses ERP project risks through planning, governance, and change management. Risks are identified early, and clear project objectives are set with stakeholder engagement. Technical safeguards, including data security measures and extensive system testing, are in place to protect and validate the ERP system. Continuous monitoring, regular audits, and user feedback contribute to proactive risk management. Contingency plans, including backup and recovery strategies, further ensure the success and ongoing efficiency of our ERP system.

REGULAR SYSTEM SECURITY ASSESSMENTS

ISL enforces system security and access control through regular security audits and role-based access controls. Users have access only to the data necessary for their roles, and periodic reviews of access permissions help maintain segregation of duties. Automated controls in the ERP system enforce these practices, safeguarding sensitive data and ensuring operational integrity.

ISL's LEGAL EVALUATION STATEMENT

ISL's management evaluates and enforces the legal and regulatory implications of cyber risks, ensuring compliance with cybersecurity laws and regulations. This involves developing policies, assessing regulatory impacts, and coordinating breach responses.

IT & CYBERSECURITY STRATEGY DISCLOSURE

The company has implemented a comprehensive IT governance and cybersecurity framework, incorporating well-defined programs, policies, and procedures to safeguard information assets and ensure compliance with industry-specific requirements. Our cybersecurity program includes risk management, access controls, incident response, and continuous monitoring to protect against threats, adhering to industry standards. We regularly update our policies to address evolving threats and regulatory changes, maintaining a robust strategy to manage current and emerging risks.

The CIO oversees the establishment and communication of incident management procedures, while the Information Technology/ Information Security team maintains a central log of cybersecurity incidents, develops detection procedures. Clear reporting standards are in place to monitor compliance and effectively address incidents.

CYBERSECURITY RISK DISCLOSURE

Cybersecurity is central to the company's risk oversight function, with management actively involved in shaping and monitoring the cybersecurity strategy. Management receives regular updates on cybersecurity risks, including threat assessments, incident reports, and mitigation efforts. Through structured meetings and discussions with the CIO and other key executives, management ensures that cybersecurity risks are effectively addressed and aligned with the company's risk management objectives.

ISL management integrates cybersecurity into its oversight through a structured four-phase framework. This includes defining the governance system through optimizing performance and managing IT resources, addressing stakeholder reporting requirements and communication strategies, and obtaining leadership

approval for the governance plan. Throughout these phases, management ensures alignment with strategic objectives, compliance, and effective risk management, with clear reporting standards established to track progress and address issues efficiently.

CYBERSECURITY RISK ASSESSMENT DISCLOSURE

The company has established a Management Committee and an IT Steering Committee to oversee IT governance and cybersecurity matters. The Management Committee is responsible for guiding the company's IT risk management strategies, including cybersecurity policies and incident response plans. It ensures that IT risks are managed effectively through regular reviews of risk assessments, monitoring of security measures, and evaluation of IT controls.

The IT Steering Committee supports this effort by overseeing major IT projects and technology decisions, ensuring alignment with business objectives, and assisting the Management Committee in monitoring and managing cybersecurity risks. This committee also provides advice to senior IT management and ensures that reporting standards effectively track and communicate IT risk management, aligning efforts with the company's strategic goals.

EARLY WARNING SYSTEM DISCLOSURE

The company adheres to a policy of conducting independent, comprehensive security assessments of its technology environment, including third-party risks, on a regular basis. This approach ensures that vulnerabilities are identified and addressed proactively. Assessment involves thorough evaluations of both internal systems and third-party integrations. Assessment results inform our security strategy and drive ongoing improvements to safeguard our technology infrastructure.

Additionally, ISL has established an "early warning system" to manage cybersecurity risks and incidents effectively. The Head of IT ensures that incident management responsibilities are clearly defined and communicated. The Information Technology team maintains a central log of incidents, develops procedures for timely detection, and serves as the main contact for reporting issues. This team also liaises with relevant authorities and forums. Documented incident management objectives ensure comprehensive handling and timely disclosure of risks to management, supported by reporting standards that provide timely updates and accurate information about cybersecurity incidents.

INDEPENDENT SECURITY ASSESSMENTS DISCLOSURE

ISL has a policy for conducting independent, comprehensive security assessments of our technology environment, including third-party risks. We maintain a risk register to monitor and report high-risk activities, updating it annually or as needed. This includes developing IT risk reporting methodologies and considering risk events, regulatory requirements, and audit observations. We evaluate risk processes through testing and reviews, and provide reports to key internal stakeholders detailing major cybersecurity risks, threats, incidents, and the status of our information security program.

DISASTER RECOVERY PLAN DISCLOSURE

ISL has established a robust contingency and disaster recovery plan to address potential IT failures or cyber breaches effectively. Our company's Disaster and Recovery Plan outlines detailed processes for recovering, backing up, retrieving, and protecting critical data and systems in the event of an IT failure or cyber breach. The plan includes designated points of contact for disaster and crisis management to ensure effective coordination and response. Reporting standards ensure that all recovery activities and Service Level Agreements are documented and communicated to relevant stakeholders.

ADVANCED DIGITAL TRANSFORMATION DISCLOSURE

ISL's focus on digital transformation by adopting key technologies such as process automation and cloud computing. These innovations have improved transparency, reporting, and governance. Key trends shaping our approach include the move to cloud computing, integration, advanced security measures, and analytics. These advancements boost operational efficiency, enhance security, and support data-driven decision-making. Reporting standards help us communicate the impact of these technologies to stakeholders.

RISK MITIGATION TRAINING & EDUCATION DISCLOSURE

ISL offers comprehensive education and training to mitigate cybersecurity risks, including regular sessions, trainings, and updates on best practices. New employees receive initial training, with ongoing education reinforced through updates and refresher trainings.

Enterprise Risk Management

The Company's Board of Directors (BOD) holds the responsibility for our risk management framework, recognizing its critical role in safeguarding and enhancing shareholder value. This vital duty is formally delegated to the Board Audit Committee, which provides strategic guidance on our risk management policies and methodology. The Committee's mandate has evolved to meet the demands of our dynamic operating environment. It conducts a quarterly review of our risk register, focusing on a deeper analysis of new and emerging threats. This proactive approach includes a critical evaluation of each risk's potential financial impact and the progress of our mitigation strategies.

Our Enterprise Risk Management (ERM) methodology provides a structured, company-wide approach to this. We perform a comprehensive analysis of all internal, external, and industry-specific risks, categorizing them into four

key areas:

- **Strategic:** Risks originating from external factors, such as geopolitical shifts or market disruptions.
- **Operational:** Risks associated with our day-to-day business activities.
- **Financial:** Risks related to market volatility, liquidity, and credit.
- **Compliance:** Risks tied to legal and regulatory frameworks.

This integrated approach allows us to make risk-informed decisions that build long-term value and ensure our continued success.

ERM methodology follows a disciplined, four-step process to ensure we consistently identify, evaluate, and respond to potential threats and opportunities. This framework is a core part of our strategic decision-making.

STEP	ACTIVITIES/ GUIDELINES
Identify	Proactively identify risks by focusing on our most critical business objectives. This process uses both a top-down and bottom-up approach, combining insights from executive leadership with input from teams across the organization. Regular internal meetings ensure a continuous flow of information to capture emerging risks.
Assess (calculate)	Once identified, we quantify each risk's potential impact. Our assessment goes beyond simple probability; we use an impact and probability matrix to evaluate the severity of each risk. We also determine the inherent, residual, and target risk levels to understand our risk exposure before and after mitigation efforts.
Respond	Our goal is to bring our residual risk exposure to a tolerable level. We achieve this by developing and implementing clear management action plans with specific timelines. These plans are owned by the relevant departments, and progress updates are presented to the Management Committee for review.
Monitor	Risk management is an ongoing process. The Management Committee periodically reviews the status of all identified risks and the effectiveness of our mitigation strategies. This constant oversight ensures our framework remains relevant and responsive to the evolving business landscape.

Following are the major risks which may affect our business operations along with management's assessment of probability, impact and the mitigating plan in place:

Risk Description	Risk Type	Probability	Impact	Mitigation plan

Board Committees

The Board is assisted by the following two committees to support its decision-making in their respective domains:

A. Board Audit Committee (BAC) and

B. Human Resource & Remuneration Committee (HR&RC):

A. BOARD AUDIT COMMITTEE

The Board Audit Committee comprises of the following:

1) Mr. Nihal Cassim	Chairman	Independent Director
2) Mr. Haroun Rashid	Member	Non-Executive Director
3) Dr. Amjad Waheed	Member	Independent Director
4) Mr. Mustapha A. Chinoy	Member	Non-Executive Director
5) Mr. Zaib Zaman	Secretary	Chief Internal Auditor

The BAC comprises of four (4) Directors including two (2) Independent Directors. The Chief Financial Officer and the Chief Internal Auditor attend the BAC meetings, while the Chief Executive Officer is invited to attend the meetings.

The BAC also separately meets the Internal Audit team and external auditors at least once a year without the presence of the Management. Meetings of the BAC are held at least once every quarter. During the year 2024-25, the BAC held five (5) meetings. The BAC held four meetings to review and recommend to the Board the quarterly, half yearly and annual financial statements. There was one meeting held in May 2025 specifically to review in detail the risks associated with the business and the mitigating steps that the Management has taken to address them. INDEPENDENT AUDITOR'S REVIEW REPORT

TO THE MEMBERS OF INTERNATIONAL STEELS LIMITED

Review Report on the Statement of Compliance Contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of International Steels Limited (the Company) for the year ended June 30, 2025 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2025.

INDEPENDENT AUDITOR'S REPORT

To the members of International Steels Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of International Steels Limited (the Company), which comprise the statement of financial position as at June 30, 2025, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2025 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters

Following is the key audit matter:

S. No. Key audit matter

(i) Revenue from contracts with customers (Refer note 3.11 and note 24 to the financial statements)

The Company recognises revenue from the sale of cold rolled, galvanized and colour coated steel coils and sheets to domestic as well as export customers when the performance obligation is satisfied by transferring control of a promised good to the customer. During the year, net sales to the domestic customers have decreased by 1.09% and net sales to export customers have decreased by 38.49%.

As part of our overall response to the audit risks when identifying and assessing the risk in revenue recognition, we considered that there is an inherent risk that revenue may be overstated as it is a key performance measure, which could create an incentive or pressure. Further, we have focused our audit activities over the revenue recognised near to the year end as there was a high risk that the revenue is recorded before the control of goods is transferred to the customer and in an incorrect accounting period.

Based on the above and considering that the revenue recognition is a high-risk area, we considered this as a key audit matter.

How the matter was addressed in our audit

Our audit procedures amongst others included the following:

- obtained an understanding of the Company's process with respect to revenue recognition and tested design and operating effectiveness of controls relevant to such process;
- understood and evaluated the accounting policy with respect to revenue recognition;
- performed testing of revenue on a sample basis with underlying documentation including dispatch documents and sales invoices;
- performed cut-off procedures on sample basis to ensure sales has been recorded in the correct period;
- verified that sales prices are and approved by appropriate authority;
- recalculated the commission as per Company's policy and verified related distribution expenses; and
- ensured that presentation and disclosures related to revenue are being addressed appropriately.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- (a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- (b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- (c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- (d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditor's report is Syed Muhammad Hasnain.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IFRS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for the Company's liability under defined benefit plan (gratuity) that is determined based on the present value of defined benefit obligation less fair value of plan assets, freehold land and buildings thereon that are stated at fair values determined by an independent valuer.

2.3 Functional and presentation currency

These financial statements are presented in Pakistani Rupees, which is the Company's functional currency. All amounts have been rounded off to the nearest thousand, unless otherwise indicated.

2.4 Use of significant estimates and judgements

The preparation of financial statements in conformity with accounting and reporting standards, as applicable in Pakistan, requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates underlying the assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Information about the judgements made by the management in the application of the accounting policies, that have the most significant effect on the amount recognized in these financial statements, assumptions and estimation uncertainties with significant risk of material adjustment to the carrying amount of assets and liabilities in future periods are described in the following notes:

- Property, plant and equipment (note 3.1)
- Lease liability and Right-of-use assets (note 3.2)
- Trade debts, advances and other receivables (note 3.4.2.1 and note 3.14))
- Stock-in-trade (note 3.7)
- Taxation (note 3.8)
- Staff retirement benefits (note 3.9)
- Provisions (note 3.15)
- Contingent liabilities (note 3.16)

2.5 Changes in accounting standards, interpretations and pronouncements

a) Standards and amendments to approved accounting standards that are effective

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Company's annual accounting period which began on July 1, 2024. However, these do not have any significant impact on the Company's financial reporting and, therefore, have not been disclosed in these financial statements except as for:

Amendment to IAS 1 - Non - current liabilities with covenants:

An amendment to IAS 1 'Presentation of Financial Statements' (IAS-1) was introduced addressing the classification of non-current liabilities subject to covenants. This amendment clarifies that liabilities should be classified as either current or non-current based on the rights available at the end of the reporting period, without consideration of future expectations or events occurring after this date. The amendment also mandates specific disclosures if a liability is classified as non-current but is subject to covenants that must be complied with within twelve months of the reporting date.

b) Standards and amendments to approved accounting standards that are not yet effective

There is a standard and certain other amendments to the accounting and reporting standards that will be mandatory for the Company's annual accounting periods beginning on or after July 1, 2025. The following amendments and standard have not been early adopted by the Company:

"Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments (effective January 1, 2026):

These amendments

- clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- add new disclosures for certain instruments with contractual terms that can change cashflows (such as some instruments with features linked to the achievement of Environment, Social and Governance (ESG) targets); and
- make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).

IFRS 18 'Presentation and Disclosure in Financial Statements' (IFRS 18) (effective January 1, 2027):

A new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss is being introduced. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

The management is in process of assessing the impact of above changes.

Other than above, there are standards and certain amendments to accounting standards that are not yet effective and have not been early adopted by the Company for the financial year beginning on July 01, 2025. Such standards and amendments are not expected to have any significant impact in the Company's financial reporting and, therefore, have not been presented in these financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The summary of material accounting policies and methods of computations adopted in the preparation of these financial statements are same as those applied in the preparation of the annual financial statements of the Company for the year ended June 30, 2024. The new additional policy applied during the year ended June 30, 2025:

Investment in an associate

The Company has investment in associated company as disclosed in note 7. The investment in associated Company is accounted for using equity method of accounting in which It is initially recognised at cost and adjusted thereafter to recognise the Company's share in its associate's post-acquisition profits or losses and other comprehensive income are respectively recognised in the statement of profit or loss and statement of comprehensive income. Dividends received or receivable from associated company are recognised as a reduction in the carrying amount of the investment.

The carrying amount of investment in associated company is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the investment in associated company's recoverable amount is estimated, which is higher of its value in use and its fair value less cost to sell. An impairment loss is recognised if the carrying amount exceeds its recoverable amount.

Impairment losses are recognised in statement of profit or loss. An impairment loss is reversed if there has been a change in estimate used to determine the recoverable amount but limited to the extent of the initial cost of investment in associated company. A reversal of impairment loss is recognised in the statement of profit or loss.

3.1 Property, plant and equipment

3.1.1 Operating assets and depreciation

Initial recognition

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of such item can be measured reliably.

Recognition of the cost in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by the management.

Measurement

Property, plant and equipment (except freehold land and buildings) are stated at cost less accumulated depreciation and impairment losses, if any. Freehold land are stated at revalued amounts and buildings on freehold land are stated at revalued amounts less accumulated depreciation and accumulated impairment, if any. The costs of property, plant and equipment include:

- (a) its purchase price including import duties, non-refundable purchase taxes after deducting trade discounts and rebates;
- (b) any other costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management; and
- (c) Borrowing costs, if any.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent expenditure

Expenditure incurred to replace a significant component of an item of property, plant and equipment is capitalised and the asset so replaced is retired. Other subsequent expenditure is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the items can be measured reliably. All other expenditure (including repairs and normal maintenance) is recognised in the statement of profit or loss as an expense when it is incurred.

Depreciation

Depreciation on all items except for freehold land is charged on straight line method at the rates specified in note 4.1 to the financial statements and is generally recognised in statement of profit or loss.

Depreciation on addition is charged from the month the asset is available for use up to the month prior to disposal.

Depreciation methods, useful lives and residual values of each part of property, plant and equipment that is significant in relation to the total cost of the asset are reviewed, and adjusted if appropriate, at each reporting date.

Revaluation surplus

Revaluation of freehold land and buildings on freehold land is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from the fair value at the reporting date. Any revaluation increase in the carrying amount of freehold land and buildings on freehold land is recognized, net of tax, in other comprehensive income and presented as a separate component of equity as "Revaluation surplus on property, plant and equipment" except to the extent that it reverses a revaluation decrease / deficit for the same asset previously recognised in the statement of profit or loss, in which case the increase is first recognized in the statement of profit or loss to the extent of the decrease previously charged.

Any decreases that reverse previous increases of the same asset are first recognized in other comprehensive income to the extent of the remaining surplus attributable to the asset, all other decreases are charged to statement of profit or loss. The revaluation reserve is not available for distribution to the Company's shareholders. Each year, the difference between depreciation based on the revalued carrying amount of the asset charged to statement of profit or loss and depreciation based on the asset's original cost, net of tax, is reclassified from revaluation surplus to unappropriated profit as incremental depreciation.

The fair value of the Company's freehold land and building on free hold land is determined after a period of three years by an independent professionally qualified valuer. However, fair value is re-assessed on yearly basis to check for any material impact. During the year, the fair value was re-assessed and the change in value is incorporated in the financial statements.

Gains and losses on disposal

Gains and losses on disposal of assets are taken to the statement of profit or loss, and the related surplus on revaluation of property, plant and equipment, if any, is transferred directly to retained earnings.

3.1.2 Capital work-in-progress

Capital work-in-progress is stated at cost less impairment loss, if any and consists of expenditure incurred (including any borrowing costs, if applicable) and advances made in the course of their construction and installation. Transfers are made to relevant asset category as and when assets are available for intended use.

Advances paid to suppliers for acquisition of property, plant and equipment including land and building is also classified under capital work-in-progress.

3.2 Lease liability and Right-of-use assets

The Company, as a lessee, has recognised right-of-use assets representing its right to use the underlying assets and lease liabilities representing its obligations to make lease payments.

At inception of a contract, the Company assesses whether a contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. The Company mainly leases properties for its operations. The Company recognizes a right-of-use asset and lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses if any, and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight line method over the shorter of the lease term and the asset's useful life. The estimated useful lives of assets are determined on the same basis as that for owned assets. In addition, the right-of-use asset is periodically reduced by impairment losses, if any.

The Company has various lease agreements for head office and sales offices which were previously classified by the Company based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under IFRS 16, the Company recognises right-of-use assets and lease liabilities for all the leases - i.e. these leases are on statement of financial position.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the entity's incremental borrowing rate being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is re-measured when there is a change in future lease payments arising from a change in an index or rate, a change in assessment of whether extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit and loss if the carrying amount of right-of-use asset has been reduced to zero.

Lease liabilities include the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payment that are based on an index or a rate;
- Amounts expected to be payable by the lessee under residual value guarantees;
- The exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Right-of-use assets are measured at cost comprising the following:

- The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentives received;
- Any initial direct costs; and
- Dismantling costs and restoration costs.

The company has not elected to recognise right-of-use assets and lease liabilities for short-term leases of properties that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3.3 Intangible assets

An intangible asset is recognised as an asset if it is probable that future economic benefits attributable to the asset will flow to the entity and the cost of such asset can be measured reliably.

Costs directly associated with identifiable software that will have probable economic benefits exceeding one year, are recognised as an intangible asset.

Indefinite Intangible assets

These are stated at cost less impairment, if any.

Definite Intangible assets

- a) These are stated at cost less accumulated amortisation and impairment, if any.
- b) These are amortised on straight line basis over its estimated useful life(s) of these assets (refer note 6).
- c) Amortisation on additions during the year is charged from month in which the asset is intended to use, whereas no amortisation is charged from the month the asset is disposed-off.

3.4 Financial instruments

3.4.1 Initial measurement of financial asset

The Company classifies its financial assets into following three categories:

- fair value through other comprehensive income (FVOCI);
- fair value through profit or loss (FVTPL); and
- at amortised cost.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Subsequent measurement

Debt Investments at FVOCI

These assets are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss. Other net gains and losses are recognised in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

Equity Investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in other comprehensive income and are never reclassified to the statement of profit or loss.

Financial assets at FVTPL cost

These assets are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognised in statement of profit or loss.

Financial assets measured at amortised

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses, if any. Interest / markup income, foreign exchange gains and losses and impairment, if any, are recognised in the statement of profit or loss.

3.4.2 Financial assets

All financial assets are initially recognised on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Financial assets comprise loans and receivables that are financial assets with fixed or determinable payments that are not quoted in active markets and include trade debts, deposits, advances and cash and cash equivalents. The Company derecognises the financial assets when the contractual rights to the cash flows from the asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risk and rewards of ownership of the financial assets are transferred or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset.

3.4.2.1 Trade debts, advances and other receivables

These are classified at amortised cost and are initially recognised when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

3.4.2.2 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.4.3 Financial liabilities

Financial liabilities are initially recognised on trade date i.e. date on which the Company becomes party to the respective contractual provisions. Financial liabilities include mark-up bearing borrowings, unclaimed / unpaid dividend, accrued mark-up, lease liability and trade and other payables. The Company derecognises the financial liabilities when contractual obligations are discharged or cancelled or expire. Financial liabilities other than at fair value through profit or loss are initially measured at fair value less any directly attributable transaction cost. Subsequent to initial recognition, these liabilities are measured at amortised cost using effective interest rate method.

3.4.3.1 Mark-up bearing borrowings and borrowing costs

Mark-up bearing borrowings are recognised initially at fair value, less attributable transaction costs. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortised cost, while the difference between the cost (reduced for periodic payments) and redemption value is recognised in the statement of profit or loss over the period of the borrowings using the effective interest rate method.

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the relevant asset.

3.4.3.2 Trade and other payables

Trade and other payables are recognised initially at fair value plus directly attributable costs, if any, and subsequently measured at amortised cost.

3.4.4 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when the Company has currently legally enforceable right to set-off the recognised amounts and the Company intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in normal course of business and in the event of default, insolvency or winding up of the Company or the counter parties.

3.5 Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

3.6 Stores and spares

Stores and spares are stated at lower of weighted average cost and net realisable value, less provision for impairment, if any. Items in transit are valued at cost comprising invoice value plus other charges incurred thereon.

Provision is made for obsolete and slow moving stores and spares and is recognised in the statement of profit or loss.

3.7 Stock-in-trade

These are valued at lower of cost and net realisable value. Cost is determined under the weighted average basis. Cost comprises all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition. Raw material in transit comprise of invoice value and other charges thereon. Net realisable value signifies the estimated selling price in the ordinary course of the business less net estimated cost of completion and selling expenses. Scrap and by-product is valued at estimated realisable value.

3.8 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the statement of profit or loss, except to the extent that it relates to items recognised directly in equity or in other comprehensive income, in which case it is recognised in equity or in other comprehensive income respectively. In making the estimates for income taxes currently payable by the Company, the management considers the current income tax law and the decisions of appellate authorities on certain issues in the past.

3.8.1 Current tax

The charge for current taxation is based on the taxable income for the year, determined in accordance with the prevailing law for taxation on income, using prevailing tax rates after taking into account tax credits and rebates available, if any. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability.

3.8.2 Deferred tax

Deferred tax is recognised using balance sheet liability method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the tax rates enacted or substantively enacted at the reporting date.

The Company recognises a deferred tax asset to the extent that it is probable that taxable profits for the foreseeable future will be available against which the assets can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3.8.3 Levies

Tax charged under Income Tax Ordinance, 2001 which is not based on taxable income or any amount paid / payable in excess of the calculation based on taxable income or any minimum tax which is not adjustable against future income tax liability is classified as levy in the statement of profit or loss and other comprehensive income as these levies fall under the scope of IFRIC 21/IAS 37.

Tax on dividend from subsidiaries, associates and joint ventures are not considered as levy as these dividends are specifically covered by IAS 12.

3.9 Staff retirement benefits

3.9.1 Defined benefit plan

The Company provides gratuity benefits to all its permanent employees who have completed their minimum qualifying period of service i.e. three years (except in case of workers where minimum qualifying period of service is six months). For executives and officers having total service of over twenty years, the benefit is available at one month's basic salary (eligible salary) for each completed year of service. For executives and officers having total service of less than twenty years, the benefit is available at half month's basic salary (eligible salary) for each completed year of service.

For workers, the benefit is available at one month's gross salary less conditional allowances (eligible salary) for each completed year of service. The Company's obligation is determined through actuarial valuations carried out under the 'Projected Unit Credit Method'. Remeasurements which comprise actuarial gains and losses and the return on plan assets (excluding interest) are recognized immediately in other comprehensive income.

The Company determines the net interest expense / (income) on the net defined benefit liability / (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability / (asset), taking into account any changes in the net defined benefit liability / (asset) during the period as a result of contribution and benefit payments. Net interest expense and current service cost are recognised in statement of profit or loss. The latest actuarial valuation was conducted at the reporting date by a qualified professional firm of actuaries.

The actual return on plan assets represent the difference between the fair value of plan assets at the beginning and end of the year and adjusted for contributions and benefits paid.

3.9.2 Defined contribution plan

The Company provides provident fund benefits to all its officers. Equal contributions are made, both by the Company and the employees, at the rate of 8.33% of basic salary and cost of living allowance and the same is charged to the statement of profit or loss.

3.9.3 Compensated absences

The liability for accumulated compensated absences of employees is recognised in the period in which employees render service that increases their entitlement to future compensated absences.

3.10 Foreign currency transactions and translation

Transactions in foreign currencies are translated into Pakistan Rupees at the rates of exchange approximating those prevailing on the date of transactions. Monetary assets and liabilities in foreign currencies are translated into Pak Rupees at the rates of exchange ruling on the reporting date. Exchange differences are included in the statement of profit or loss

3.11 Revenue recognition

- Domestic sales are recognised as revenue when invoiced with the transfer of control of goods, which coincides with delivery, as this is the point in time that the consideration becomes unconditional, because only the passage of time is required before the payment is due.
- Export sales are recognised as revenue when invoiced with the transfer of control of goods, which coincides either with the date of bill of lading or upon delivery to customer or its representative, based on terms of arrangement.

No element of financing is deemed present as the sales are made with a credit term of up to 120 days, which is consistent with the market practice.

3.12 Income from power generation

Revenue from power generation plant on account of sales of surplus electricity is recognised on transmission of electricity to K-Electric Limited.

3.13 Income on bank deposits and finance cost

The Company's finance income and finance cost includes income on bank deposits and finance cost. Income or expense is recognised using the effective interest rate method.

3.14 Impairment

3.14.1 Financial assets

The Company recognises loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortised cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
- Loss allowances for trade debts are always measured at an amount equal to lifetime ECLs.

The expected loss rates are based on the payment profiles of sales over a period of 36 - 60 months before June 30, 2025 or July 1, 2024 respectively and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the debts. The Company has identified the Gross Domestic Product (GDP) and the unemployment rate of the countries in which it sells its goods to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovery of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The adoption of the expected loss approach has not resulted in any material change in impairment provision for any financial asset.

A financial asset is considered irrecoverable (default event) when the counterparty fails to make contractual payments within one year of when they fall due.

3.14.2 Non-financial assets

The carrying amounts of the Company's non-financial assets, other than stores and spares, stock in trade and deferred tax are reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount, being higher of value in use and fair value less costs to sell, is estimated. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the statement of profit or loss.

3.15 Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are measured at the present value of expected expenditure, discounted at a pre-tax rate reflecting current market assessment of the time value of money and the risk specific to the obligation. However, provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

3.16 Contingent liabilities

A contingent liability is disclosed when the Company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Company; or the Company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

3.17 Segment reporting

Segment results that are reported to the Company's Chief Executive Officer (CEO) - the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items, if any, comprise mainly corporate assets, head office expenses, and tax assets and liabilities. Management has determined that the Company has a single reportable segment and therefore it has only presented entity wide disclosures.

The Company does not consider sale of electricity to K-Electric Limited (KE) as separate reportable segment as the power plant of the Company is installed primarily to supply power to its production facilities and currently any excess electricity is sold to KE.

3.18 Dividend and appropriations to / from reserves

Dividend distribution to the Company's shareholders and appropriations to / from reserves are recognised as a liability in the period in which these are approved. However, if these are approved after the reporting period but before the financial statements are authorised to issue, they are disclosed in the notes to the financial statements.

3.19 Government grants

Government grants are transfers of resources to an entity by a government entity in return for compliance with certain past or future conditions related to the entity's operating activities - e.g. a government subsidy. The definition of "government" refers to governments, government agencies and similar bodies, whether local, national or international.

The Company recognises government grants when there is reasonable assurance that grants will be received and the Company will be able to comply with conditions associated with Grants.

Government grants are recognised at fair value, as deferred income, when there is reasonable assurance that the grants will be received and the Company will be able to comply with the conditions associated with the grants.

Grants that compensate the Company for expenses incurred, are recognized on a systematic basis in the income for the year in which the related expenses are recognized. Grants that compensate for the cost of an asset are recognized in income on a systematic basis over the expected useful life of the related asset.

A loan is initially recognized and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that is the government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant.

3.20 Share capital

Ordinary shares are classified as equity and recognised at their face value. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, if any.

12. STAFF RETIREMENT BENEFITS

12.1 Defined contribution plan

Staff Provident Fund

All investments in collective investment schemes, listed equity and listed debt securities out of provident fund have been made in accordance with the provisions of section 218 of the Companies Act, 2017 and the conditions specified thereunder.

12.2 Defined benefit scheme

Staff Gratuity Fund

12.2.1 As stated in note 3.9 the company operates approved funded defined benefit gratuity plan for all permanent employees meeting the specified criteria and defined contribution plan for all active employees subject to minimum service of prescribed period as per the respective trust deeds. Actuarial valuation of these plans is carried out every year and the latest actuarial valuation was carried out as at June 30, 2025.

12.2.2 Plan assets held in trust are governed by local regulations which mainly include Sindh Trusts Act, 2020; the Companies Act, 2017; Income Tax Rules, 2002 and the Rules under the respective trust deeds. Responsibility for governance of the Plans, including investment decisions and contribution schedules, lies with the respective Board of Trustees. The Company appoints the trustees among its employees.

12.2.3 Risks on account of defined benefit plan

The Company faces the following risks on account of defined benefit plan:

Final salary risk - The risk that the final salary at the time of cessation of service is greater than what the Company has assumed. Since the benefit is calculated on the final salary, the benefit amount would also increase proportionately.

Asset volatility - Most assets are invested in risk free investments of 6 months, 3, 5 or 10 years Regular Income Certificates, Defence Savings Certificates, Treasury Bills and Government Bonds. However, investments in equity instruments is subject to adverse fluctuations as a result of change in the market price.

Discount rate fluctuation - The plan liabilities are calculated using a discount rate set with reference to market yields on government bonds. A decrease in market yields on government bonds will increase plan liabilities, although this will be partially offset by an increase in the value of the current plans' bond holdings.

Investment risks - The risk of the investment underperforming and not being sufficient to meet the liabilities. This risk is mitigated by closely monitoring the performance of investment.

Risk of insufficiency of assets - This is managed by making regular contribution to the Fund as advised by the actuary.

12.2.4 Funding

The gratuity plan is fully funded by the Company. The funding requirements are based on the gratuity fund's actuarial measurement framework set out in the funding policies of the plan. The funding is based on a separate actuarial valuation for funding purposes for which the assumptions may differ from the assumptions used in determining defined benefit liability. Employees are not required to contribute to the plan.

12.2.5 The actuarial valuation of gratuity was carried out at June 30 by an independent actuary under projected unit credit method using the following assumptions:

	2025	2024
	(Rupees in '000)	
<i>Component of defined benefit costs recognized in statement of profit or loss</i>		
Current service cost	46,729	42,183
Net interest cost		
- Interest cost on defined benefit obligation	61,772	57,120
- Return on plan assets	(71,148)	(60,215)
	37,353	39,088
<i>Component of defined benefit costs (re-measurement) recognized in other comprehensive income</i>		
Re-measurements: Actuarial gain on obligation		
- Gain due to change in experience adjustments	(10,723)	(8,707)
- Return on plan assets	(72,714)	(46,598)
Net re-measurement recognized in other comprehensive income	(83,437)	(55,305)
Total defined benefit cost recognized in statement of profit or loss and other comprehensive income	(46,084)	(16,217)

12.2.11 Components of defined benefit cost for the next year

	2025	2024
	(Rupees in '000)	
Current service cost	47,873	46,729
Interest expense on defined benefit obligation	60,361	62,844
Return on plan assets	(72,808)	(74,673)
Net interest cost	(12,447)	(11,829)
Cost for the next year to be recognized in statement of profit or loss	35,426	34,900

The Company contributes to the gratuity fund on the advice of the fund's actuary. The contribution in relation to gratuity benefit for the year ending June 30, 2026 is expected to be same as the expense.

12.2.12 Composition of fair value of plan assets

	2025		2024	
	Fair value (Rupees in '000)	Percentage	Fair value (Rupees in '000)	Percentage
Government securities	412,134	68.13	332,088	66.16
Shares - Listed	169,484	28.01	127,010	25.30
Bank deposits	23,362	3.86	42,852	8.54
Fair value of plan assets	604,980	100.00	501,950	100.00

12.2.13 The Company ensures asset / liability matching by investing in government securities, bank deposits and equity securities and does not use derivatives to manage its risk.

12.2.14 Maturity profile of the defined benefit obligation

	2025	2024
	(Rupees in '000)	
Distribution of timing of benefit payments		
One year	21,266	26,045
Two years	27,086	20,980
Three years	26,957	80,159
Four years	29,496	27,057
Five years	82,722	30,142
Six years and onwards	8,769,847	12,555,439

12.2.15 The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	2025	2024
	(Rupees in '000)	
Actuarial liability		
Discount rate + 1%	453,108	405,150
Discount rate - 1%	562,133	494,641
Salary increase + 1%	562,880	495,273
Salary increase - 1%	451,606	403,912
	(Number in years)	
Weighted average duration of the defined benefit obligation	11	10

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied.

19.1 The deferred tax assets and the deferred tax liabilities relate to income tax in the same jurisdiction, and the law allows net settlement. Therefore, they have been offset in the statement of financial position.

19.2 Deferred tax asset / (liability) is recorded at 100% (2024:100%) of the total deferred tax liability based on the changes in Finance Act 2024, according to which export sales will not be treated as Final Tax Regime, instead the export sales will now fall under Minimum Tax Regime.

19.3 Under the Finance Act, 2019, corporate rate of tax has been fixed at 29% for tax year 2020 and onwards. As per Finance Act, 2022, companies operating in certain sectors, including steel, are liable to pay super tax at 10% for tax year 2022 and upto 4% for tax year 2023 and onwards. However Finance Act, 2023 has introduced progressive rate on high earning persons ranging from 1% to 10% whereas on companies having income in excess of Rs. 500 million 10% super tax will be applicable. Such higher rate of tax has been made perpetual thus substantially increasing the overall tax costs for the businesses. Accordingly, deferred tax assets and liabilities have been recognised using the expected applicable rate.

20.1 These include payable to Sumitomo Corporation, related party of the Company, amounting to Rs. 4,374.76 million (2024: Rs. 4,831 million).

20.2 This include current portion of provision for Gas Infrastructure Development Cess amounting to Rs. 1,255.02 million (2024: Rs. 1,248.22 million) and provision against revision of gas tariff by Oil and Gas Regulation Authority amounting to Rs. 544.96 million (2024: Rs. 544.96 million).

20.2.1 In the prior year, the Honorable Supreme Court of Pakistan (SCP) has decided the Appeal against consumers upholding the vires of GIDC Act, 2015 through its judgement dated August 13, 2020. The Supreme court on November 02, 2020 ordered that their decision of August 13, 2020 has validated the GIDC Act, 2015 in complete sense and the benefits allowed under its Section 8(2) to the industrial sector is also available. Further, payment of due GIDC was allowed in 48 installments instead of 24 installments.

The Company has also filed a civil suit before the Honourable High Court of Sindh (SHC) on the ground that the Company has not passed on the burden of Cess. Stay order was granted in the aforesaid suit, which has been operative till the next date of hearing.

The Company has recognised GIDC payable with respect to its captive power plant used for self consumption. This payable has been revalued and recorded at its present value by discounting the future cash flows using three year PKRV rate and has booked (loss) / income of Nil (2024: Rs. (5.49) million), which has been recorded as other income. The unwinding of the GIDC during the year amounts to Rs. 6.80 million (2024: Rs. 48.31 million).

The Company has not recognized GIDC amounting to Rs. 769 million (2024: Rs. 769 million) pertaining to period from 01 July 2011 to 31 Jul 2020 with respect to its captive power plant from which power generation is supplied to K-Electric Limited. Management considers that, in the event such levy is imposed, it shall recover GIDC from K-Electric Limited through fuel adjustments after getting requisite approval from National Electric Power Regulatory Authority (NEPRA).

Despite the speaking order dated August 13, 2020 by the Supreme court, the Federal Government did not initiate the gas project within six months, therefore, the Company filed a petition in the SHC challenging the decision of the Supreme court.

Following is the carrying amount of provision for GIDC and the movement during the year:

- 20.3** The Sindh Finance Act, 1994 prescribed an infrastructure fee at the rate of 1% of the C&F value of all goods entering or leaving the province of Sindh via sea or air. The Sindh High Court (SHC), passed an interim order directing that every company subsequent to December 27, 2006 is required to clear the goods on paying 50% of the Cess amount involved and furnishing a bank guarantee / security for the remaining amount of 50%. Subsequently, through Sindh Finance Act 2015 and 2016, the legislation has increased the rate to 1.25%. From 01 July 2024, the rate has been further increased to 1.85% through Sindh Finance Act, 2024.

The case was decided on June 04, 2021 by the SHC. The SHC declared first four versions of the law unconstitutional and the release of bank guarantees were ordered. However, the Sindh Infrastructure Development Cess Act, 2017 was declared constitutional with retrospective effect from 1994. The operation of the order remained suspended till September 03, 2021. The Company was not satisfied with the above orders and filed an appeal with the Supreme Court of Pakistan.

On September 1, 2021, the Supreme Court granted a stay order and suspended the recovery of levy and operation of judgement of SHC dated June 4, 2021, that the bank guarantees already submitted by the Company in pursuant to the order of High Court is valid and enforceable. The court further ordered that imports should be released on submission of fresh bank guarantees equivalent to 100% of the fee amount under the Act.

Bank guarantees issued as per the above mentioned orders amounting to Rs.4,732.5 million (2024: Rs.4,032.5 million) have been provided to the Excise and Taxation Department. However, a provision to the extent of amount utilized from the limit of guarantee has also been provided for by the Company on prudent basis.

20.3.1 Provision for Infrastructure Cess

The Company does not take into consideration the value of collateral while testing financial assets for impairment. The Company considers the credit worthiness of counterparties as part of its risk management.

Long term deposit with Central Depository Company of Pakistan Limited (CDC)

This represents long term deposits with CDC. The Company does not foresee any credit exposure there against as the amounts are paid to counterparty as per agreement and is refundable on termination of the agreement with respective counterparty.

Trade debts

The Company's exposure to credit risk arising from trade debtors is mainly influenced by the individual characteristics of each customer. Majority of the Company's sales are made against receipts in advance from customers. The Company has no major concentration of credit risk with any single customer. The majority of the trade customers have been transacting with the Company for several years. The Company establishes an allowance for impairment where it considers recoveries are not probable.

Trade deposits

These represent deposits placed with various suppliers as per the terms of securing availability of services. The management does not expect to incur credit loss there against.

Receivable from K-Electric Limited

The receivable from K-Electric Limited amounting to Rs. 4.54 million (2024: Rs.25.53 million) on account of electricity provided to it under an agreement from the power plant located at the factory site. The Company does not expect to incur credit loss against this receivable.

Analysis of gross amounts receivable from local and foreign trade debtors and from K-Electric Limited are as follows:

	2025	2024
	(Rupees in '000)	
Domestic	115,943	144,819
Export	1,239,546	1,304,004
	1,355,489	1,448,823

37.1.2 Impairment losses

The aging of trade debtors and receivable from K-Electric Limited (KE) at the reporting date was as follows:

	2025		2024	
	Gross	Impairment	Gross	Impairment
	(Rupees in '000)			
Not past due	1,197,740	-	1,433,074	-
Past due 1-60 days	157,749	-	15,749	-
Total	1,355,489	-	1,448,823	-

Management believes that the unimpaired balances that are past due are still collectible in full, based on historical payment behaviour and review of financial strength of respective customers. Further, certain trade debtors are secured by way of Export Letter of Credit and Inland Letter of Credit which can be called upon if the counter party is in default under the terms of the agreement.

Cash is held only with reputable banks with high quality external credit rating assessed by external rating agencies. Following are the credit ratings of banks with which balances are held or credit lines available:

37.1.3 Concentration of credit risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. In order to avoid excessive concentrations of risk, management focuses on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. Management does not consider that it has any concentration of credit risk at the reporting date.

37.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or there is difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company ensures that it has sufficient cash to meet expected working capital requirements by having credit lines available. The following are the contractual maturities of financial liabilities, including interest payments and excluding the impact of netting agreements:

2025						
	Carrying amount	Contractual cash flows	Six months or less	Six to twelve months	One to five years	More than five years
(Rupees in '000)						
Financial liabilities						
Long term financing	873,224	(1,065,505)	(114,538)	(112,456)	(813,718)	(24,793)

2024						
	Carrying amount	Contractual cash flows	Six months or less	Six to twelve months	One to five years	More than five years
(Rupees in '000)						
Financial liabilities						
Long term financing	1,190,260	(1,455,985)	(215,043)	(167,292)	(960,696)	(112,954)

37.2.1 The contractual cash flows relating to the above financial liabilities have been determined on the basis of mark-up rate effective as at June 30. The rate of mark-up has been disclosed in respective notes to these financial statements.

37.2.2 Long term financing from various banks contains certain loan covenants. A breach of covenant, in future, may require the Company to repay the respective loans earlier than as directed in the above table.

37.3 Market risk

Market risk is the risk which arises due to changes in market prices, such as foreign exchange rates, interest rates and equity prices, that will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company is exposed to currency risk and interest rate risk only.

Management assessed that the fair values of cash and cash equivalents and short-term deposits, receivable from K-Electric Limited (KE), trade debts, trade payables, short term borrowings and other current liabilities approximate their carrying amounts largely due to short-term maturities of these instruments. For long term deposit assets and long term liabilities, management considers that their carrying values approximates fair value owing to credit standing of counterparties and interest payable on borrowings is at market rate.

37.3.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Exposure to currency risk

The Company is exposed to currency risk on trade debts, bank balances and trade creditors that are denominated in a currency other than the respective functional currency of the Company, primarily U.S. Dollar. The Company's exposure to foreign currency risk is as follows:

	2025		2024	
	Rupees	US Dollars	Rupees	US Dollars
	(Amounts in '000)			
Financial assets				
Bank Balance	879,065	3,104	541,184	1,946
Trade debts	1,239,547	4,433	1,304,005	4,688
Financial liabilities				
Trade creditors	(7,394,881)	(26,449)	(5,098,797)	(18,302)
Net exposure	(5,276,269)	(18,912)	(3,253,608)	(11,668)

The following significant exchange rates applied during the year:

	Average rates		Reporting date rate	
	2025	2024	2025	2024
	(Rupees)			
US Dollars to PKR	279.60	283.45	283.20	278.59

Sensitivity analysis

A 10 percent strengthening / (weakening) of the Pak Rupee against the US Dollar at June 30, 2025 would have increased / (decreased) the profit by Rs.313.06 million (2024: Rs.235.16 million). This analysis assumes that all other variables, in particular interest rates, remain constant and the analysis is performed on the same basis as done in prior year.

37.3.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate exposure arises from short and long term borrowings from banks.

At the reporting date, the interest rate profile of the Company's interest-bearing financial instrument is:

	Carrying amount	
	2025	2024
	(Rupees in '000)	
Fixed rate instruments		
Financial liabilities	1,270,702	1,416,432
Variable rate instruments		
Financial liabilities	4,250,000	3,450,000

a) Cash flow sensitivity analysis for variable rate instruments

The Company holds various variable rate financial instruments amounting to Rs. 4,250 million (2024: Rs. 3,450 million) exposing the Company to cash flow interest rate risk. A change of 100 basis points as at June 30, 2025 would have increased / (decreased) profit after tax and equity by Rs. (28.1) million (2024: Rs. 22.9 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

b) Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect the statement of profit or loss.

Balance as at 30 June 2024	3,685,238	1,203,780	7,509	29,302	4,925,829

Other price risk

Price risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate due to changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Company has no exposure to price risk.

37.5 Fair value of financial assets and liabilities

The carrying values of financial assets and financial liabilities reported in the statement of financial position approximate their fair values.

38. CAPITAL MANAGEMENT

The objective of the Company when managing capital is to safeguard its ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital base to support the sustained development of its businesses. The Company intends to manage its capital structure by monitoring return on capital, as well as the level of dividends to ordinary shareholders.

39. MEASUREMENT OF FAIR VALUES

Management engages an independent external expert / valuer to carry out valuation of its non-financial assets (i.e. Land and Building) and obtains rate from financial institution to value derivative financial instruments. Involvement of external valuers is decided by management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

When measuring the fair value of an asset or a liability, the Company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at June 30, 2025, all financial assets and financial liabilities are carried at amortised cost which is approximate to their fair value. The Company measures the Land and Buildings at fair value and all of the resulting fair value estimates in relation to Land and Buildings of the Company are included in Level 3.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the management recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers between different levels of fair values mentioned above.

The following table provides the valuation approach, inputs used and inter-relationship between significant unobservable inputs and fair value measurement of the Company's Land and Buildings measured at fair value

Assets measured at fair value	Date of Valuation	Valuation approach and inputs used	Inter-relationships between significant unobservable inputs and fair value measurement
Revalued property, plant and equipment			
- Land and Building	30 June 2025	The valuation model is based on price per square meter and current replacement cost method adjusted for depreciation factor for the existing assets in use. In determining the valuations for land and buildings, the valuer refers to current market conditions, structure, current replacement cost, sale prices of comparable land in similar location adjusted for differences in key attributes such as land size and inquires with numerous independent local estate agents / realtors in the vicinity to establish the present market value. The fair valuation of land and building is considered to represent a level 3 valuation based on significant non-observable inputs being the location and condition of the assets.	The fair value is subject to change owing to changes in input. However, management does not expect material sensitivity to the fair values arising from the non-observable inputs.

The fair value of land and buildings is a Level 3 recurring fair value measurement. A reconciliation of the opening and closing fair value is provided below:

	2025	2024
	(Rupees in '000)	
Opening net book value	6,126,446	6,338,863
Additions during the year	545,121	59,884
Depreciation for the year	(312,562)	(272,301)
Disposals during the year (at NBV)	-	-
Revaluation during the year	2,179,839	-
Closing net book value	8,538,844	6,126,446

Management assessed that the fair values of cash & cash equivalents, other receivable, receivables from K-Electric, trade deposits, trade debts, short term borrowings, trade and other payables, accrued mark-up, contract liabilities and unclaimed dividends approximate their carrying amounts largely due to short-term maturities of these instruments. For long term deposit and long term financing, management consider that their carrying values approximates fair value owing to credit standing of counterparties and interest payable on borrowings are market rates.

Cold rolled	108,045	95,477
Galvanising	147,825	172,200
Colour coated	8,168	6,185

- 42.1** The name-plate capacities of the plants are determined based on a certain product mix. The actual production mix is different. Actual production during the year was sufficient to meet the market demand

43. OPERATING SEGMENT

- 43.1** These financial statements have been prepared on the basis of a single reportable segment.

- 43.2** Revenue from sales of steel products represents 99.90% (2024: 99.64%) of total revenue whereas remaining represent revenue from sale of surplus electricity to K-Electric Limited (KE). The Company does not consider sale of electricity to KE as separate reportable segment as the power plant of the Company is installed primarily to supply power to its Galvanizing plant and Cold Rolling plant and currently any excess electricity is sold to KE.

43.3 All non-current assets of the Company as at June 30, 2025 are located in Pakistan.

43.4 85.71% (2024: 79.24%) of gross sales of steel are domestic sales whereas 14.29% (2024: 20.76%) of sales are export / foreign sales.

43.5 Geographic Information

The Company's net revenue from external customers by geographical location is disclosed in note 24.2.

7. CONVERSION OF PHYSICAL SHARES INTO BOOK ENTRY FORM

As per Section 72 of the Companies Act, 2017 all existing companies are required to convert their physical shares into book-entry form within a period not exceeding four years from the date of commencement of the Companies Act, 2017.

The Securities & Exchange Commission of Pakistan through its circular # CSD/ED/Misc./2016-639-640 dated March 26, 2021 has advised the listed companies to pursue their such members who still hold shares in physical form to convert their shares into book-entry form.

We hereby request all such members of International Steels Limited who are holding shares in physical form to convert their shares into book-entry form at the earliest. They are also suggested to contact the Central Depository Company of Pakistan Limited or any active member/stockbroker of the Pakistan Stock Exchange to open an account in the Central Depository System to facilitate the conversion of physical shares into book-entry form.

Members are informed that holding shares in book-entry form has several benefits including but not limited to:

- Secure and convenient custody of shares
- Conveniently tradeable and transferable
- No risk of loss, damage or theft
- No stamp duty on transfer of shares in book-entry form
- Seamless credit of bonus or right share

We once again strongly advise members of the Company, in their best interest, to convert their physical shares into book-entry form at the earliest.

8. ELECTRONIC VOTING

Members can exercise their right to demand a poll subject to meeting requirements of Section 143-145 of the Companies Act, 2017 and applicable clauses of the Companies (Postal Ballot) Regulations, 2018.

ب: اراکین سے درخواست ہے کہ وہ زکوٰۃ اور عشر آرڈیننس 1980 کے مطابق زکوٰۃ سے استثنیٰ کے لئے ایک اعلامیہ (CZ-50) جمع کروائیں اور اگر پتے میں کوئی تبدیلی ہوئی ہو تو فوری مطلع کریں۔

۵۔ غیر دعویٰ شدہ ڈیویڈنڈ:

حصص یافتگان، جو کسی بھی وجہ سے اپنے ڈیویڈنڈ کا دعویٰ نہیں کر سکے ہیں، اُن سے درخواست ہے کہ وہ اپنا غیر دعویٰ شدہ ڈیویڈنڈ وصول کرنے یا اُس کے حوالے سے معلومات حاصل کرنے کے لئے ہمارے حصص رجسٹرار M/s. THK Associates (Pvt) Ltd. سے فوری رابطہ کریں۔

۶۔ ای ڈیویڈنڈ مینڈیٹ

کمپنیز ایکٹ، 2017 کے سیکشن 242 کے مطابق، پبلک لمیٹڈ کمپنی کے معاملے میں، نقد میں قابل ادائیگی کوئی بھی ڈیویڈنڈ صرف الیکٹرانک ذریعے سے حقدار حصص یافتگان کے نامزد کردہ بینک اکاؤنٹ میں بھیجا جائے گا۔

لہذا، اس نوٹس کے ذریعے تمام حصص یافتگان سے درخواست کی جاتی ہے کہ وہ اپنے بینک اکاؤنٹ نمبر (IBAN) اور دیگر تفصیلات کی سنٹرل ڈیپازٹری سسٹم میں تجدید کروائیں۔ حصص سرٹیفیکیٹ کی صورت میں رکھنے والے ممبران برائے کرم مستقبل میں کسی بھی قسم کی تکلیف سے بچنے کے لئے اپنے موجودہ بینک اکاؤنٹ کی تفصیلات ہمارے حصص رجسٹرار، M/s. THK Associates (Pvt) Ltd. کے پاس فوری طور پر تجدید یقینی بنائیں۔ ای ڈیویڈنڈ مینڈیٹ فارم منسلک ہے۔

۷۔ سرٹیفیکیٹ کو بک انٹری فارم میں تبدیل کرنا

کمپنیز ایکٹ 2017 کے سیکشن 72 کے تحت تمام رجسٹرڈ کمپنیز کو کمپنیز ایکٹ 2017 کے آغاز کی تاریخ سے چار سال کی مدت کے اندر اپنے سرٹیفیکیٹس کی بک انٹری کی صورت میں تبدیل کروانے کی تاکید کی گئی ہے۔

پاکستان کے سیکورٹیز اینڈ ایکسچینج کمیشن نے اپنے سرکلر نمبر CSD/ED/MISC.2016 639-640 بتاریخ 26 مارچ 2021 کے ذریعے تمام لسٹڈ اداروں کو عندیہ دیا ہے کہ وہ اپنے ایسے اراکین سے رجوع کریں جن کے پاس ابھی تک سرٹیفیکیٹ کی شکل میں حصص موجود ہیں تاکہ وہ اپنے حصص بک انٹری کی صورت میں تبدیل کروا سکیں۔

ہم یہاں انٹرنیشنل اسمبلیز لمیٹڈ کے ایسے تمام اراکین سے درخواست کرتے ہیں جو حصص کے سرٹیفیکیٹ رکھتے ہیں کہ وہ اپنے حصص جلد از جلد بک انٹری کی صورت میں تبدیل کروائیں۔ انہیں سینٹرل ڈیپازٹری سسٹم میں اکاؤنٹ کھولنے کے لئے سینٹرل ڈیپازٹری کمپنی آف پاکستان لمیٹڈ یا پاکستان اسٹاک ایکسچینج کے کسی بھی فعال رکن / اسٹاک بروکر سے رابطہ کرنے کا مشورہ دیا جاتا ہے تاکہ حقیقی حصص سرٹیفیکیٹس بک انٹری کی صورت میں تبدیل کئے جاسکیں۔

اراکین کو مطلع کیا جاتا ہے کہ بک انٹری کی صورت میں حصص رکھنے کے متعدد فوائد ہیں جن میں شامل ہیں:

- حصص کی محفوظ اور آسان تحویل
- باآسانی قابل تجارت اور قابل منتقلی
- خرابی، نقصان یا چوری کا کوئی خطرہ نہیں
- کھاتے کے اندراج کی شکل میں حصص کی منتقلی پر کوئی اسٹیپ ڈیوٹی نہیں۔
- بلا کاوٹ بونس یا رائٹ شیئرز کی ادائیگی

ہم ایک بار پھر کمپنی کے اراکین کو تنبیہ کرنا چاہتے ہیں کہ وہ اپنے بہترین مفاد میں اپنے حقیقی حصص جلد از جلد بک انٹری کی صورت میں تبدیل کروائیں۔

۸۔ الیکٹرانک ووٹنگ:

اراکین اپنا حق استعمال کرتے ہوئے رائے شماری (پول) کا مطالبہ کر سکتے ہیں۔ بشرطیہ وہ کمپنیز ایکٹ 2017 کے سیکشن 143 تا 145، اور کمپنیز پوسٹل بیلٹیٹ ریگولیشنز کی متعلق شقوق کی ضروریات کو پورا کریں۔

۹۔ فالگر اور نان فالگر کی حیثیت

(i) حکومت پاکستان کی جانب سے فنانس ایکٹ 2024 کے ذریعے انکم ٹیکس آرڈیننس 2001 کے سیکشن 150 کے تحت رجسٹرڈ اداروں کی جانب سے ڈیویڈنڈ کی ادائیگیوں پر وہ ہولڈنگ ٹیکس کے لئے حسب ذیل شرائط تجویز کی گئی ہیں۔

۱۔ ویڈیو کانفرنسنگ کی سہولت کے ذریعے اجلاس میں شرکت:

ویڈیو کانفرنسنگ کے ذریعے اجلاس میں شرکت کرنے میں دلچسپی رکھنے والے حاملین حصص سے درخواست کی جاتی ہے کہ وہ مندرجہ معلومات کو انٹرنیشنل اسٹیلز لمیٹڈ کے سالانہ اجلاس عام 2025 کی رجسٹریشن کے عنوان کے ساتھ اپنی تصدیق شدہ کمپیوٹر انڈز قومی شناختی کارڈ کے دونوں اطراف کی کاپی کے ساتھ investors@isl.com.pk پر ای میل کریں۔ ویڈیو لنک اور لاگ ان کی تفصیلات صرف ان اراکین کو بھیجی جائیں گی جن کی ای میل تمام مطلوبہ تفصیلات کے ساتھ سالانہ اجلاس عام کے وقت سے کم از کم 48 گھنٹے پہلے موصول ہوئی ہو۔
